Anthology Of Ancient And Medieval Womens Song:

Anthology of Ancient Medieval Woman's Song A. Klinck, 2004-04-16 This collection focuses on a woman's point of view in love poetry and juxtaposes poems by women and poems about women to raise questions about how femininity is constructed. Although most medieval woman's songs are either anonymous or male authored lyrics in a popular style, the term can usefully be expanded to cover poetry composed by women and poetry that is aristocratic or learned rather than popular. Poetry from ancient Greece and Rome that resonates with the medieval poems is also included here. Readers will find a range of voices often echoing similar themes as women rejoice or lament, praise or condemn, plead or curse, speak in jest or in earnest to men and to each other about love.

Woman's Songs in Ancient Greece Anne L. Klinck, 2008-12-15 Through a balanced discussion of poetry as performance, relevant kinds and genres of poetry, the definition and scope of woman's song as a mode, parthenia, maidens' songs, and the girls' chorus lyric in the drama, echoes and imitations of archaic woman's song in Hellenistic poetry, and inferences about the differences between male and female authors, Klinck demonstrates that woman's song is ultimately best understood as the product of a male-dominated culture, but that feminine stereotypes, while refined by skilful male poets, are interrogated and shifted by female poets.

Women and Gender in Medieval Europe Margaret Schaus, 2006 Publisher description

Medieval Oral Literature Karl Reichl, 2011-11-30 Medieval literature is to a large degree shaped by orality, not only with regard to performance but also to transmission and composition. Although problems of orality have been much discussed by medievalists, there is to date no comprehensive handbook on this topic. *Medieval Oral Literature*, a volume in the De Gruyter Lexikon series, was written by an international team of twenty-five scholars and offers a thorough discussion of theoretical approaches as well as detailed presentations of individual traditions and genres. In addition to chapters on the oral formulaic theory, on the interplay of orality and writing in the Early Middle Ages, on performance and performers, on oral poetics, and on ritual aspects of orality, there are chapters on the Older Germanic Romance, Middle High German, Middle English, Celtic, Greek, Byzantine, Russian, Hebrew, Arabic, Persian, and Turkish traditions of oral literature. There is a special focus on epic and lyric genres that are also discussed in separate chapters, with additional chapters on the ballad and on drama.

Female-Voice Song and Women's Musical Agency in the Middle Ages, 2022-08-22 This collection of seventeen essays newly identifies contributions to musical culture made by women before 1500 across Europe. You will learn about repertoire from such diverse locations as Iceland, Spain, and Italy, and encounter examples of musicianship from the gender-fluid professional musicians at the Islamicate courts of Syria to the nuns of Barking Abbey in England. The book shows that women drove musical patronage, dissemination, composition, and performance, including within secular and ecclesiastical contexts, and also reflects on the reception of medieval women's musical agency by both medieval poets and by modern recording artists. Contributors are David Catalunya, Lisa Colton, Helen Dell, Annemari Ferreira, Rachel Golden, Gillian L. Gower, Anna Kathryn Grau, Carissa M.

Medieval Woman's Song Anne L. Klinck,Ann Marie Rasmussen,2015-08-06 The number of surviving medieval secular poems attributed to named female authors is small some of the best known being those of the trobairitz the female troubadours of southern France However there is a large body of poetry that constructs a particular textual femininity through the use of the female voice Some of these poems are by men and a few by women including the trobairitz many are anonymous and often the gender of the poet is unresolvable A woman s song in this sense can be defined as a female voice poem on the subject of love typically characterized by simple language sexual candor and apparent artlessness The chapters in Medieval Woman s Song bring together scholars in a range of disciplines to examine how both men and women contributed to this art form Without eschewing consideration of authorship the collection deliberately overturns the long standing scholarly practice of treating as separate and distinct entities female voice lyrics composed by men and those composed by women What is at stake here is less the voice of women themselves than its cultural and generic construction

Love Songs Ted Gioia,2015 Uncovers the unexplored history of the love song from the fertility rites of ancient cultures to the sexualized YouTube videos of the present day and discusses such topics as censorship the legacy of love songs and why it is a dominant form of modern musical expression *Women and Medieval Literary Culture* Corinne Saunders,Diane Watt,2023-08-17 Focusing on England but covering a wide range of European and global traditions and influences this authoritative volume examines the central role of medieval women in the production and circulation of books and considers their representation in medieval literary texts as authors readers and subjects assessing how these change over time Engaging with Latin French German Welsh and Gaelic literary culture it places British writing in wider European contexts

while also considering more distant influences such as Arabic Essays span topics including book production and authorship reception linguistic literary and cultural contexts and influences women's education and spheres of knowledge women as writers scribes and translators women as patrons readers and book owners and women as subjects Reflecting recent trends in scholarship the volume spans the early Middle Ages through to the eve of the Reformation and emphasises the multilingual multicultural and international contexts of women's literary culture

Desire by Gender and Genre in Trouvère Song Helen Dell, 2008 Unspoken desire in trouvère song This study brings the songs of the trouvères to an encounter with Lacanian psychoanalytic theories of signification sexual difference and unconscious desire In trouvère song desire functions as a means of generic and genderic differentiation The trouvères distinguished between sexual need or lust and desire the latter usually confined to the masculine voice in high style Less exalted persons in whose company women were already implicitly included appear as incapable of desire in the fin amors register Critics have treated the issue of desire as represented in the courtly chanson but because criticism has followed the trouvères distinction between desire and need discussion of desire has been limited to songs in the courtly register rather than across the system of genres Desire in Lacan's sense that is unconscious desire is present in all genres and voices and this book unearths the unspoken desires of trouvère song by an attention to the characteristic means by which subjects subvert their demands in different genres

The Song of Songs and Its Tradition in Renaissance Love Lyric Camilla Caporicci, 2025-01-29 Traditionally attributed to King Solomon and called by Rabbi Akiva the Holy of Holies among sacred Scriptures Mishnah Yadayim 3:5 the Song of Songs is one of the most fascinating and controversial biblical books and played an essential role in the shaping of European spirituality and culture Combining in a unique way a sensual and deeply lyrical celebration of love with a well established tradition of Christian allegorical interpretation this text crucial to both the Middle Ages and the early modern period held a particular appeal for poets devoted not only to religious verse but also to love poetry

The Song of Songs and Its Tradition in Renaissance Love Lyric is the first systematic and wide ranging investigation of the multifaceted use of the Song of Songs in Renaissance love lyric poetry with specific attention to Italian French and especially English poetic production At the same time this investigation is embedded into a narrative that comprising two initial chapters devoted to medieval poetry and to Francesco Petrarca represents an unprecedented attempt to trace the role of the Song of Songs in the rise and development of the European love lyric following its path or rather one of its paths from the medieval origins of this tradition to the end of the sixteenth century The picture of the general impact of the Song of Songs in the development of the European love lyric is combined with in depth analysis of key works by specific authors including Dante Alighieri Francesco Petrarca Torquato Tasso Marguerite de Navarre Anne de Marquets Clément Marot Richard Barnfield Edmund Spenser William Shakespeare John Donne Elizabeth Melville and Aemilia Lanyer promoting a contextualization of their significance within a new

interpretative framework While the comparative standpoint characterizing this study fosters a deeper comprehension of the evolution of the European love lyric its multidisciplinary approach which considers the Song of Songs as the centre of a web of dynamics pertaining to the fields of literature philosophy theology and religious and cultural history contributes to the understanding of the thought and spirit of ages crucial to the shaping of European culture *Women in Music* Karin
