Chicorel Index to Poetry in Anthologies and Collections--retrospective Marietta Chicorel, 1975 *German Poetry from 1750 to 1900: Goethe, Holderlin, Nietzsche and Others* Robert Browning, 1984-05-01 This anthology of German verse in English translation covers a period that includes perhaps two thirds of the superlative poets of the German language Here are 147 poems representing 27 poets from Matthias Claudius to Friedrich Nietzsche The selection is representative including both the universally known Goethe Schiller Holderlin and the less familiar Brentano Droste Hulshoff Holty Hebbel Storm Among the translations are classics by Coleridge Longfellow and the Irish poet James Mangan *International Anthologies of Literature in Translation* Harald Kittel, 1995-01-01 **The Archetypal Imagination** James Hollis, 2002-11-25 Also available in an open access full text edition at <http://oaktrust.library.tamu.edu/handle/1969.1/85764> What we wish to know and most desire remains unknowable and lies beyond our grasp With these words James Hollis leads readers to consider the nature of our human need for meaning in life and for connection to a world less limiting than our own In *The Archetypal Imagination* Hollis offers a lyrical Jungian appreciation of the archetypal imagination He argues that without the human mind's ability to form energy filled images that link us to worlds beyond our rational and emotional capacities we would have neither culture nor spirituality Drawing upon the work of poets and philosophers Hollis shows the importance of depth experience meaning and connection to an other world Just as humans have instincts for biological survival and social interaction we have instincts for spiritual connection as well Just as our physical and social needs seek satisfaction so the

spiritual instincts of the human animal are expressed in images we form to evoke an emotional or spiritual response as in our dreams myths and religious traditions The author draws upon the work of the poet Rainer Maria Rilke's Duino Elegies to elucidate the archetypal imagination in literary forms To underscore the importance of incarnating depth experience he also examines a series of paintings by Nancy Witt With the power of the archetypal imagination available to all of us we are invited to summon courage to take on the world anew to relinquish outmoded identities and defenses and to risk a radical reimagining of the larger possibilities of the world and of the self

Holderlin's Philosophy of Nature Tobias Rochelle Tobias, 2020-05-28 In our age of climate change the work of the decidedly philosophical poet Friedrich Holderlin has gained renewed urgency with its emphasis on the forces of nature that produce life and at the same time threaten to devour it At the heart of his work lies an understanding of nature and the role that consciousness plays within it This responds to but also revises the concerns of 18th and 19th century philosophy of nature This collection of 15 essays by distinguished international scholars reconsiders what his work reveals about the impulses toward form and formlessness in nature and the role that poetry plays in creating Holderlin's harmonious opposition The collection shows that Holderlin anticipates many of the concerns that motivate contemporary environmental thinking
