**Anthropological Structures of
Colonial Psychiatry and the African Mind** Jock

McCulloch, 1995-01-12 In this first history of psychiatry in colonial Africa Jock McCulloch describes the clinical approaches of well known European practitioners including Frantz Fanon and Wulf Sachs They operated independently of one another Yet despite their differences they shared a coherent set of ideas about the African Mind based on the colonial notion of African inferiority By exploring the association between settler ideology and psychiatric research this study examines colonial science as a system of knowledge and power *Handbook of Cultural Psychiatry* Wen-Shing Tseng, 2001-06-06 Cultural psychiatry is primarily concerned with the transcultural aspects of mental health related to human behavior psychopathology and treatment At a clinical level cultural psychiatry aims to promote culturally relevant mental health care for patients of diverse ethnic or cultural backgrounds From the standpoint of research cultural psychiatry is interested in studying how ethnic or cultural factors may influence human behavior and psychopathology as well as the art of healing On a theoretical level cultural psychiatry aims to expand the knowledge and theories about mental health related human behavior and mental problems by widening the sources of information and findings transculturally and providing cross cultural validation This work represents the first comprehensive attempt to pull together the clinical research and theoretical findings in a single volume Key Features Written by a nationally and internationally well known author and scholar The material focuses not only on the United States but also on various cultural settings around the world so that the subject matter can be examined broadly from universal as well as cross cultural perspectives Proper combination of clinical practicalities and conceptual discussion Serves as a major source for use in the training of psychiatric residents and mental health personnel as well as students of behavior science in the areas of culture and mental health A total of 50 chapters with detailed cross referencing Nearly 2000 references plus an appendix of almost 400 books 130 tables and figures **Cultural Psychology and**

Qualitative Methodology Carl Ratner, 2013-03-09 Qualitative methodologies in cultural psychology often lack the objective and verifiable character of quantitative analysis Author Carl Ratner corrects this shortcoming by rigorously systematizing qualitative methods The book discusses for example means of systematizing such subjective reports as interviews letters and diaries which often yield valuable data that is not easily quantified Ratner argues that complex psychological phenomena are expressed through extended responses and hence are best studied by new more regularized qualitative methods that go beyond measuring simple overt responses Cultural-Existential Psychology Daniel Sullivan, 2016-04-06 Bridging cultural

and experimental existential psychology this book offers a synthetic understanding of how culture shapes psychological threat Temporalising Anthropology Timothy Insoll, Rachel MacLean, Benjamin Kankpeyeng, 2013 This volume contains the results of significant fieldwork completed in the Tong Hills of Northern Ghana an area currently inhabited by the Talensi

ethno linguistic group Although made anthropologically renowned by the anthropologist Meyer Fortes the archaeology and material culture of the Talensi Tong Hills had largely been neglected until the research initiated by the authors Extensive archaeological surveys and excavations were completed allied with ethnoarchaeological and ethnobotanical research on shrines sacrifice and indigenous medicine The data is presented and described and a settlement chronology for the region reconstructed The results of the geological organic geochemical petrographic and archaeometallurgical analysis are provided The function of shrines and the meaning of shrine as a concept are evaluated and indigenous medicinal practices their links with shrines and their substances materiality and archaeological implications assessed with reference to the primary empirical material gathered Ritual performance and its inter relation with the past and the archaeological record are also considered so as to question the timelessness of previous anthropological presentations The Tong Hills are also discussed with reference to their place in the wider history and archaeology of the region This book will be useful to anyone interested in the archaeology and anthropology of African indigenous religions and ritual practices as well as those interested in West African history and the relationship between archaeology and anthropology

Beyond WEIRD: Psychobiography in Times of Transcultural and Transdisciplinary Perspectives Claude-Hélène Mayer, Roelf van Niekerk, Paul J.P.

Fouché, Joseph G. Ponterotto, 2023-05-27 This volume presents psychobiographical research in non WEIRD Western Educated Industrialized Rich and Democratic contexts and samples focusing on culture transcultural and transdisciplinary work It creates a platform for researchers scholars and scientists from diverse backgrounds to put forth new theoretical and methodological stances in psychobiography thereby making the field more inclusive diverse and equitable The chapters in this volume investigate the role of context across the life course of non WEIRD psychological subjects as well as the interplay between them and their environments across the life span They further elucidate cognitive affective and behavioural aspects of individuals with non WEIRD backgrounds The volume provides a broad and at the same time in depth perspective into psychobiography beyond the usual contexts and therefore has new and original learnings to offer across disciplines and cultures It is a breakthrough in terms of its transcultural and transdisciplinary insights into lives lived in different contexts in the world Every person is in certain respects a like all other persons b like some other persons c like no other persons This book is a challenging and fascinating exploration of extending psychobiography beyond its origins in Europe and America to women and men of different races and social and economic classes from Africa Asia and around the world At its best psychobiography can increase people s awareness of their own subjective experience and that of others contributing to movements for social cultural and political change William McKinley Runyan Professor Emeritus Professor of the Graduate School School of Social Welfare U of California Berkeley Beyond Weird is beyond needed The book triumphantly fills the gap created by a dearth of studies of people other than Western educated European and American men James William Anderson PhD Professor of Clinical Psychiatry and Behavioral Sciences Northwestern University Chicago

Heterosexual Africa? Marc Epprecht,2008-08-15 Heterosexual Africa The History of an Idea from the Age of Exploration to the Age of AIDS builds from Marc Epprecht s previous book Hungochani which focuses explicitly on same sex desire in southern Africa to explore the historical processes by which a singular heterosexual identity for Africa was constructed by anthropologists ethnopsychologists colonial officials African elites and most recently health care workers seeking to address the HIV AIDS pandemic This is an eloquently written accessible book based on a rich and diverse range of sources that will find enthusiastic audiences in classrooms and in the general public Epprecht argues that Africans just like people all over the world have always had a range of sexualities and sexual identities Over the course of the last two centuries however African societies south of the Sahara have come to be viewed as singularly heterosexual Epprecht carefully traces the many routes by

which this singularity this heteronormativity became a dominant culture In telling a fascinating story that will surely generate lively debate Epprecht makes his project speak to a range of literatures queer theory the new imperial history African social history queer and women s studies and biomedical literature on the HIV AIDS pandemic He does this with a light enough hand that his story is not bogged down by endless references to particular debates Heterosexual Africa aims to understand an enduring stereotype about Africa and Africans It asks how Africa came to be defined as a homosexual free zone during the colonial era and how this idea not only survived the transition to independence but flourished under conditions of globalization and early panicky responses to HIV AIDS

Imperial Bedlam Jonathan Sadowsky, 2023-04-28 The colonial government of southern Nigeria began to use asylums to confine the allegedly insane in 1906 These asylums were administered by the British but confined Africans Yet as even many in the government recognized insanity is a condition that shows cultural variation Who decided the inmates were insane and how This sophisticated historical study pursues these questions as it examines fascinating source material writings by African patients in these institutions and the reports of officials doctors and others to discuss the meaning of madness in Nigeria the development of colonial psychiatry and the connections between them Jonathan Sadowsky s well argued concise study provides important new insights into the designation of madness across cultural and political frontiers Imperial Bedlam follows the development of insane asylums from their origins in the nineteenth century to innovative treatment programs developed by Nigerian physicians during the transition to independence Special attention is given to the writings of those considered lunatics a perspective relatively neglected in previous studies of psychiatric institutions in Africa and most other parts of the world Imperial Bedlam shows how contradictions inherent in colonialism were articulated in both asylum policy and psychiatric theory It argues that the processes of confinement the labeling of insanity and the symptoms of those so labeled reflected not only cultural difference but also political divides embedded in the colonial situation Imperial Bedlam thus emphasizes not only the cultural background to madness but also its political and experiential dimensions This title is part of UC Press s

Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1999 The colonial government of southern Nigeria began to use asylums to confine the allegedly insane in 1906 These asylums were administered by the British but confined Africans Yet as even many in the government recognized insanity is a condition that sh
