Anthropology and History in Yucatán Grant D Jones, 1977

Anthropology and History in Yucatán Grant D.

Jones, 2014-05-12 Anthropology and History in Yucatán is a collection of ten essays that offer new evidence and interpretations of the survival and adaptation of lowland Maya culture from its earliest contact with the Spanish to the 1970s. These case studies reflect a growing interest in the use of historical approaches in the development of models of cultural change that will integrate archaeological, historical, and ethnographic data. The portrait of the Maya emerging from this collection is that of a remarkably vital people who have skillfully resisted total incorporation with their neighbors and who continue even today to emphasize their cultural independence and historical uniqueness. In his introduction, Grant D. Jones synthesizes previous studies of the anthropological history of Yucatán and summarizes the theoretical issues underlying the volume. Section I, which focuses on continuity and change in the boundaries of Maya ethnicity in Yucatán, includes contributions by the late Sir Eric Thompson, France V. Scholes, and O. Nigel Bolland. Section II presents comparative regional perspectives of Maya adaptations to external forces of change and contains essays by D. E. Dumond, Grant D. Jones, James W. Ryder, and Anne C. Collins. In the closing section, three articles by Victoria Reifler Bricker, Allan F. Burns, and Irwin Press treat Maya concepts of their own history. Throughout the book, the authors demonstrate that models far more complex than Robert Redfield's folk-urban continuum must be developed to account for the great regional variations in responses by the Maya to the pressures of economic, cultural, and political control as exerted by Spanish, Mexican, Guatemalan, and British authorities over the past four centuries. The essays demonstrate a variety of methodological approaches that will be of interest to historians, ethnohistorians, ethnologists, archaeologists, and those who have a general interest in the survival of Maya culture.

Yucatan in an Era of Globalization Eric N. Baklanoff, Edward H. Moseley, 2008-03-18 This work describes the profound changes to Yucatán's society and economy following the 1982 debt crisis that prostrated Mexico's economy. The editors have assembled contributions from seasoned Yucatecologists, historians, geographers, cultural students, and an economist to chart the accelerated change in Yucatán from a monocrop economy to a full beneficiary and victim of rampant globalization.

Yaxcabá and the Caste War of Yucatán Rani T. Alexander, 2004 Rani Alexander's study of the Caste War of Yucatán, 1847-1901, uses archaeological evidence, ethnography, and history to explore the region's processes of resistance.

Reckoning with Change in Yucatán Jason Ramsey, 2023-11-30 Reckoning with Change in Yucatán engages with how best to look upon and respond to change, arguing that this debate is an important arena for negotiating local belonging and a force of transformation in its own right. For residents of Chunchucmil, a historic rural community in Yucatán, Mexico, history is anything but straightforward. Living in what is both a defunct 19th-century hacienda estate and a vibrant Catholic pilgrimage site, Chunchucmil's residents reckon past, present, and future in radically different ways. For example, while some use the aging estate buildings to weave a history of economic decline and push for revitalization by hotel developers, others highlight the growing

fame of the Virgin of the Rosary in the attached church and vow to defend the site from developer interference By exploring how past and future are channeled through changing built environments landscapes sacred relics and legal documents this ethnographic study details how the politics of change provide Chunchucmil with a common language for debating commitments to place and each another in the present Against Western notions of History as a relatively coherent account of change the book suggests we reframe it as an ongoing performance that is always fractured democratic and morally tinged

Yucatán's Maya Peasantry and the Origins of the Caste War Terry Rugeley, 2010-01-01 Conflicts between native Maya peoples and European derived governments have punctuated Mexican history from the Conquest in the sixteenth century to the current Zapatista uprising in Chiapas In this deeply researched study Terry Rugeley delves into the 1800 1847 origins of the Caste War the largest and most successful of these peasant rebellions Rugeley refutes earlier studies that seek to explain the Caste War in terms of a single issue Instead he explores the interactions of several major social forces including the church the hacienda and peasant villagers He uncovers a complex web of issues that led to the outbreak of war including the loss of communal lands substandard living conditions the counterpoise of Catholicism versus traditional Maya beliefs and an increasingly heavy tax burden Drawn from a wealth of primary documents this book represents the first real attempt to reconstruct the history of the pre Caste War period In addition to its obvious importance for Mexican history it will be illuminating background reading for everyone seeking to understand the ongoing conflict in Chiapas

Rediscovering The Past at Mexico's Periphery Gilbert M. Joseph, 2003-09-29 Surveys major trends in Yucatán's currents in Mexican historiography and suggest new departures for regional and local level research Increasingly the modern era of Mexican history c 1750 to the present is attracting the attention of Mexican and international scholars Significant studies have appeared for most of the major regions and Yucatán in particular has generated an unusual appeal and an abundant scholarship This book surveys major trends in Yucatán's currents in Mexican historiography and suggest new departures for regional and local level research Rather than compiling lists of sources around given subject headings in the manner of many historiographies the author seeks common ground for analysis in the new literature's preoccupation with changing relations of land labor and capital and their impact on regional society and culture Joseph proposes a new periodization of Yucatán's modern history which he develops in a series of synthetic essays rooted in regional political economy

Historical Archaeology of Childhood and Parenting April Kamp-Whittaker, Jamie J. Devine, Suzanne M. Spencer-Wood, 2024-04-12 The study of childhood in historical archaeology enriches interpretations of the past but also has the potential for contributing to the understanding of methodological and theoretical issues in archaeology Archaeologically children are understudied relative to both their demographic and social importance partly because children are viewed as difficult to discern in the archaeological record Historical archaeology with its access to historical documents to supplement and illuminate archaeological evidence provides an opportunity to gain a greater understanding of the ways children's daily

lives in the past were expressed in historically changing types and patterns of material culture Recent research presented in this volume contributes valuable perspectives for conceptualizing the historically changing social nature of childhood and methods for illuminating the roles of children Case studies are designed to illustrate methodological and theoretical advances in the historical archaeology of materialized experiences discourses identities places and their meanings associated with parenting and childhood The volume is organized into three sections devoted to case studies about 1 how childhood and parenting have been socially constructed cross culturally and temporally 2 social ideologies of childhood in contested spaces and 3 the relationship between children s experiences and adult expectations of childhood Each chapter demonstrates advances in current methods or theories used in the archaeology of childhood A final discussant drawn from the broader field of research on the archaeology of childhood provides a commentary on the ways the perspectives provided in the volume can be employed by researchers outside the sub discipline of historical archaeology

The Indian Christ, the Indian King
Victoria Reifler Bricker, 2014-03-07 Victoria Bricker shows that history sometimes rests on mythological foundations and that myth can contain valid historical information Her book which is a highly original critique of postconquest historiography about the Maya challenges major assumptions about the relationship between myth and history implicit in structuralist interpretations The focus of the book is ethnic conflict a theme that pervades Maya folklore and is also well documented historically The book begins with the Spanish conquest of the Maya In chapters on the postconquest history of the Maya five ethnic conflicts are treated in depth the Cancuc revolt of 1712 the Quisteil uprising of 1761 the Totonicapan rebellion of 1820 the Caste War of Yucatan 1847 1901 and the Chamulan uprising in 1869 Analytical chapters consider the relationship between historical events and modern folklore about ethnic conflict Bricker demonstrates that myths and rituals emphasize structure at the expense of temporal and geographical provenience treating events separated by centuries or thousands of miles as equivalent and interchangeable An unexpected result of Bricker s research is the finding that many seemingly aboriginal elements in Maya folklore are actually of postconquest origin and she shows that it is possible to determine precisely when and more important why they become part of myth and ritual Furthermore she finds that the patterning of the accretion of events in folklore over time provides clues to the function or meaning of myth and ritual for the Maya Bricker has made use of many unpublished documents in Spanish English and Maya as well as standard synthetic historical works The appendices contain extensive samples of the oral traditions that are explained by her analysis

Women of Yucatan
George Ann Huck, Jann E. Freed, 2014-10-01 In the strongly patriarchal society of the Mexican state of Yucatan it s not surprising that few women have dared to challenge the gender inequalities set against them at birth They live in an environment where rape can be forgotten as a crime if the victim agrees to marry her aggressor and where negative pregnancy tests are often a prerequisite for employment in the maquiladora factories This book profiles 30 women who have dared to challenge such injustices and dramatically transform their situations From local theatre directors and

choreographers to civic leaders and politicians each woman formed a unique leadership of circumstance dependent largely on the context of her personal experiences The profiles based on personal interviews and supplemented by photographs describe the women s accomplishments and motivations as well as the obstacles they have confronted
