Anthropology & the Colonial Encounter Talal Asad, 1985 We have been reminded time and again by anthropologists of the ideas and ideals of the Enlightenment in which the intellectual inspiration of anthropology is supposed to lie But anthropology is also rooted in an unequal power encounter between the West and the Third World which goes back to the emergence of bourgeois Europe an encounter in which colonialism is merely one historical moment It is this encounter that gives the West access to cultural and historical information about the societies it has progressively dominated and thus not only generates a certain kind of universal understanding but also reenforces the inequalities in capacity between the European and the non European worlds and derivatively between the Europeanized elites and the traditional masses in the Third World From the Introduction page 16 *Anthropology & the Colonial Encounter* Talal Asad, 1998 We have been reminded time and again by anthropologists of the ideas and ideals of the Enlightenment in which the intellectual inspiration of anthropology is supposed to lie But anthropology is also rooted in an unequal power encounter between the West and the Third World which goes back to the emergence of bourgeois Europe an encounter in which colonialism is merely one historical moment It is this encounter that gives the West access to cultural and historical information about the societies it has progressively dominated and thus not only generates a certain kind of universal understanding but also reenforces the inequalities in capacity between the European and the non European worlds and derivatively between the Europeanized elites and the traditional masses in the Third World from the Introduction The chapters in this book analyze and document ways in which anthropological thinking and practice have been affected by British colonialism They approach this topic from different points of view and at different levels Each stands as an original contribution to an argument which is only just beginning

Asad, 1973 **The Making of Anthropology in East and Southeast Asia** Shinji Yamashita, Joseph Bosco, Jeremy Seymour Eades, 2004 In a path breaking series of essays the contributors to this collection explore the development of anthropological research in Asia The volume includes writings on Japan China Taiwan Korea Malaysia and the Philippines **Fieldwork as a "Colonial Encounter"? English abstract I will explore the impact and dynamics of fieldwork in various settings and seek to illustrate the extent to which the process itself resembles a colonial encounter Before doing so however initial foundations must be laid through the clarification of terms and detailing of context Concerning the role and significance of fieldwork within the context of colonialism there remains considerable debate as well as subjective interpretation in light of its ambiguous contribution to the colonial objective and the motivations behind its implementation

Anthropology and Colonialism in Asia Jan van Bremen,Akitoshi Shimizu,2013-03-07 For a time it was almost a cliché to say that anthropology was a handmaiden of colonialism by which was usually meant Western colonialism And this insinuation was assumed to somehow weaken the theoretical claims of anthropology and its fieldwork achievements What this collection demonstrates is that colonialism was not only a Western phenomenon but Eastern as well And that Japanese or Chinese anthropologists were also engaged in studying subject peoples But wherever they were and whoever they were anthropologists always had a complex and problematic relationship with the colonial state The latter saw some anthropologists sympathy for the natives as a threat while on the other hand anthropological knowledge was used for the training of colonial officials The impact of the colonial situation on the formation of anthropological theories is an important if not easily answered question and the comparison of experiences in Asia offered in this book further helps to illuminate this complex relationship

Anthropology and Colonialism in Asia and Oceania Jan van Bremen,Akitoshi Shimizu,1999 This study demonstrates that colonialism was not only a western phenomenon Japanese and Chinese anthropologists also studied subject peoples Comparison of experiences further helps to illuminate this complex relationship

Anthropology and Cultural Studies Stephen Nugent,Cris Shore,1997-10-20 The contributors chart a new agenda for anthropology in an increasingly shared terrain of globally interacting cultures and identities

Lewis, 2017-09-08 This book argues that the history and character of modern anthropology has been egregiously distorted to the detriment of this intellectual pursuit and academic discipline The critique of anthropology is a product of the momentous and tormented events of the 1960s when students and some of their elders cried Trust no one over thirty The Marxist postmodern and postcolonial waves that followed took aim at anthropology and the result has been a serious loss of confidence both the reputation and the practice of anthropology has suffered greatly The time has come to move past this damaging discourse Herbert S Lewis chronicles these developments and subjects the critique to a long overdue interrogation based on wide ranging knowledge of the field and its history as well as the application of common sense The book questions discourses about anthropology and colonialism anthropologists and history the problem of exoticizing the Other
