Anthropology Of Breast Feeding:

Anthropology of Breast-Feeding Vanessa Maher, 2024-11-01 On the whole the debates surrounding the issues of breast feeding often reflecting ethnographic and ill informed medical and demographic approaches have failed to treat the deeper issues The significance of breast feeding reaches far beyond its biological function in fact the authors of this volume argue there is nothing natural about breast feeding itself On the contrary attitudes and practices are socially determined and breast feeding has to be seen as an essential element in the cultural construction of sexuality This volume offers an ethnography of breast feeding by examining cultural norms and practices in a number of European and non European societies thus presenting valuable and often astonishing empirical material that is not otherwise readily available The highly original focus of this volume therefore throws new light on gender and on social relationships in general **The**

anthropology of breast-feeding Vanessa Maher, 1992 *Breast Feeding and Sexuality* Mara Mabilia, 2006-10-01 Whereas in western countries breastfeeding is an uncontroversial purely personal issue in most parts of the world mother and baby form part of a network of interpersonal relations with its own rules and expectations In this study the author examines the cultural and social context of breastfeeding among the Gogo women of the Cigongwe s village in Tanzania as part of the Paediatric Programme of Doctors with Africa based in Padua The focus is on mothers behaviour and post partum taboos as key elements in Gogo understanding of the vicissitudes of the breast feeding process This nutritional period is subject to many different events both physical and social that may upset the natural and intense link between mother and child Any violation of cultural norms particularly those dealing with sexual behaviour marriage and reproduction can in the eyes of the Gogo put at risk the correct development of an infant with serious consequences both for the baby s health as well as for the woman s image as mother and wife **Breastfeeding** Cecília Tomori, Aunchalee E. Breastfeeding New Anthropological Approaches unites sociocultural biological and archaeological anthropological scholarship to spark new conversations and research about breastfeeding While breastfeeding has become the subject of intense debate in many settings anthropological perspectives have played a limited role in these conversations The present volume seeks to broaden discussions around breastfeeding by showcasing fresh insights gleaned from an array of theoretical and methodological approaches which are grounded in the close study of people across the globe Drawing on case studies and analyses of key issues in the field the book highlights the power of anthropological research to illuminate the evolutionary historical biological and sociocultural context of the complex lived experience of breastfeeding By bringing together researchers across three anthropological subfields the volume seeks to produce transformative knowledge about human lactation breastfeeding and human milk This book is a key resource for scholars of medical and biological anthropology evolutionary biology bioarchaeology sociocultural anthropology and human development Lactation professionals and peer supporters midwives and others who support infant feeding will find the book an essential read

Ethnographies of Breastfeeding Tanya Cassidy, Abdullahi El Tom, 2015-02-12 Exploring the rise of a new global culture of breastfeeding this important collection frames some of the key international debates surrounding the feeding of infants through in depth ethnographies

Encyclopedia of Medical Anthropology Carol R. Ember, Melvin Ember, 2003-12-31 Medical practitioners and the ordinary citizen are becoming more aware that we need to understand cultural variation in medical belief and practice The more we know how health and disease are managed in different cultures the more we can recognize what is culture bound in our own medical belief and practice The Encyclopedia of Medical Anthropology is unique because it is the first reference work to describe the cultural practices relevant to health in the world's cultures and to provide an overview of important topics in medical anthropology No other single reference work comes close to matching the depth and breadth of information on the varying cultural background of health and illness around the world More than 100 experts anthropologists and other social scientists have contributed their firsthand experience of medical cultures from around the world

The Portrayal of Breastfeeding in Literature B.J. Woodstein, 2022-02-08 This cross cultural study analyses images and descriptions of breasts and breastfeeding in children's books and literature for adults in both English and Swedish It explores how the feeding of infants is depicted in literature in the two languages and discusses why there are differences and how this might reflect the cultures Literary feminist anthropological sociological historical and cultural research is employed to support the analysis and to suggest explanations for the differing depictions

Breastfeeding Patricia Stuart-Macadam, 2017-09-29 Breastfeeding is a biocultural phenomenon not only is it a biological process but it is also a culturally determined behavior As such it has important implications for understanding the past present and future condition of our species In general scholars have emphasized either the biological or the cultural aspects of breastfeeding but not both As biological anthropologists the editors of this volume feel that an evolutionary approach combining both aspects is essential One of the goals of their book is to incorporate data from diverse fields to present a more holistic view of breastfeeding through the inclusion of research from a number of different disciplines including biological and social cultural anthropology nutrition and medicine The resulting book presenting the complexity of the issues surrounding very basic decisions about infant nutrition will fill a void in the existing literature on breastfeeding

The Mother-Infant Nexus in

Anthropology Rebecca Gowland, Siân Halcrow, 2019-10-25 Over the past 20 years there has been increased research traction in the anthropology of childhood. However, infancy, the pregnant body and motherhood continue to be marginalised. This book will focus on the mother-infant relationship and the variable constructions of this dyad across cultures, including conceptualisations of the pregnant body, the beginnings of life and implications for health. This is particularly topical because there is a burgeoning awareness within anthropology regarding the centrality of mother-infant interactions for understanding the evolution of our species, infant and maternal health and care strategies, epigenetic change and biological and social development. This book will bring together cultural and biological anthropologists and archaeologists to examine the infant-maternal interface in past societies. It will showcase innovative theoretical and methodological approaches towards understanding societal constructions of foetal, infant and maternal bodies. It will emphasise their interconnectivity and will explore the broader significance of the mother-infant nexus for overall population well-being. *Anthropology of*

Reproduction: The Basics Sallie Han, Cecília Tomori, 2025-02-24 *Anthropology of Reproduction: The Basics* is a clear and accessible guide to topics in reproduction from the perspective of anthropology, emphasizing the central importance of reproduction in human sociocultural and biological experience. It examines why reproduction matters so much to human beings and what anthropology offers to better understand their decisions about having or not having children and their experiences with periods of infertility, contraception, abortion, pregnancy, pregnancy loss, birth and care for children. The book shows that all of reproduction is shaped by our evolution, prehistory and history, as well as the cultural, social, political and economic contexts and conditions that impact our lives. It tells the story of how these conditions enable, support, constrain or coerce reproduction and how people around the world survive or thrive within, comply with or resist against these forces to create their reproductive futures. Its primary goals are to promote an understanding of human reproduction as sociocultural and biological experience, awareness of and attention to the sociocultural, historical, political and economic contexts and conditions influence the ideas and practices of human reproduction, particularly how social inequities shape reproduction and in turn how we can move towards more equal and just reproductive futures to introduce and reinforce an understanding of anthropology as a discipline taking a holistic approach to human experiences. This student-friendly text provides an overview of the fundamental principles of reproduction and is an invaluable guide for anyone wanting to learn more about this fascinating subject. It is an essential read for students approaching the subject for the first time as well as researchers coming to the topic from another discipline in the sciences and humanities. Nighttime Breastfeeding Cecília

Tomori, 2025-01-01 New parents in the United States are caught between responding to infant needs for closeness and breastfeeding and cultural and medical norms that emphasize solitary sleep. This anthropological investigation shows that nighttime closeness and breastfeeding are the evolutionary and cross-cultural norm, but recent sociocultural shifts produced novel ideals of separation. The book uncovers how breastfeeding parents rework these cultural ideals. In this new edition, the

author describes shifting medical guidance that increasingly supports breastfeeding yet remains largely separated from infant sleep guidance The volume also provides a path towards more equitable approaches to nighttime infant care grounded in reproductive justice

Breastfeeding in Hospital Fiona Dykes, 2006-09-27 Using case studies and interview material of mothers experiences this book provides a new radical and critical perspective on the ways in which women experience breastfeeding in hospitals

Breast Feeding and Sexuality Mara Mabilia, 2005 Any violation of cultural norms particularly those dealing with sexual behaviour marriage and reproduction can in the eyes of the Gogo put at risk the correct development of an infant with serious consequences both for the baby s health and for the woman s image as mother and wife

BOOK JACKET

Mother's Milk Bernice L. Hausman, 2014-02-04 Mother s Milk examines why nursing a baby is an ideologically charged experience in contemporary culture Drawing upon medical studies feminist scholarship anthropological literature and an intimate knowledge of breastfeeding itself Bernice Hausman demonstrates what is at stake in mothers infant feeding choices economically socially and in terms of women s rights Breastfeeding controversies she argues reveal social tensions around the meaning of women s bodies the authority of science and the value of maternity in American culture A provocative and multi faceted work Mother s Milk will be of interest to anyone concerned with the politics of women s embodiment

Food and Culture Carole Counihan, Penny Van Esterik, 1997 This reader reveals how food habits and beliefs both present a microcosm of any culture and contribute to our understanding of human behaviour Particular attention is given to how men and women define themselves differently through food choices

Infant Feeding Practices Pranee Liamputtong, 2013-12-12 It s natural It s unsightly It s normal It s dangerous To breastfeed or not For millions of women around the world this personal decision is influenced by numerous social cultural and health factors Infant Feeding Practices is the first book to delve into these factors from a global perspective revealing striking similarities and differences from country to country Dispatches from Asia Australia Africa the U K and the U S explore as wide a gamut of salient issues affecting feeding practices as traditional beliefs about colostrums breast is best campaigns partner attitudes workplace culture direct government intervention and the pressure to be a good mother Throughout these informative pages women are seen balancing innovation and tradition to nurture healthy thriving babies A sampling of topics covered Policy versus practice in infant feeding Infant feeding in the age of AIDS Managing the lactating body the view from the U S Motherhood work and feeding The effects of migration on infant feeding From breastfeeding tradition to optimal breastfeeding practice Infant Feeding Practices is a first of its kind resource for researchers and practioners in maternal and child health public health global health and cultural anthropology seeking empirical findings and culturally diverse information on this sensitive issue

Clinically Applied Anthropology N. Chrisman, T. Maretzki, 2012-12-06 like other collections of papers related to a single topic this volume arose out of problem sharing and problem solving discussions among some of the authors The two principal recurring issues were 1 the difficulties in translating anthropo logical

knowledge so that our students could use it and 2 the difficulties of bringing existing medical anthropology literature to bear on this task As we talked to other anthropologists teaching in other parts of the country and in various health related schools we recognized that our problems were similar Similarities in our solutions led the Editors to believe that publication of our teaching experiences and research relevant to teaching would help others and might begin the process of generating principles leading to a more coherent approach Our colleagues supported this idea and agreed to contribute What we agreed to write about was Clinically Applied Anthropology Much of what we were doing and certainly much of the relevant literature was applied anthropology And our target group was composed mostly of clinicians The utility of the term became apparent after 1979 when another set of anthropologists began to discuss clinical Anthropology They too recognized the range of novel behaviors available to anthropologists in the health science arena and chose to focus on the clinical use of anthropology We see this as an important endeavor but very different from what we are proposing
