Décoration & Le Rationalisme Architecturaux a L'Exposition Universelle Meredith L. Clausen,1987 *Art Nouveau* Jeremy Howard,1996 This critical survey of the Art Nouveau movement reveals the diversity of this style across the breadth of the European continent With the inclusion of Eastern Europe and the full range of artistic media the book shows how this movement changed the face of European art and design from Paris to Prague Clearly structured by country it traces the emergence of Art Nouveau highlighting the particular interpretations of the style in each country Countries covered include Belgium Spain Britain Austria Hungary and Russia Each chapter contains sections on political and cultural contexts specific visual characteristics and key artists and designers It analyzes the contribution of both well known artists and designers such as Gaudi Van de Velde Mackintosh and Mucha and brings to light many others whose contributions have been largely inaccessible With a bibliography and glossary this text should provide a useful introduction to this subject *Art Nouveau* Gabriel P. Weisberg,Elizabeth K. Menon,2013-09-05 First published in 1998 Design reform in the fields of architecture and the decorative or applied arts became objectified through writings published during the period of 1885 to 1910 This investigation includes but is not limited to Art Nouveau in France and Belgium and the arts and crafts movement in England and the United States Even though the similar processes of creativity and shared goals of Art Nouveau and the arts and crafts movement have long been recognized attempts to explore their origins and their points of interrelation with the broader scope of art history have been largely unsuccessful until now

Glossary of Art, Architecture and Design Since 1945 John Albert Walker,1992 *Pevsner: The BBC Years* Stephen Games,2016-03-09 Pevsner The BBC Years gives the first full account of Sir Nikolaus Pevsner s engagement with the BBC at a time when both were the dominant institutions in their own fields Pevsner as the most persuasive figure in architecture and art history the BBC as the country s sole broadcaster A German emigr Pevsner was not at first trusted to speak on the air and was only invited to appear at the very end of the war in spite of his growing eminence in academia and publishing With the arrival of the Third Programme in 1946 however he quickly became a broadcasting celebrity and one whom senior BBC figures regarded as essential and novel listening Pevsner The BBC Years looks at the sudden rise in Pevsner s standing at the BBC at what he was admired for and at the circumstances surrounding his being commissioned in the mid 1950s to give the

first series of Reith Lectures on an arts subject the relationship between visual expression and national identity The book explains the roles played by Geoffrey Grigson Basil Taylor Anna Kallin and Leonie Cohn in advancing Pevsner s BBC career analyses the literary character of his broadcasting and considers the function of his talks as an extension of European belletrism It also demonstrates the significance of his concurrent editorship of the King Penguin series of books In addition Pevsner The BBC Years documents the unravelling of Pevsner s reputation It shows how he was caught between changing fashions in media culture and damaged by doubts about the safety of his ideas both within the BBC and externally among British conservatives who found him too radical and American radicals who found him too conservative In Pevsner The BBC Years correspondence from the BBC s archives provides a case study of scholarly thought being exposed to independent scrutiny a process with lessons for today
