Traces of Modernity Dan Smith,2012-06-29 This book offers critical engagements with four objects from the nineteenth century The ruins of the Crystal Palace in Sydenham and the dinosaurs that remain the Albert Memorial in Kensington Gardens Oxford s Pitt Rivers Museum and the short novel by H G Wells The Time Machine These provide very different forms of encounter but are bound by the shadow of the Great Exhibition of 1851 This immense spectacle helped forge our understanding of display surveillance and commodity This legacy can be detected in the development of the modern museum and gallery as well as the shaping of

spaces and structures of trade commerce and political display denying any possibility of conceptually separating these sites Linked by a cumulative narrative that binds the mid nineteenth century to the early twenty first these four objects are identified as formative traces of the past within the present They provide models for critical thought and suggest answers to the problematic conditions that they present as ideologically specific relics from a previous age

Monstrous Liminality Robert G. Beghetto, 2022-01-24

This book examines the transformation of the figure of the stranger in the literature of the modern age in terms of liminality. As a spectral monster that has a paradoxical and liminal relationship to both the sacred and the secular, the figure of the modern stranger has played a role in both adapting and shaping a culturally determined understanding of the self and the other. With the advent of modernity, the stranger, the monster, and the spectre became interconnected, haunting the edges of reason while also being absorbed into normal society. All three together with the cyborg manifest the vulnerability of an age that is fearful of the return of the repressed. Yet these figures can also become reappropriated as positive symbols able to navigate between the dangerous and chaotic elements that threaten society while serving as precarious and ironic symbols of hope or sustainability. The book shows the explanatory potential of focusing on the resacralizing in a paradoxical and liminal manner of traditionally sacred concepts such as messianic time and the utopian, and the conflicts that emerged as a result of secularized modernity's denial of its own hybridization. This approach to modern literature shows how the modern stranger, a figure that is both paradoxically immersed and removed from society, deals with the dangers of failing to be re-assimilated into mainstream society and is caught in a fixed or permanent state of liminality, a state that can ultimately lead to boredom, alienation, nihilism, and failure. These monstrous aspects of liminality can also be rewarding in that traversing difficult and paradoxical avenues they confront both traditional and contemporary viewpoints, enabling new and fresh perspectives suspended between imagination and reality, past and future, nature and artificial. In many ways, the modern stranger, as a figure of literature and the cultural imagination, has become more complicated and challenging in the post-modern contemporary age, both clashing with and encompassing people who go beyond simply the psychological or even spiritual inability to blend in and out of society. However, while the stranger may be altering once again the defining or essentializing of the figure, it could result in the creation of other sets of binaries and thereby dissolve the purpose and productiveness of both strangeness and liminality. The intention of *Monstrous Liminality* is to trace the liminal sphere located between the secular and sacred that has characterized modernity itself. This space has consequently altered the makeup of the stranger from something external into a figure far more liminal, which is forced to traverse this uncanny space in an attempt to find new meanings for an age that is struggling to maintain any.

Feminism and Dialogics: Charlotte Perkins, Meridel Le Sueur, Mikhail M. Bakhtin Carolina Núñez Puente, 2011-11-28. Aquest llibre proposa una lectura feminista dialgica de Charlotte Perkins Gilman, Meridel Le Sueur i Mikhail Bakhtin. La primera part està dedicada al relat curt considerat un dels aspectes oblidats per Bakhtin. El gènere sexual/gender és un altre dels seus oblitats a la base fonamental d'aquesta investigació. Un dels arguments que l'autora defensa és que els hàbits artístics de Gilman i Le Sueur fan impossible que se les confine dins d'un sol gènere literari o sexual. En la segona part s'estudia com la saga deconstructivista de Gilman com el *bildungsroman* feminista de Le Sueur serveixen per a corregir i expandir la teoria bakhtiniana. Entre altres molts aspectes, els personatges femenins estudiats encarnen el subjecte parlant femení. La tercera part avalua les comunitats de dones creades per la ficció de

Le Sueur i Gilman i el seu llegat per a les teories feministes i bakhtinianes El treball in conclou proposant un avan de la dialogia feminista a una pr ctica dial gica del feminisme on totes les perspectives feministes apareixen com a g neres literaris veus en un di leg dial gic

Narrating the News Karen Roggenkamp,2005 Due to a burgeoning print marketplace during the late nineteenth century urban newspapers felt pressure to create entertaining prose that appealed to readers drawing on popular literary genres such as travel adventures detective tales and historical romances as a way of framing the news for readers Using current events for their source documents reporters fashioned their own dramas based on those that readers recognized from a broadly drawn literary culture The desire to spin attractive popular tales sometimes came at the expense of factual information This novel commercialized and sensationalistic style of reporting called new journalism was closely tied to American fiction In *Narrating the News* Karen Roggenkamp examines five major stories featured in three respected New York newspapers during the 1890s the story of two antebellum hoaxes Nellie Bly s around the world journey Lizzie Borden s sensational trial Evangelina Cisneros s rescue from her Spanish captors and the Janet Cooke Jimmy s World scandal to illustrate how new journalism manipulated specific segments of the literary marketplace on vital topics in literary and cultural studies gender expansionism realism and professionalization Unlike previously published studies of literature and journalism which focus only on a few canonical figures Roggenkamp looks at part of the history of mass print communications more generally exposing the competitive and reinforcing interplay between specific literary genres and their journalistic revisions *Narrating the News* provides an original significant contribution to the fields of literature journalism history and cultural studies

Communicating Science Nicholas Russell,2009-10-15 Governments and scientific establishments have been encouraging the development of professional and popular science communication This book critically examines the origin of this drive to improve communication and discusses why simply improving scientists communication skills and understanding of their audiences may not be enough Written in an engaging style and avoiding specialist jargon this book provides an insight into science s place in society by looking at science communication in three contexts the professional patterns of communication among scientists popular communication to the public and science in literature and drama This three part framework shows how historical and

cultural factors operate in today's complex communication landscape and should be actively considered when designing and evaluating science communication. Ideal for students and practitioners in science, engineering, and medicine, this book provides a better understanding of the culture, sociology, and mechanics of professional and popular communication. **G.K. Chesterton**, Stephen R. L. Clark, 2006. Offering a detailed study of early 20th-century essayist, poet, novelist, political campaigner, and theologian G.K. Chesterton, author Stephen R. L. Clark explores Chesterton's ideas and arguments in their historical context while also tracing the history of the early science fiction movement. **A Companion to the Victorian Novel**, Patrick Brantlinger, William Thesing, 2008-04-15. The Companion to the Victorian Novel provides contextual and critical information about the entire range of British fiction published between 1837 and 1901. Provides contextual and critical information about the entire range of British fiction published during the Victorian period. Explains issues such as Victorian religions, class structure, and Darwinism to those who are unfamiliar with them. Comprises original, accessible chapters written by renowned and emerging scholars in the field of Victorian studies. Ideal for students and researchers seeking up to the minute coverage of contexts and trends or as a starting point for a survey course. **Flowers of Time**, Mark Payne, 2020-10-27. For all of its current popularity, contemporary apocalyptic fiction novels set during or after events that devastate the world as we know it is part of a long tradition that includes the Biblical story of Noah, the epic of Gilgamesh, and the Works and Days of the ancient Greek poet Hesiod, as well as the vast array of modern examples. In this short, essayistic book, the author focuses on twentieth and twenty-first century fiction in which new forms of life emerge from catastrophe, how the survivors adapt to the altered conditions of existence, and the various ways in which the past asserts its claims on them, both the immediate past of the world that was lost and the deep past of prehistory and imagination that returns with this loss. In Payne's view, post-apocalyptic fiction is political theory in fictional form. Instead of producing arguments in favor of a particular form of life, it shows what it would be like to live that life. In a world in which there is no more capitalism and no more nation-state, characters have to relearn basic survival skills and return to earlier forms of social life. They acquire new capabilities which bring new satisfactions they could not have anticipated in the world that is gone. In the post-apocalyptic world, they disentangle themselves from old ways of thinking and their misconceptions of human happiness. In this way, Payne argues, post-apocalyptic fiction is the pastoral of our time. The individualism and small-scale social relations of post-apocalyptic fiction are not naïve but instead the necessary ground for choosing the freedoms and capabilities readers would want to see preserved in any future collective that might emerge from them. **Rewriting 'Les Mystères de Paris'**, Amy Wigelsworth, 2016-05-26. Key works of popular fiction are often rewritten to capitalize on their success. But what are the implications of this rewriting process? Such is the question addressed by this detailed study of several rewritings of Eugène Sue's *Mystères de Paris* (1842-43), produced in the latter half of the nineteenth century in response to the phenomenal success of Sue's archetypal urban mystery. Pursuing a compelling analogy between city and text, and exploring the resonance of the

palimpsest trope to both Amy Wigelsworth argues that the myst res urbains are exemplary rewritings which shed new light on contemporary reading and writing practices and emerge as early avatars of a genre still widely consumed and enjoyed in the 21st century Virtual Voyages Paul Longley Arthur,2011 Virtual Voyages is a fascinating account of the European discovery of the elusive great south land told through the literature of imaginary voyages Written at the height of the era of European maritime exploration these bizarre and captivating tales with their wildly imaginative visions of antipodean inversion and strangeness reveal a hidden history of attitudes to colonization By exposing the relationship between myth and reality in the antipodes this book casts new light on the power of fiction to influence history **Victorian Literature and the Physics of the Imponderable** Sarah C Alexander,2015-07-28 The Victorians were obsessed with the empirical but were frequently frustrated by the sizeable gaps in their understanding of the world around them This study examines how literature and popular culture adopted the emerging language of physics to explain the unknown or imponderable
