

# Examples of antitrust violations in agriculture:

## Anti-competitive merger

- in 1998, Monsanto proposed acquiring Dekalb Genetics Corporation which, like Monsanto, was a leader in corn seed biotechnology and both held patents giving them control over technology
- Concern was how the merger would effect both competition of seed and biotechnology innovation
- Merger was allowed when Monsanto agreed to spin off certain technologies and to license certain corn germination technology to over 150 seed companies to allow them to develop their own corn hybrids

No changes to antitrust statutes in the 2014 Farm Bill

## **Antitrust And Agriculture:**

Agriculture, Sustainability and Competition Law Martin Milán Csirszki, 2025-04-22 Through a detailed law and policy analysis this book investigates competition law and policy in relation to agricultural producers examining the topic in light of both the neoliberal agricultural policy and food sovereignty paradigms with a focus on their differing approaches to competition and sustainability This book addresses the increasing pressures faced by agricultural producers stemming from two major developments the shift towards neoliberal economic policies in agri food markets and the growing recognition of the agricultural sector's role in environmental degradation due to unsustainable practices These developments have provoked protests from farmers and prompted critical questions about how different agricultural and competition policy theories navigate the complex relationship between competition agriculture and sustainability By conceptualising the connections between each topic the book comprehensively analyses their interdependence While competition law experts frequently overlook the realities of the agricultural sector agricultural scholars may not fully grasp the objectives of competition law By bridging these divides the book provides an integrated understanding of competition and agricultural policy also with a particular focus on sustainability This book will be of interest to researchers in the field of agricultural law and policy and competition law and policy as well as those interested in sustainability *Antitrust Law Developments* Debra
