Antitrust In Perspective The Complementary Roles Of Rule And Discretion:

Antitrust in Perspective Milton Handler, 1982 Contains a series of lectures delivered by Professor Handler at the University of Buffalo concerning the stubborn problems involved in the application of legal controls to the maintenance of a healthy balanced system of free economic enterprise *ABA Journal* , 1966-07 The ABA Journal serves the legal profession Qualified recipients are lawyers and judges law students law librarians and associate members of the American Bar Association *ABA Journal* , 1958-04 The ABA Journal serves the legal profession Qualified recipients are lawyers and judges law students law librarians and associate members of the American Bar Association **The Rules of Competition in the European Economic Community** R. Graupner, 2012-12-06 The creation of the European Economic Community and the gradual achievement of a Common Market in connection with this Community raises not only economic but numerous legal problems as well In fact the Treaty of Rome and the various regulations directives and decisions enacted for its implementation are bringing into being a new legal system which has a great influence not only within the frontiers of the Community but also on all European States which are in economic contact with the Community and indeed on the entire world This applies particularly to the provisions on the laws of competition laid down by the Treaty and its implementing regulations These provisions must be known and taken into consideration not only by Common Market enterprises but also by large firms outside the Community The very comprehensive literature on the European Economic Community has therefore laid special stress on this subject The large number of commentaries published in the various languages of the Community on the Rules of Competition indicates the great interest taken not only by the commercial world but also by the world of jurisprudence **Policy and Methods in German and American Antitrust Law** James Maxeiner, 1986-05-15 A remarkable reversal in popular satisfaction with antitrust law has occurred Germany once the classic land of cartels now enforces an antitrust law vigorously and subject to little meaningful opposition while the United States itself the home of antitrust law enforces its antitrust law erratically and against significant criticism Whatever may be the precise measure of support in each country for antitrust laws even the most cursory observation discloses a criticism of antitrust law in the United States not matched in kind or degree in the Federal Republic of Germany This work investigates aspects of some of the many possible explanations legal social and economic for this remarkable turnaround It considers perhaps the most obvious question How do the two antitrust laws differ In partial answer it suggests that certain principal criticisms of American antitrust law reflect dissatisfaction as much with the legal methods by which that law is applied as with the law itself German cartel law Maxeiner suggests utilizes different legal methods which avoid or mitigate many of the problems encountered in American antitrust law **General Catalogue of Printed Books** British Museum. Department of Printed Books, 1969 **Vertical Agreements in Restraint of Trade** Louis Paul Suetens, 1960 Twenty-five Years of Antitrust Milton Handler, 1973 Annual lectures delivered before the Association of the Bar of the City of New York T p **Catalog of**
