World Of Asian Stories: A Teaching Resource Cathy Spagnoli, 2007 The World of Asian Stories is a continuing campaign for storytelling as an effective and non intrusive tool for sensitisation This omnibus of stories and storytelling traditions from 43 countries across Asia provides an overview of methods and the

multitude of stylistic variations The book then embarks on a journey through fast changing landscapes of unique yet unifying cultural experience presented through the distinctive voices of people The focus is on the individual over the din of the dominant This resource book invites teachers parents and children to explore storytelling at home and in school It introduces the reader to basic guidelines offers tips and suggestions on technique and provides an abundant pool of stories to draw from and activities to contextualise them The visuals too offer a wealth of reference points Illustrations are quirky and perceptive subtly acquiring the flavours of the lands through which they journey They complement the sometimes whimsical vagaries of the stories creating an ambience of truthful unassuming and straight from the heart storytelling *Easy-to-make Decorative Kites* Alan Bridgewater, Gill Bridgewater, 1985-01-01 Exciting practical guide helps even new kite makers to assemble test decorate and fly magnificent traditional international kite designs Complete instructions 100 black and white illustrations 9 in full color on covers **Chinese Kites** Hongxun Wang, 1989 *The Modern Kiteflier* Patti Gibbons, 2019-01-03 Over the past generation kiteflying has evolved beyond a childhood rite of passage into a mainstream adult activity The kite s popularity skyrocketed at a time when kite makers adopted modern synthetic materials developed for other industries A new breed of sport kites appeared and kite artists emerged dazzling onlookers with three dimensional aerial sculptures Inventors perfected new designs and accessories while entrepreneurs created a multimillion dollar kiting industry Yet the kitefliers themselves have remained largely anonymous Drawing on the World Kite Museum s audio archives this book brings together firsthand stories from the community of devoted enthusiasts who pull the strings *Asia in the Making of Europe, Volume II* Donald F. Lach, 2010-01-15 Praised for its scope and depth Asia in the Making of Europe is the first comprehensive study of Asian influences on Western culture For volumes I and II the author has sifted through virtually every European reference to Asia published in the sixteenth century he surveys a vast array of writings describing Asian life and society the images of Asia that emerge from those writings and in turn the reflections of those images in European literature and art This monumental achievement reveals profound and pervasive influences of Asian societies on developing Western culture in doing so it provides a perspective necessary for a balanced view of world history Volume I The Century of Discovery brings together everything that a European could know of India Southeast Asia China and Japan from printed books missionary reports traders accounts and maps The New York Review of Books Volume II A Century of Wonder examines the influence of that vast new body of information about Asia on the arts institutions literatures and ideas of sixteenth century Europe [Asian Sources Gifts & Home Products](#) ,2002 **Designing for Diversity** Kathryn H. Anthony, 2021-08-18 A powerful statement about the repercussions of discrimination and the benefits of diversity in architecture Providing hard data for trends that many perceive only vaguely and some deny altogether Designing for Diversity reveals a profession rife with gender and racial discrimination and examines the aspects of architectural practice that hinder or support the full participation of women and persons of color Drawing on interviews and surveys of hundreds of architects Kathryn H Anthony outlines some of the forms

of discrimination that recur most frequently in architecture being offered added responsibility without a commensurate rise in position salary or credit not being allowed to engage in client contact field experience or construction supervision and being confined to certain kinds of positions typically interior design for women government work for African Americans and computer aided design for Asian American architects Anthony discusses the profession's attitude toward flexible schedules part time contracts and the demands of family and identifies strategies that have helped underrepresented individuals advance in the profession especially establishing a strong relationship with a mentor She also observes a strong tendency for underrepresented architects to leave mainstream practice either establishing their own firms going into government or corporate work or abandoning the field altogether Given the traditional mismatch between diverse consumers and predominantly white male producers of the built environment plus the shifting population balance toward communities of color Anthony contends that the architectural profession staves off true diversity at its own peril *Designing for Diversity* argues convincingly that improving the climate for nontraditional architects will do much to strengthen architecture as a profession Practicing architects managers of firms and educators will learn how to create conditions more welcoming to a diversity of users as well as designers of the built environment *Kites in History, in Teaching and in Therapy* Jose A. Fadul, 2009-08-05 The inexpensive paperback edition of the book on kites in history in teaching and in therapy Includes appendices documenting the qualitative research on kites in teaching at the De La Salle College of Saint Benilde
