B. Cressey,1962 **Regional Geography (RLE Social & Cultural Geography)** Ron Johnston,Joost Hauer,G. Hoekveld,2014-01-23 This book urges the case for reinstating regional geography as a contemporary and relevant methodology Much interest was shown in the 1980s in reviving yet restructuring the field of regional geography The essays in this book both review that work and propose a way forward The essays divide into three sections The first assesses traditional regional geography and its relevance to the study of contemporary situations the second the alternative approaches of world systems analysis diffusion and structuration theory The book concludes by considering the potential of regional geography to interpret the structures within which society operates and its claim to remain at the core of the discipline Asia's Lands and People George Babcock Cressey,1962 Asia's Lands and Peoples George Babcock Cressey,1951 *Preventive medicine in World War II.* United States. Asia's Lands and People George Babcock Cressy,1944 Plague Image and Imagination from Medieval to Modern Times Christos Lynteris,2021-07-29 This edited collection brings together new research by world leading historians and anthropologists to examine the interaction between images of plague in different temporal and spatial contexts and the imagination of the disease from the Middle Ages to today The chapters in this book illuminate to what extent the image of plague has not simply reflected but also impacted the way in which the disease is experienced in different historical periods The book asks what is the contribution of the entanglement between epidemic image and imagination to the persistence of plague as a category of human suffering across so many centuries in spite of profound shifts in our medical understanding of the disease What is it that makes plague such a visually charismatic subject And why is the medical religious and lay imagination of plague so consistently determined by the visual register In answering these questions this volume takes the study of plague images beyond its usual art historical framework so as to examine them and their relation to the imagination of plague from medical historical visual anthropological and postcolonial perspectives **Bibliography of Agriculture**

,1963 The Kurdish National Movement Wadie Jwaideh,2006-06-19 A seminal work in the field of Kurdish studies Wadie Jwaideh s pioneering research published for the first time presents a detailed analysis of the early phases of Kurdish nationalism and offers a framework within which to understand the movement s later development Following Wadie Jwaideh s dissertation defense his doctoral chairman took aside Jwaideh s wife Alice and asked her to submit the work for publication without Wadie s permission believing that Wadie s penchant for perfection would postpone its publication indefinitely The thesis was never published during Jwaideh s lifetime but its fame spread by word of mouth and many scholars have recognized its importance not only as a study of the earlier periods of Kurdish nationalism but also as a model for understanding its subsequent history The work now stands as a classic referenced by some of the most renowned scholars in the field Its publication will permit it to reach a greater audience and to contribute more fully to the understanding and appreciation of this geopolitical and cultural movement Jwaideh was born in the southern Iraqi city of Basra into an Arabic speaking Christian family that later moved to Baghdad His intimate knowledge of the land and its people gave Jwaideh shrewd insight into Kurdish society and politics Exploring the rich historical roots of the Kurdish national movement he challenges the established view of the early Kurdish uprisings as isolated incidents triggered by economic hardship or political dissatisfaction Instead he offers a new interpretation of the Kurds nationalist position convincingly demonstrating the age and depth of their grievances This complex and layered history of the Kurdish nationalist movement offers a valuable perspective from which to view the current conditions in Iraq Jwaideh s sensitive and prescient treatment of this region gives his study great contemporary relevance *Preventive Medicine in World War II: Communicable diseases-malaria* John Boyd Coates (Jr.),Ebbe Curtis Hoff,1955 Global Geostrategy Brian Blouet,2020-09-23 This is a new examination of Halford Mackinder s seminal global geostrategic work from the perspective of geography diplomatic history political science international relations imperial history and the space age Mackinder was a man ahead of his time He foresaw many of the key strategic issues that came to dominate the twentieth century Until the disintegration of the Soviet Union western defence strategists feared that one power or alliance might come to dominate Eurasia Admiral Mahan discussed this issue in *The Problem of Asia* 1900 but Mackinder made the most authoritative statement in *The Geographical Pivot of History* 1904 He argued that in the closed Heart Land of Euroasia was a strategically placed region with great resources that if controlled by one force could be the basis of a World Empire James Kurth in *Foreign Affairs* has commented that it has taken two World Wars and the Cold War to prevent Mackinder s prophecy becoming reality In World War I and World War II Germany achieved huge territorial gains at the expense of the Russian empire and the Soviet Union In the former conflict the Russian empire was defeated by Germany but the western powers insisted that the territorial gains made by Germany at the treaty of Brest Litovsk be given up In World War II Britain and the US gave material support to Stalin s totalitarian regime to prevent Nazi Germany gaining control of the territory and resources that might have been a basis for world domination The west

highly conscious of Mackinder's dictum 1919 that 'Who rules East Europe commands the Heartland' quickly adopted policies to contain the Soviet Union. History has therefore proved Mackinder's work to be of vital importance to generations of strategic thinking and he remains a key influence in the new millennium. This book will be of great interest to all students and scholars of strategic studies and military history and of geopolitics in particular. *Introduction to Asia* Angelina Chavez Irapta, 2005
