Kennedy, 2015-12-08 A concern for the art of persuasion as rhetoric was anciently defined was a principal feature of Greek intellectual life In this study of the complex of subjects labeled rhetoric the author explores rhetorical theory and practice from the fifth to the first centuries B C Beginning with the creative rhetoric of the pre Socratic era the study progresses through the time of Aristotle and the Attic orators and concludes with the ossification of rhetoric into a pedantic discipline during the Hellenistic period Originally published in 1963 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Phaedrus Plato, 1998 Phaedrus is widely recognized as one of Plato s most profound and beautiful works It takes the form of a dialogue between Socrates and Phaedrus and its ostensible subject is love especially homoerotic love Socrates reveals it to be a kind of divine madness that can allow our souls to grow wings and soar to their greatest heights Then the conversation changes direction and turns to a discussion of

rhetoric which must be based on truth passionately sought thus allying it to philosophy The dialogue closes by denigrating the value of the written word in any context compared to the living teaching of a Socratic philosopher The shifts of topic and register have given rise to doubts about the unity of the dialogue doubts which are addressed in the introduction to this volume Full explanatory notes also elucidate issues throughout the dialogue that might puzzle a modern reader Jacket

The Surreptitious Speech V. Y. Mudimbe,1992-09 Distinguished scholar V Y Mudimbe assembles a lively tribute to Presence Africaine the landmark African studies journal begun in 1947 Paris While it celebrates the project s forty year history The Surreptitious Speech does not naively canonize the journal but rather offers a vibrant discussion and critical reading of its context characteristics and significance **Rhetorical Investigations** Leslie Gardner,2013-04-12 Rhetorical analysis of texts exposes plausible truths and presumptions implied by the writer s presentation In this volume Leslie Gardner analyses the master psychologist Jung who claimed to be expert at uncovering personal psychological truths In his theoretical writings his rhetoric reveals philosophical ramifications which bear strong similarities to those of the rhetorician of the 18th century Italian philosopher Giambattista Vico This book is driven by an interest in arguing that it is possible to read Jung s works easily enough when you have a set of precepts to go by The paradox of scientific discovery being set out in Jung s grotesque and arcane imagery begins to seem a startling and legitimate psychology for the 21st century It is time Jungian studies took on this most appropriate examination of analytical psychology Bringing Vico to bear directly on Jung s thought has only been cursorily attempted before although much alluded to We find indeed that some of Jung s ideas derive directly from rhetorical theory and this volume proposes to highlight Jung s innovations and bring him into forefront of contemporary psychological thought Rhetorical Investigations will be of interest to analysts and academics and also to those studying philosophy and psychology **The Rhetorical Turn** Herbert W. Simons,2011-02-15 We have only recently started to challenge the notion that serious inquiry can be free of rhetoric that it can rely exclusively on hard fact and cold logic in support of its claims Increasingly scholars are shifting their attention from methods of proof to the heuristic methods of debate and discussion the art of rhetoric to examine how scholarly discourse is shaped by tropes and figures by the naming and framing of issues and by the need to adapt arguments to ends audiences and circumstances Herbert W Simons and the contributors to this important collection of essays provide impressive evidence that the new movement referred to as the rhetorical turn offers a rigorous way to look within and across the disciplines The Rhetorical Turn moves from biology to politics via excursions into the rhetorics of psychoanalysis decision science and conversational analysis Topics explored include how rhetorical invention guides scientific invention how rhetoric assists political judgment and how it integrates varying approaches to meta theory Concluding with four philosophical essays this volume of case studies demonstrates how the inventive and persuasive dimensions of scholarly discourse point the way to forms of argument appropriate to our postmodern age
