Best, 2017-05-17 The guys would come into the glider like a bunch of piss ants skittering around real cocky like But they settled down in the glider Some got airsick and they began thinking about what was ahead One time we were fired on just as we were landing and exiting the glider and one of the boys was hit His friends dragged him to cover beneath a tree He looked up at me and said Take my rifle I'm dying I reached down and took his weapon and he slumped back and died That was pretty tough Combat gliders were called by some as Death Crates Purple Heart Boxes Flying Coffins and Tow Targets They were not pretty and had no graceful lines Viewed from the front they had a pug nose and a sloping Neanderthal forehead Their wings looked like the heavily starched ears of a jackrabbit placed at right angles on a canvas covered frame Twice the length of the body these wings were eighty four feet in length 70 per cent as long as the Wright Brothers first powered flight at Kitty Hawk They could not become airborne let alone fly unless assisted by an engine powered tow plane And for those riding in the back it was like flying through the gates of hell The men who were trained and assigned to guide gliders into battle were said to be the only pilots who had no motors armament parachutes and no second
