Assays Critical Approaches To Medieval And Renaissance Texts Vol V:

Historical Affects and the Early Modern Theater Ronda Arab, Michelle Dowd, Adam Zucker, 2015-05-15 This collection of original essays honors the groundbreaking scholarship of Jean E Howard by exploring cultural and economic constructions of affect in the early modern theater While historicist and materialist inquiry has dominated early modern theater studies in recent years the historically specific dimensions of affect and emotion remain underexplored This volume brings together these lines of inquiry for the first time exploring the critical turn to affect in literary studies from a historicist perspective to demonstrate how the early modern theater showcased the productive interconnections between historical contingencies and affective attachments Considering well known plays such as Shakespeare s Antony and Cleopatra and Thomas Dekker s The Shoemaker s Holiday together with understudied texts such as court entertainments and examining topics ranging from dramatic celebrity to women s political agency to the parental emotion of grief this volume provides a fresh and at times provocative assessment of the historical affects financial emotional and socio political that transformed Renaissance theater Instead of treating history and affect as mutually exclusive theoretical or philosophical contexts the essays in this volume ask readers to consider how drama emplaces the most personal unspeakable passions in matrices defined in part by financial exchange by erotic desire by gender by the material body and by theatricality itself As it encourages this conversation to take place the collection provides scholars and students alike with a series of new perspectives not only on the plays emotions and histories discussed in its pages but also on broader shifts and pressures animating literary studies today *Publishers Trade List Annual*, 1992 ,1992 [The Publishers' Trade List Annual](#) ,1995

Jankowski, 1992 *The Manly Eunuch* Mathew Kuefler, 2001-07-25 The question of masculinity formed a key part of the intellectual life of late antiquity and was crucial to the development of Christian society This idea is at the heart of Mathew Kuefler s new book which revisits the Roman Empire during the third and fifth centuries of the common era Kuefler argues

that the collapse of the Roman army an increasingly autocratic government and growing restrictions on the traditional rights of men within marriage and sexuality all led to an endemic crisis in masculinity men of Roman aristocracy who had always felt themselves to be soldiers statesmen and the heads of households became by their own definition unmanly The cultural and demographic success of Christianity during this epoch lay in the ability of its leaders to recognize and respond to this crisis Drawing on the tradition of gender ambiguity in early Christian teachings which included Jesus s exhortation that his followers make themselves eunuchs for the sake of the kingdom of heaven Christian writers and thinkers crafted a new masculine ideal one that took advantage of the changing social realities in Rome inverted the Roman model of manliness and helped solidify Christian ideology by reinstating the masculinity of its adherents The Masks of Anthony and Cleopatra Marvin Rosenberg, Mary Rosenberg, 2006 In his analysis Marvin Rosenberg sets out to steer a path between the extremes of Rome and Egypt and all they stand for and to explore the relentless to and back confrontation of their different sets of values which leads ultimately to destruction **Blood, Body and Soul** Tamy Burnett, AmiJo Comeford, 2022-04-01 The ever popular Whedonverse television shows Buffy the Vampire Slayer Angel Firefly and Dollhouse have inspired hundreds of articles and dozens of books Curiously the focus of much of the scholarship invokes philosophical ethical metaphysical and other cerebral perspectives Yet these shows are action adventure shows telling stories through physical bodies of many varied and unique forms Characters fight and die suffer grave injuries and traumas and are physically transformed Their bodies bear the brunt of their battles against evil corruption and injustice Through 17 insightful and captivating essays this collection centers the physical spectacle of these televisual series Chapters examine how both disabled and super powered individuals navigate their differing levels of ability how the practice of medicine and medical practitioners are represented and how wellness is understood and depicted both physically and mentally Other essays focus on storylines involving specific body parts the intersection of literal and metaphorical trauma and the processes of recovery from injury illness and impairment Each author offers a unique and thought provoking analysis in an area previously under explored or altogether missing from existing scholarship on the Whedonverse *Urban and Rural Communities in Medieval France* Kathryn Louise Reyerson, John Victor Drendel, 1998 This volume provides case studies of the growth of urban and rural communities and their institutions in Languedoc and Provence in the Middle Ages The importance of a Roman law tradition and the new institutions of the notary and his records are observed in both urban and rural contexts and interactions between town and country are featured *Books in Print* ,1994 **Shakespeare Quarterly** ,1990 **Subject Guide to Books in Print** ,1996 Critical Texts ,1982 *Terres tragiques* Jane Conroy, 1999 **A Companion to Renaissance Drama** Arthur F.
