## Assembly Of Gods:

**Muwatalli's Prayer to the Assembly of Gods Through the Storm-god of Lightning (CTH 381)** Itamar Singer, 1996  
Comparison with other prayers of Muwatalli and with the prayers of earlier and later kings sheds new light on the development of royal prayers in Hatti and in the ancient Near East in general An in depth study of the list of deities in the prayer arranged by their cult centers provides new insights into Hittite theology and history

**Imagining God** Humberto Casanova, 2020-02-05  
An ever growing number of Christians are becoming more and more uncomfortable with the tenets of the church the stories of the Bible and the church's worldview Statistics show that these feelings easily escalate into a crisis of faith and for now their predicament is being resolved by leaving the church This book will certainly help dealing with the crisis by showing that the language of faith is built by a web of metaphors taken from the Ancient Near East We do not need to take biblical language literally but as parables for human values in need to be assessed critically

Among the Host of Heaven Lowell K. Handy, 1994  
During the past two generations there have been many studies on the structure organization and function of the gods of the Levantine and ancient Near Eastern worlds In this important study Lowell Handy provides new directions for thinking on this crucial topic arguing that the structure of the pantheon worshiped in Syria Palestine mirrored the social structure of the city states in that region While many recent studies have investigated the relations of the gods in both biblical and extra biblical texts from the area Handy shows that the pantheon functioned as a bureaucracy This perspective may well be the primary key for understanding hierarchy among the gods

**Making a Mantra** Ellen Gough, 2021-10-11 Jainism originated in India and shares some features with Buddhism and Hinduism but it is a distinct tradition with its own key texts art rituals beliefs and history One important way it has often been distinguished from Buddhism and Hinduism is through the highly contested category of Tantra Jainism unlike the others does not contain a tantric path to liberation But in *Making a Mantra* historian of religions Ellen Gough refines and challenges our understanding of Tantra by looking at the development over two millennia of a Jain incantation or mantra that evolved from an auspicious invocation in a second century text into a key component of mendicant initiations and meditations that continue to this day Typically Jainism is characterized as a celibate ascetic path to liberation in which one destroys karma through austerities while the tantric path to liberation is characterized as embracing the pleasures of the material world requiring the ritual use of mantras to destroy karma Gough however argues that asceticism and Tantra should not be viewed in opposition to one another She does so by showing that Jains perform tantric rituals of initiation and meditation on mantras and alas Jainism includes kinds of tantric practices Gough provocatively argues because tantric practices are a logical extension of the ascetic path to liberation

**Divine Assemblies in Early Greek and Babylonian Epic** Bernardo Ballesteros, 2024-11-05 In early Greek and Near Eastern myth and religion the gods govern the cosmos In narrative poetry they are frequently portrayed through scenes of divine assembly Did Homer and early Greek poets inherit this feature from their more ancient neighbours And what can comparison tell us besides This book is the first to chart divine assembly scenes in ancient Babylonian and early Greek epic It asks why similarities between the two corpora exist and exploits those similarities to enhance understanding of Mesopotamian and early Greek literature and religion The book discusses Sumerian narrative poems the Akkadian works *Atra-Hasis* *Enma-Era* and *Iliu* and the Epic of Gilgamesh Homer's *Iliad* the *Odyssey* Hesiod's *Theogony* and some Homeric Hymns It studies poetic technique and probes further comparisons with Sanskrit Old Norse Polynesian and Aztec mythology It argues that Greek speakers are unlikely to have inherited the divine assembly from the Near East Still one can posit a long term process of oral contact and communication fostered by common poetic structures and religious affinities In a second part pursuing a mythological and religious comparison the book concentrates on ideas about the cosmos and humankind and on power dynamics within the pantheon as well as between gods and mortals A focus on the head of the pantheon and on concepts of divine prerogatives illuminates culture specific differences which can be related to historical socio political discourses The book develops a systematic approach to questions of cross cultural literary comparison in the ancient world
