

Learning from Unexpected Core Competency Results: A Journey toward Equitable Assessment at the University of the Pacific

Jessica Stoltzfus Grady, Cyd Jenefsky, Leslie Bayers, and Nicholas J. McConnell

Our most recent cycle of assessment of written communication and critical thinking core competencies at the University of the Pacific revealed a plot twist. After strong 2016/2017 results, in which 84% of our students scored at or above competency in written communication and 79% achieved the same benchmark for critical thinking, our numbers dipped in 2019/2020: only 58% and 55% of students, respectively, scored at or above competency

for written communication and critical thinking. Our analysis revealed similar levels of achievement in Fall 2019 and Spring 2020, suggesting that this drop was not due to the transition to remote learning necessitated by the COVID-19 pandemic. What else had happened? This article shares our process of inquiry to understand the dip and our resulting prioritization of equity-minded assessment.

Equity-minded assessment refers to a set of practices that collectively serve to understand, prioritize, and optimize the learning experiences and outcomes of student learners, particularly students from communities who have been historically marginalized or underserved in higher education. The scholarship on equity-minded assessment (Montenegro and Jankowski 2020) and similar frameworks, including culturally responsive assessment (Montenegro and Jankowski 2017; Singer-Freeman, Hobbs, and Robinson 2019), socially just assessment (Dorimé-Williams 2018; Henning and Lundquist 2018), and decolonizing assessment (Ezadine 2019), note several measures that indicate equitable assessment practices: communicate transparently, involve students throughout the process, plan for diversity and difference, and interrogate differences in outcomes. In this article, we focus on describing how our work has engaged with two measures of equitable assessment—transparency and interrogating differences in outcomes—and our intended next steps for incorporating students and planning for diversity and difference.

Communicate Transparently

Transparency in assessment refers to how we communicate with student learners about the experiences we are offering and our expectations for learning in our classrooms and programs. This includes making visible to students how course activities and learning goals cultivate larger skills that extend beyond the course, such as core competency learning outcomes expected for students at graduation.

Assessment Update No 6 1999 Vol 11

Dan Malika Gunasekera

Assessment Update No 6 1999 Vol 11:

Improving Students' Learning Outcomes Claus Nygaard, Clive Holtham, Nigel Courtney, 2009 Improving Students Learning Outcomes is a book for educators and administrators in higher education who have a genuine interest in developing an inspired curriculum centered on student learning Integrating theoretical perspectives with empirical practice researchers and practitioners from four continents discuss why and how students learning outcomes can be improved The book offers new theoretical approaches to the understanding of students learning outcomes as well as normative implications and inspiring examples from people professionally engaged in teaching learning and assessment practices Editors Claus Nygaard and Clive Holtham are the founders of the international academic association LIHE Learning in Higher Education The book came out of an international symposium held on Aegina Island Greece arranged by LIHE **Qualitative Futures Research for Innovation** Patrick A. Duin, 2006 **ECGBL 2017 11th European Conference on Game-Based Learning**

, 2017-10-05 **Computational Intelligence in Electromyography Analysis** Ganesh R. Naik, 2012-10-17 Electromyography EMG is a technique for evaluating and recording the electrical activity produced by skeletal muscles EMG may be used clinically for the diagnosis of neuromuscular problems and for assessing biomechanical and motor control deficits and other functional disorders Furthermore it can be used as a control signal for interfacing with orthotic and or prosthetic devices or other rehabilitation assists This book presents an updated overview of signal processing applications and recent developments in EMG from a number of diverse aspects and various applications in clinical and experimental research It will provide readers with a detailed introduction to EMG signal processing techniques and applications while presenting several new results and explanation of existing algorithms This book is organized into 18 chapters covering the current theoretical and practical approaches of EMG research **Machine Learning Applications In Software Engineering**

Du Zhang, Jeffrey J P Tsai, 2005-02-21 Machine learning deals with the issue of how to build computer programs that improve their performance at some tasks through experience Machine learning algorithms have proven to be of great practical value in a variety of application domains Not surprisingly the field of software engineering turns out to be a fertile ground where many software development and maintenance tasks could be formulated as learning problems and approached in terms of learning algorithms This book deals with the subject of machine learning applications in software engineering It provides an overview of machine learning summarizes the state of the practice in this niche area gives a classification of the existing work and offers some application guidelines Also included in the book is a collection of previously published papers in this research area **ICONSEIR 2022** Y Yusnadi, Nani Barorah, Try Wahyu Purnomo, S Sriadhi, 2023-06-23 The 4th International Conference on Science Education in Industrial Revolution 4 0 ICONSEIR 4 0 is a forum of scientists academics researchers teachers and observers of education and students of post graduate who care of education This event was held by the Faculty of Education Universitas Negeri Medan Indonesia on November 24th 2022 **Cardiotoxicity of Oncologic**

Treatments Manuela Fiuza,2012-03-28 The possibility of getting a cardiovascular disease or cancer increases with advancing age At the same time relevant improvements in cancer therapy have resulted in the improvement of quality of life and the increasement of the survival rate of such patients As a result we have larger number of patients that experience the cardiac side effects of chemotherapy The extent of cardiotoxicity is variable depending on the type of drug used combination with other drugs prior mediastinal radiotherapy and the presence of cardiovascular risk factors or history of heart disease Early detection of the patients proneness for developing cardiotoxicity is the key issue to decrease morbidity and mortality It also facilitates more tailored therapeutic interventions Therefore the collaboration and interaction of cardiology and oncology may contribute to reducing the cardiovascular adverse effects and improving the results in the treatment of patients with cancer

Low Back Pain Ali Asghar Norasteh,2012-05-09 This book includes two sections Section one is about basic science epidemiology risk factors and evaluation section two is about clinical science especially different approach in exercise therapy I envisage that this book will provide helpful information and guidance for all those practitioners involved with managing people with back pain physiotherapists osteopaths chiropractors and doctors of orthopedics rheumatology rehabilitation and manual medicine Likewise for students of movement and those who are involved in re educating movement exercise physiologists Pilates and yoga teachers etc

Contingent Valuation R. Carson,2012-01-01 This major reference work the first of its kind provides a comprehensive and authoritative introduction to the large and growing literature on contingent valuation It includes entries on over 7 500 contingent valuation papers and studies from over 130 countries covering both the published and grey literatures This book provides an interpretive historical account of the development of contingent valuation the most commonly used approach to placing a value on goods not normally sold in the marketplace The major fields catalogued here include culture the environment and health application This bibliography is an ideal starting point for researchers wanting to find other studies that have valued goods or used techniques similar to those they are interested in For those wanting to conduct meta analyses the book will serve as an invaluable guide to source material For those wanting to conduct meta analyses the book will serve as an invaluable guide to source material In addition to the print edition we offer access for purchasers of the book to a website providing the contents of as a searchable Word document and in a variety of standard bibliographic database forms Contingent Valuation is an indispensable reference source for researchers scholars and policymakers concerned with survey approaches to the problem of environmental valuation

University Teaching in Focus Lynne Hunt,Denise Chalmers,2012-06-01 University Teaching in Focus provides a foundational springboard for early career academics preparing to teach in universities Focusing on four critical areas Teaching Curriculum Students and Quality and Leadership this succinct resource offers university teachers a straightforward approach to facilitating effective student learning It aims to empower university teachers and contribute to their career success by developing teaching skills strategies and knowledge and linking theory to practice Written by internationally

acclaimed experts topics include learning theories assessment discipline based teaching curriculum design problem based and work integrated learning effective classroom teaching and flexible modes of delivery The needs of diverse student groups are explored and the scholarship of teaching and learning is addressed within a quality and leadership framework The clear and accessible style makes reference to seminal works and current resources Real world cases illuminate the theoretical content and Your thoughts sections encourage reflection and adaptation to local contexts *Organizing for Fire and Rescue Services* Arthur E. Cote, 2003 Apply the experience of dozens of leading authorities with the new *Organizing for Fire and Rescue Services* This special fire service edition of NFPA's *Fire Protection Handbook* is comprised of 35 informative chapters that present the big picture in a single volume All the topics fire service managers and fire and life safety educators need to know about are here including Fire and fire science basics including fire data collection and databases and use of incident data and statistics Information on fire and life safety education including how to reach high risk groups understanding media and evaluation techniques Guidance on fire department administration and operations pre incident planning EMS training apparatus and equipment PPE managing response to haz mat incidents rescue operations fireground operations and more Order your copy today and put time tested knowledge to work for you **Coronary Angiography** Baskot

Branislav, 2011-09-15 In the intervening 10 years tremendous advances in the field of cardiac computed tomography have occurred We now can legitimately claim that computed tomography angiography CTA of the coronary arteries is available In the evaluation of patients with suspected coronary artery disease CAD many guidelines today consider CTA an alternative to stress testing The use of CTA in primary prevention patients is more controversial in considering diagnostic test interpretation in populations with a low prevalence to disease However the nuclear technique most frequently used by cardiologists is myocardial perfusion imaging MPI The combination of a nuclear camera with CTA allows for the attainment of coronary anatomic cardiac function and MPI from one piece of equipment PET SPECT cameras can now assess perfusion function and metabolism Assessing cardiac viability is now fairly routine with these enhancements to cardiac imaging This issue is full of important information that every cardiologist needs to now **Imaging of the Breast** Laszlo

Tabar, 2012-03-16 Early detection of breast cancer combined with targeted therapy offers the best outcome for breast cancer patients This volume deal with a wide range of new technical innovations for improving breast cancer detection diagnosis and therapy There is a special focus on improvements in mammographic image quality image analysis magnetic resonance imaging of the breast and molecular imaging A chapter on targeted therapy explores the option of less radical postoperative therapy for women with early screen detected breast cancers **Forest Genetic Resources Conservation and**

Management Asia Pacific Forest Genetic Resources Programme. Inception Workshop, 2004 *Radiative Heat Transfer* Michael F. Modest, 2013-02-20 The third edition of *Radiative Heat Transfer* describes the basic physics of radiation heat transfer The book provides models methodologies and calculations essential in solving research problems in a variety of

industries including solar and nuclear energy nanotechnology biomedical and environmental Every chapter of Radiative Heat Transfer offers uncluttered nomenclature numerous worked examples and a large number of problems many based on real world situations making it ideal for classroom use as well as for self study The book s 24 chapters cover the four major areas in the field surface properties surface transport properties of participating media and transfer through participating media Within each chapter all analytical methods are developed in substantial detail and a number of examples show how the developed relations may be applied to practical problems Extensive solution manual for adopting instructors Most complete text in the field of radiative heat transfer Many worked examples and end of chapter problems Large number of computer codes in Fortran and C ranging from basic problem solving aids to sophisticated research tools Covers experimental methods

Operation of Fire Protection Systems Arthur E. Cote,2003 Fire Science FESHE Civil Liability for Bunker Oil Pollution Damage Dan Malika Gunasekera,2010 This book deals with the liability conventions brought into existence by the International Maritime Organization and concentrates on the newly adopted instrument dealing with bunker oil pollution as an area of great concern for every stakeholder involved in shipping business The work covers a wide spectrum ranging from the Convention itself to its scope of application liable and aggrieved parties jurisdiction requirements of liability and admissibility of claims defences and exoneration from liability It addresses many areas of interest and of importance to international and national legal advisors lawyers law students and anyone interested in the relevant field such as shipowners charterers shipbrokers ship personnel and associated contractors and sub contractors **Environmental Health Perspectives** ,1993 Contains full text for issues from 1996 full text of selected articles for issues from v 2 1972

Sustainable Elimination of Iodine Deficiency UNICEF.,2008 Iodine deficiency disorders IDD are the single greatest cause of preventable brain damage worldwide This report reviews global and national efforts to eliminate iodine deficiency disorders since the 1990 World Summit for Children set the goal of virtual elimination of IDD It captures the lessons learned and best practices in various countries and proposes an agenda against IDD to stem adverse effects on international development and human potential **Telehealthcare Computing and Engineering** Fei Hu,2013-04-26 While conventional similar books focus on medical science and social aspects this book emphasizes computing science and engineering design This feature can help with both industry development and academic research It book explains in detail both entire telehealthcare engineering system and individual hardware components For example it has circ
