Stubblebine, 1985 **The Art of the Franciscan Order in Italy** William Robert Cook, 2005 New studies of the Basilica in Assisi as well as innovative looks at early panel paintings and Franciscan stained glass are included **Assisi and the Rise of Vernacular Art** James H. Stubblebine, 1985 **Art in Renaissance Italy** John T. Paoletti, Gary M. Radke, 2005 Art in Renaissance Italy sets the art of that time in its context exploring why it was created and in particular looking at who commissioned the palaces and cathedrals the paintings and the sculptures **The Grove Encyclopedia of Medieval Art and Architecture** Colum Hourihane, 2012 This volume offers unparalleled coverage of all aspects of art and architecture from medieval Western Europe from the 6th century to the early 16th century Drawing upon the expansive scholarship in the celebrated Grove Dictionary of Art and adding hundreds of new entries it offers students researchers and the general public a reliable up to date and convenient resource covering this field of major importance in the development of Western history and international art and architecture *The Early Modern Child in Art and History* Matthew Knox Averett, 2015-10-06 Childhood is not only a biological age it is also a social construct The essays in this collection range chronologically from the fifteenth to the eighteenth century and geographically across England France Germany Italy and Spain They chart the depictions of children in various media including painting sculpture and the graphic arts The J. Paul Getty Museum Journal The J. Paul Getty Museum, 1987-01-01 The J Paul Getty Museum Journal 15 is a compendium of articles and notes pertaining to the Museum s permanent collections of antiquities decorative arts illuminated manuscripts paintings photographs and sculpture and works of art This volume includes a supplement introduced by John Walsh with a fully illustrated checklist of the Getty s recent acquisitions Volume 15 includes articles written by Jeffery Spier Michael Pfrommer Cornelius C Vermeule Maureen Cassidy Geiger Robert S Nelson Carl Brandon Stehlke Peter Sutton John T Spike Victor Carlson Andrew Szegedy Maszak and Herbert Keutner Saint Francis and the Sultan John V. Tolan, 2009-03-26 In September 1219 as the armies of the Fifth Crusade besieged the Egyptian city of Damietta Francis of Assisi went to Egypt to preach to Sultan al Malik al Kmil Although we in fact know very little about this event this has not prevented artists and writers from the thirteenth century to the twentieth unencumbered by mere facts from portraying Francis alternatively as a new apostle preaching to the infidels a scholastic theologian proving the truth of Christianity a champion of the crusading ideal a naive and quixotic wanderer a crazed religious fanatic or a medieval Gandhi preaching peace love and understanding Al Kmil on the other hand is variously presented as an enlightened pagan monarch hungry for evangelical teaching a cruel oriental despot or a worldly libertine Saint Francis and the Sultan takes a detailed look at these richly varied artistic responses to this brief but highly symbolic meeting Throwing into relief the changing fears and hopes that Muslim Christian encounters have inspired in European artists and writers in the centuries since it gives a uniquely broad but precise vision of the evolution of Western attitudes towards Islam and the Arab world over the last eight

hundred years **Giotto the Painter. Volume 1-3** Michael Viktor Schwarz, 2023-04-17 Vol 1 Life Giotto 1334 is the first European artist about whom it is possible to write following the schema of life and work The situation of the sources however is complicated On Giotto's life there are on the one hand biographical accounts from the mid fourteenth century onwards that responded to various ideological requirements patriotism humanism Renaissance ideology cult of the artist on the other there is extensive documentary material from Giotto's lifetime which seems to reflect less the biography of an artist than that of a bourgeois businessman resolutely climbing the social ladder The present volume focuses on this second aspect of the Giotto figure's double life relating it to the form of existence of the pre modern artist Vol 2 Works The paintings examined and contextualised in this volume are those secured for Giotto through early written sources These sources also help to reconstruct the sequence of his works and artistic inventions as is plausible in the context of media culture in the decades around and after 1300 while Giotto was spiritually and intellectually formed in the sphere of the Florentine Dominicans his artistic path began in Rome in the shadow of the Curia The breakthrough to his own artistic concept came immediately before and during his work in Padua In addition to prominent churchmen ecclesiastical institutions and the King of Naples his clients were predominantly members of Italy's urban and financial elites The adoption and further development of his inventions by other especially Sienese painters pressured him in his later years to try new approaches again Vol 3 Survival Giotto is considered by many to be the founder of modern painting This thesis is discussed and modified in the present volume on an empirical basis What emerges is that Giotto's impact cannot be reduced simply to the introduction of the study of nature Rather his art was involved in the development of pictorial idioms that were attuned to the skills and interests of their audiences The new approaches in his painting contributed in particular to the possibility of examining and communicating psychological narrative and allegorical content of great complexity outside the media of language and text which not only changed the face of European art but certainly contributed to the intellectual opening of Western societies

Personification Walter Melion, Bart Ramakers, 2016-03-11 Personification or prosopopeia the rhetorical figure by which something not human is given a human identity or face is readily discernible in early modern texts and images but the figure's cognitive form and function its rhetorical and pictorial effects have rarely elicited sustained scholarly attention The aim of this volume is to formulate an alternative account of personification to demonstrate the ingenuity with which this multifaceted device was utilized by late medieval and early modern authors and artists in Italy France England Scotland and the Low Countries Personification is susceptible to an approach that balances semiotic analysis focusing on meaning effects and phenomenological analysis focusing on presence effects produced through bodily performance This dual approach foregrounds the full scope of prosopopoeic discourse not just the what but also the how not only the signified but also the signifier **Giotto and His Publics** Julian Gardner, 2011-05-15 This probing analysis of three of Giotto's major works and the patrons who commissioned them goes beyond the clichés of Giotto as the founding figure of Western painting It traces the

interactions between Franciscan friars and powerful bankers and illuminates the complex interactions between mercantile wealth and the iconography of poverty **The Cultural Life of the Early Polyphonic Mass** Andrew Kirkman, 2010-04-22 Kirkman sheds new light on the polyphonic Mass exploring the hidden meanings within its music and its legacy today The Place of Narrative Marilyn Aronberg Lavin, 1990-12-15 Looking at more than two hundred Italian medieval and Renaissance mural cycles Lavin examines with the aid of computer technology the rearranged chronologies of familiar religious stories found therein Like many masterpieces Lavin's book builds upon a simple idea it is possible to do a computer analysis of visual narratives This is the first computer based study of the visual arts of which I am aware that illustrates how those technologies can utterly transform the study of old master art An extremely important book one likely to become the most influential recent study of art of this period The Place of Narrative is also a beautiful artifact David Carrier Leonardo Covering over a millennium and dealing with the whole of Italy Lavin makes pioneering use of new methodology employing a computer database and novel terminology to describe the disposition of scenes of church and chapel walls We should recognize this as a book of high seriousness which reaches out into new areas and which will fruitfully stimulate much thought on a neglected subject of very considerable significance Julian Gardner Burlington Magazine **Siena, Florence, and Padua: Interpretative essays** Diana Norman, 1995-01-01 Siena Florence and Padua were all major centres for the flowering of early Italian Renaissance art and civic culture The three communities shared a common concern for the embellishment of their cities by means of painting sculpture and architecture The eleven papers in this volume re-examine and re-assess the artistic legacy of the three cities during the 14th century and locate the various works of art considered within their broader cultural social and religious contexts Contributors include D Norman Patrons politics and art C Harrison Giotto and the rise of painting C King The arts of carving and casting T Benton The building trades and design methods D Norman Art and religion after the Black Death C King The trecento New ideas new evidence **Thresholds of the Sacred** Sharon E. J. Gerstel, 2006 This collection of essays considers the development and meaning of the iconostasis the screen used in churches to separate the sanctuary from the nave The contributors approach the history of the icon screen from a variety of disciplines including art history theology and architecture **The Poetry of Dante's Paradiso** Jeremy Tambling, 2021-03-08 This book argues that Paradiso Dante's vision of Heaven is not simply affirmative It posits that Paradiso compensates for disappointment rather than fulfils hopes and where it moves into joy and vision this also rationalises the experience of exile and the failure of all Dante's political hopes The book highlights and addresses a fundamental problem in reading Dante the assumption that he writes as a Catholic Christian which can be off-putting and induces an overly theological and partisan reading in some commentary Accordingly the study argues that Dante must be read now in a post-Christian modernity It discusses Dante's Christianity fully and takes its details as a source of wonder and beauty which need communicating to a modern reader Yet the study also argues that we must read for the alterity of Dante's world from ours

Giotto the Painter. Volume 2: Works Michael Viktor Schwarz, 2023-04-17 The paintings examined and contextualised in this volume are those secured for Giotto through early written sources These sources also help to reconstruct the sequence of his works and artistic inventions as is plausible in the context of media culture in the decades around and after 1300 while Giotto was spiritually and intellectually formed in the sphere of the Florentine Dominicans his artistic path began in Rome in the shadow of the Curia The breakthrough to his own artistic concept came immediately before and during his work in Padua In addition to prominent churchmen ecclesiastical institutions and the King of Naples his clients were predominantly members of Italy's urban and financial elites The adoption and further development of his inventions by other especially Sienese painters pressured him in his later years to try new approaches again

Time and the Word Radner, 2016 The history and theology of figural reading Figural history as a question The fate of figural reading Imagining figural time Creative omnipotence and the figures of scripture Figural speech and the incarnational synecdoche Figural reading in practice Juxtapositional reading and the force of the lectionary Trinitarian love means two testaments The Word's work figural preaching and scriptural conformance Four figural sermons

Giotto the Painter. Volume 3: Survival Michael Viktor Schwarz, 2023-04-17 Giotto is considered by many to be the founder of modern painting This thesis is discussed and modified in the present volume on an empirical basis What emerges is that Giotto's impact cannot be reduced simply to the introduction of the study of nature Rather his art was involved in the development of pictorial idioms that were attuned to the skills and interests of their audiences The new approaches in his painting contributed in particular to the possibility of examining and communicating psychological narrative and allegorical content of great complexity outside the media of language and text which not only changed the face of European art but certainly contributed to the intellectual opening of Western societies

Domenico Ghirlandaio Jeanne K. Cadogan, Domenico Ghirlandaio, 2000-01-01 Domenico Ghirlandaio was one of the most popular artists in fifteenth century Florence He worked in a variety of media including panel paintings wall murals mosaic and manuscript illumination and his workshop to which Michelangelo was apprenticed was highly influential This beautiful book offers a radically new interpretation of Ghirlandaio's life and work viewing him primarily as an artisan active within the craft traditions guild structure and workshop organizations of his day Jean K. Cadogan argues that Ghirlandaio was a pivotal figure in the transformation of the artist from medieval artisan to Renaissance genius She traces his gradual social elevation which reflected the increasing respect with which he was treated by his patrons And she notes that the changes in the way he and other artists were viewed created a milieu that encouraged innovation in technique style and content qualities that were vividly displayed in Ghirlandaio's work Cadogan explains how his working method his pragmatic artisan approach to technique the organization and functioning of his workshop and his relations with his patrons affected the works of art Ghirlandaio produced Her text is complemented by a catalogue raisonné of Ghirlandaio's works in all media as well as an appendix of documents useful for scholars
