Assisted Suicide Canadian Perspectives:

Assisted Suicide C. G. Prado, 2000 When it became possible to extend the dying process it became necessary to decide when to stop doing so because of the enormous personal and social costs But perspectives on assisted suicide vary greatly Physicians see it as a medical issue jurists as a legal issue philosophers as a moral issue and the media as a political issue These original essays show how these perspectives shape the ongoing debate Published in English **Critical Perspectives on Assisted Suicide** Jennifer Peters, 2019-07-15 There are few issues that elicit such debate as assisted suicide For some assisted suicide is an important legal right for those battling fatal issues For others it stands for only self harm and chaos In this book legal experts journalists activists and ordinary civilians weigh in on this important issue providing a wide range of viewpoints for readers Readers are encouraged to think critically about what they have read and to form their own opinions through guided questions that follow each article **Suicide in Canada** Antoon A. Leenaars, Susanne Wenckstern, Isaac Sakinofsky, Ron Dyck, Michael J. Kral, Roger Bland, 1998-01-01 Compiled by Canada's leading experts on suicide this collection provides long awaited information that focuses specifically on Canada Legal Responses to AIDS in Comparative Perspective Lawrence Gostin, Stanislaw J. Frankowski, 1998-10-01 Medical Assistance in Dying (MAID) in Canada Jaro Kotalik, David W. Shannon, 2023-07-25 This book written both for a Canadian and an international readership provides a multidisciplinary review of the framework and performance of the Canadian Medical Assistance in Dying MAID program In the first five years 2015 2021 of operation this program delivered voluntary euthanasia and assistance in suicide to over 30 000 Canadian residents presently representing a 30% annual growth Looking back on these first five years the 30 Canadian scholars and clinicians contributing to this volume raise important issues and attempt to answer key questions that have arisen in regards to its operation and its stated objectives This volume strikes the most appropriate balance between the autonomy of persons who seek medical assistance versus the interests and protection of vulnerable persons Finally the book makes suggestions on how the program can presently be improved It identifies gaps in knowledge about MAID's operational program and its impact on individuals families and society in order to stimulate the necessary research that is essential to the evolution of a healthy and well balanced program As a first comprehensive examination of medically assisted deaths in Canada this publication will be of great value to lay professional academic political audiences both domestically and internationally especially in jurisdictions that are examining their options of permitting assisted deaths **Manitoba Law Journal Volume 47 Issue 4: Criminal Law Edition: Robson Crim** RICHARD JOCHELSON, BRANDON TRASK, JAMES GACEK, REBECCA JAREMKO BROMWICH, MELANIE MURCHISON, COLTON FEHR, JOHN BURCHILL, 2025-08-18 The Manitoba Law Journal MLJ is a peer reviewed journal founded in 1961 The MLJ's current mission is to provide lively independent and high caliber commentary on legal events in Manitoba or events of special interest to our community The MLJ aims to bring diverse and multidisciplinary perspectives to the issues it studies drawing on authors from Manitoba

Canada and beyond This volume of Robson Crim published by the Manitoba Law Journal features papers from leading scholars in criminal law criminology psychology and criminal justice Suicide and Suicide Prevention From a Global Perspective Ella Arensman, Diego De Leo, Jane Pirkis, 2020-04-06 Suicide is one of the most personal yet one of the most complex acts anyone can perform and it continues to be a major global public health problem with an estimated 800 000 deaths annually Suicide prevention is an important target in the United Nations Sustainable Development Goals SDGs for 2030 which aims to reduce premature mortality from noncommunicable diseases by one third Suicide is a global problem but what differences are there is the challenges faced and the solutions found regionally Written by leading experts the nine chapters of this volume provide a clear outline of the major milestones and achievements that have been reached so far in six different geographical regions according to data collated by IASP and the WHO Recent progress in the development and implementation of national suicide prevention programs in different countries is also explored In two concluding chapters the evidence base and best practice of suicide prevention programs are reviewed as well as a look at the future directions for suicide prevention at the global level This is essential reading for all those involved in suicide research and prevention as well as public health policy and epidemiology who want to keep up to date with the latest global developments Research Handbook on Voluntary Assisted Dying Law, Regulation and Practice Ben P. White, 2025-09-10 This unique Research Handbook examines voluntary assisted dying VAD laws through the lens of regulatory theory It sheds light on interdisciplinary perspectives and outlines policy debates around the revision and implementation of these laws Ben P White brings together global experts to discuss the law and practice of VAD in all permitting jurisdictions This title contains one or more Open Access chapters Assisted Suicide and the European Convention on Human Rights Stevie Martin, 2021-04-12 Locating assisted suicide within the broader medical end of life context and drawing on the empirical data available from the increasing number of permissive jurisdictions this book provides a novel examination of the human rights implications of the prohibition on assisted suicide in England and Wales and beyond Assisted suicide is a contentious topic and one which has been the subject of judicial and academic debate internationally The central objective of the book is to approach the question of the ban s compatibility with the European Convention on Human Rights afresh freed from the constraints of the existing case law and its erroneous approach to the legal issues and selective reliance on empirical data The book also examines the compatibility of the ban on assisted suicide with rights which have either been erroneously disregarded or not considered by either the domestic courts or the European Court of Human Rights Having regard to human rights jurisprudence more broadly including in the context of abortion the research and analysis undertaken here demonstrates that the ban on assisted suicide violates the rights of a significant number of individuals to life to freedom from torture or inhuman or degrading treatment and to private life Such analysis does not depend on a strained or contrived approach to the rights at issue Rather the conclusions flow naturally from a coherent logical application of the established principles governing those rights While

the focus of the book is the Suicide Act 1961 the conclusions reached have implications beyond England and Wales including for the other devolved jurisdictions and international jurisdictions Beyond courts and legislators it will be a valuable resource for students of human rights and medical law as well as medical and legal practitioners and academics working in human rights and end of life care *Ross-Kerr and Wood's Canadian Nursing Issues & Perspectives - E-Book* Lynn
