Hirst, Veit-Michael Bader, 2001 This book aims to unlock the current crisis in democratic accountability by supplementing representative democracy with democratic governance in civil society **Associative Democracy** Veit Bader, Paul Hirst, 2012-12-06 This book aims to unlock the current crisis in democratic accountability by supplementing representative democracy with democratic governance in civil society *Associative Democracy and the Crises of Representative Democracies* Veit Bader, Marcel Maussen, 2023-08-18 The familiar problems of democratic capitalism have given way to a deep crisis challenging the basic forms of governance introduced around the late 18th century and then gradually expanded and developed until the late 20th century *Associative Democracy and the Crises of Representative Democracies* argues that we are in urgent need of normative guidelines and a strong understanding of a broad range of institutional options and innovative experiments in associative democracy in order to address the structural problems that existing institutional arrangements are confronted with whilst maintaining and strengthening democratic forms of government and governance The argument is developed against the background of a thorough survey of empirical social scientific studies on the crises of capitalisms and representative democracies This book focuses primarily on democratic alternatives though it also works out principles and institutions of democratic socialism as alternatives to capitalism After introducing the theoretical approach the book illustrates the ways this framework of analysis can be of use with particular focus on three issues that are highly topical when it comes to the challenges our institutions are confronted with democratic governance in relation to ecological crises and uncertainty the threats to democracy raised by the crisis of political parties and representative party democracy and the challenges related to privatization and marketization of public services particularly in healthcare The book concludes by exploring opportunities to democratize the economy locating viable alternatives to capitalism in the tradition of democratic socialism This urgent and thought provoking book will be of great interest to academics and students in various disciplines in the humanities and social sciences including political science sociology and economics Philosophies of Multiculturalism Luis Cordeiro-Rodrigues, Marko Simendic, 2016-09-01 This edited collection offers a comparative approach to the topic of multiculturalism including different authors with contrasting arguments from different philosophical traditions and ideologies It puts together perspectives that have been largely neglected as valid normative ways to address the political and moral questions that arise from the coexistence of different cultures in the same geographical space The essays in this volume cover both historical perspectives taking in the work of Hobbes Tocqueville and Nietzsche among others and contemporary Eastern and Western approaches including Marxism anarchism Islam Daoism Indian and African philosophies *International Encyclopedia of Civil Society* Helmut K. The Urban Connection Luuk Boelens,2009 The urban connection develops a promising actor relational approach to urban planning With respect to the usual governmental planning it is focused outside in instead of inside out It derives its leitmotif from the actual debate about state controlled versus neo liberal planning and reflects on innovative post structuralist scholars in the field of planning economics social geography and governance It then takes its own position in that debate reflecting on actor oriented experiments in planning practices These experiments deal with the daily planning practice with a pro active and operational attitude contrary to the usual retrospective case studies Therefore it results in concrete suggestions on how to develop a more robust planning approach in an ongoing globalising and fragmenting world

Religion in Public Spaces Silvio Ferrari, Sabrina Pastorelli, 2016-04-08 This timely volume discusses the much debated and controversial subject of the presence of religion in

the public sphere The book is divided in three sections In the first the public private distinction is studied mainly from a theoretical point of view through the contributions of lawyers philosophers and sociologists In the following sections their proposals are tested through the analysis of two case studies religious dress codes and places of worship These sections include discussions on some of the most controversial recent cases from around Europe with contributions from some of the leading experts in the area of law and religion Covering a range of very different European countries including Turkey the UK Italy and Bulgaria the book uses comparative case studies to illustrate how practice varies significantly even within Europe It reveals how familiarization with religious and philosophical diversity in Europe should lead to the modification of legal frameworks historically designed to accommodate majority religions This in turn should give rise to recognition of new groups and communities and eventually a more adequate response to the plurality of religions and beliefs in European society

Minorities Within Minorities Avigail Eisenberg, Jeff Spinner-Halev, 2005-01-03 Most discussions of multiculturalism and group rights focus on the relationship between the minority and the majority This volume advances our understanding of minority rights by focusing on conflicts that arise within minority groups and by examining the different sorts of responses that the liberal state might have to these conflicts Groups around the world are increasingly successful in maintaining or winning autonomy In light of this trend a crucial question emerges what happens to individuals within groups who find that their group discriminates against them This volume brings together distinguished scholars who examine this question by weaving together normative political theory with case studies drawn from South Africa the United States India Canada and Britain Classical liberalism deliberative democracy feminism and associative democracy are among the theoretical frameworks used to offer solutions to the complex set of issues raised by minorities within minorities

The Structure of Pluralism Victor M. Muniz-Fraticelli, 2014-02 Pluralism proceeds from the observation that many associations in liberal democracies claim to possess and attempt to exercise a measure of legitimate authority over their members They assert that this authority does not derive from the magnanimity of a liberal and tolerant state but is grounded rather on the common practices and aspirations of those individuals who choose to take part in a common endeavor As an account of the authority of associations pluralism is distinct from other attempts to accommodate groups like multiculturalism subsidiarity corporatism and associational democracy It is consistent with the explanation of legal authority proposed by contemporary legal positivists and recommends that the formal normative systems of highly organized groups be accorded the status of fully legal norms when they encounter the laws of the state In this book Muniz Fraticelli argues that political pluralism is a convincing political tradition that makes distinctive and radical claims regarding the sources of political authority and the relationship between associations and the state Drawing on the intellectual tradition of the British political pluralists as well as recent developments in legal philosophy and social ontology the book argues that political pluralism makes distinctive and radical claims regarding the sources of political authority and the relationship between associations and the state

Citizen Participation in Multi-level Democracies Cristina Fraenkel-Haeberle, Sabine Kropp, Francesco Palermo, Karl-Peter Sommermann, 2015-03-20 Citizen Participation in Multi level Democracies offers an overview of new forms of participatory democracy in federally and regionally organised multi level states Its four sections focus on the conceptual foundations of participation the implementation and instruments of democracy examples from federal and regional States and the emergence of participation on the European level There is today a growing disaffection amongst the citizens of many states towards the traditional models of representative democracy

This book highlights the various functional and structural problems with which contemporary democracies are confronted and which lie at the root of their peoples discontent Within multi level systems in particular the fragmentation of state authority generates feelings of powerlessness among citizens In this context citizens participation can in many cases be a useful complement to the representative and direct forms of democracy **Klassisk og moderne politisk teori** Lars Bo Kaspersen, Jørn Loftager, 2009
