Astonish Yourself 101 Experiments In The Philosophy Of Everyday Life:

101 Experiments in the Philosophy of Everyday Life Roger-Pol Droit, 2003-11-06 Roger Pol Droit's highly original book is a reassessment of our day to day engagement with life. In 101 short texts written with limpid elegance Droit invites us to reconsider our most ordinary actions as unexpected philosophical events: peeling an apple, trying to lie in a hammock, watching someone sleep, hearing your voice on an answering machine, playing with a small child, activities that when considered outside of their routine invite us to experience the familiar in startling new ways. Droit encourages us to go further: pretend to be an animal of your choice, create a wall with your hands, try to walk around your room in total darkness, spend time in the Underground and observe your oddity.

Astonish Yourself Roger-Pol Droit, 2003-07-29 This playful and profound French bestseller about finding the miraculous in the mundane offers 101 experiments in the philosophy of everyday life.

Conspicuous and Inconspicuous Discriminations in Everyday Life Victor N. Shaw, 2013-06-19 In everyday life people negotiate on issues, entertain offers and counteroffers and gain or lose in terms of economic capital, political power, communal status and social influence. Although life goes on in the form of compromise, feelings of discrimination or misfortune haunt consciously or unconsciously in the minds of living individuals. History continues in the spirit of forgiveness but residues of exploitation or injustice remain conspicuously or inconspicuously on the records of progressing civilizations. This study follows an average everyday life to compare individuals with individuals, individuals with organizations and organizations with organizations in their everyday interactions. Through the eyes of the person, conspicuous and inconspicuous discriminations by one against another, whether individual or organizational, are identified in different occasions on a typical day at home, in the workplace, in the community, within the country, around the world and throughout the course of life. In the style of Socrates, Plato, Wittgenstein and other classical scholarship, this study uses ordinary, typical situations to demonstrate critical points, reveal subtle connections and present important arguments. It offers vivid examples for what social scientists strive to find: the extraordinary from the ordinary, the unfamiliar from the familiar, the different from the similar and the significant from the trivial. This study offers an opportunity for readers to reflect upon their social experiences and rethink and reshape their everyday acts and actions.

Attention Equals Life Andrew Epstein, 2016 Poetry has long been thought of as a genre devoted to grand subjects, timeless themes and sublime beauty. Why then have contemporary poets turned with such intensity to documenting and capturing the everyday and the mundane? Drawing on insights about the nature of everyday life from philosophy, history and critical theory, Andrew Epstein traces the modern history of this preoccupation and considers why it is so much with us today. *Attention Equals Life* argues that a potent hunger for everyday life explodes in the post-1945 period as a reaction to the rapid, unsettling transformations of this epoch, which

have resulted in a culture of perilous distraction Epstein demonstrates that poetry is an important and perhaps unlikely cultural form that has mounted a response and even a mode of resistance to a culture suffering from an acute crisis of attention In this timely and engaging study Epstein examines why a compulsion to represent the everyday becomes predominant in the decades after modernism and why it has so often sparked genre bending formal experimentation With chapters devoted to illuminating readings of a diverse group of writers including poets associated with influential movements like the New York School language poetry and conceptual writing the book considers the variety of forms contemporary poetry of everyday life has taken and analyzes how gender race and political forces all profoundly inflect the experience and the representation of the quotidian By exploring the rise of experimental realism as a poetic mode and the turn to rule governed everyday life projects Attention Equals Life offers a new way of understanding a vital strain at the heart of twentieth and twenty first century literature It not only charts the evolution of a significant concept in cultural theory and poetry but also reminds readers that the quest to pay attention to the everyday within today s frenetic world of and social media is an urgent and unending task

Navigating the Postmodern Condition Wade A. Tillett, 2024-11-21 Drawing on poststructuralist frameworks this book examines the way to a radical acceptance of daily discontinuities and difference as it allows us to embrace life in the postmodern world With each chapter exploring the human relationship with a disjunction in daily life such as sleeping forgetting and multitasking the author examines overlooked aspects of daily living as fresh data from which to analyze our condition A phenomenological study of postmodern life the book provides anecdotes of what it is like to live through these gaps and theorizes how we use these gaps Using an arts based methodology the author also allows the work to mirror the discontinuities which it describes interrupting the assumption of our lives as continuous and unitary in both form and content Addressing the vast jumble of contradictions that is our daily experience in this contemporary world it offers explanation through theory and anecdote and illustrates the path toward radical acceptance which allows us to see ourselves as beautifully composed of fractures gaps and overflow It will appeal to scholars researchers and postgraduate students with interests in poststructuralism curriculum theory and art based research methods
