Reviews Noel Eastwood is an amazing astrologer and gifted writer I have never found so much good information about the astrology of health in any other book AC Beautifully written book that looks at individuals likely health issues through their predominance of the elements in their charts It looks at whether one has a Fire Earth Air or Water Dominance in their Natal Chart Depending upon the leading element the individual has they will have certain strengths and weaknesses health wise Written in an interactive conversational way between student and teacher it is entertaining and teaches the reader gradually over a number of lessons Along the way It makes use of a number of case study charts to illustrate the lessons of elemental predominance with regards to Health I know the elements are one of the cornerstones of Astrology In understanding more about how their emphasis relates to one's health I found the book highly useful DK Quite informative and I really liked the teacher student format I would have liked more charts on mental illness though Detail oriented AJ I have just completed reading Astrology of Health I literally could not put it down I learned so much By envisioning myself as silent observer at the table with Eastwood's student I participated in each lesson I am not an
