Teach Yourself Bird Watching GE Hyde, 2017-09-07 With a few sorry exceptions it's heartening to think that the gardener or bird spotter of the 1950s or 60s would immediately recognise most of the songs that sing out over English gardens today For the amateur ornithologist of the twenty first century Teach Yourself Bird Watching will be as much of a delight now as it ever was a beautifully written precise guide to identifying protecting and encouraging birdlife in your garden and beyond Since 1938 millions of people have learned to do the things they love with Teach Yourself Welcome to the how to guides that changed the modern world

Reproduction of the original Bird Watching by Edmund Selous

Watching Birds James Fisher, 2010-10-30 This revised edition of the late James Fisher's much praised Watching Birds is the work of Dr Jim Flegg Director of the British Trust for Ornithology In his Preface Dr Flegg writes It is a daunting task to revise the bird book on which you cut your teeth it is the surest measure of the man who wrote it that what is needed after thirty odd years is an updating and not a sweeping revision Among James Fisher's deservedly popular writings Watching Birds was probably the most read and consulted After several reprints published by Penguin Books he planned to re write it and it is wholly appropriate that the work should now be done

by Dr Flegg who like the original author has done much to help arouse and stimulate a widening interest in watching and understanding the life and world of birds It is an indication of that interest today that radio and TV programmes in which Dr Flegg has frequently participated have audiences of millions Such numbers are hardly surprising since few leisure activities offer as effective or as gratifying an antidote to the pressures of modern life as birdwatching and few can be as readily and inexpensively pursued at almost any time anywhere Watching Birds has been an introduction and an item of basic equipment to tens of thousands of birdwatchers in the past and this new and revised edition is assured of an even wider audience

A Bird in the Bush Stephen Moss, 2013-07-25 This journey through the world of birdwatchers is a wonderful book fascinating often hilarious anecdotes and information Daily Mail Critic's Choice Scholarly authoritative and above all supremely readable Stephen Moss's book is the first to trace the fascinating history of how and why people have watched birds for pleasure from the beginnings with Gilbert White in the eighteenth century through World War II POWs watching birds from inside their prison camp and all the way to today's twitchers with their bleeping pagers driving hundreds of miles for a rare bird Proves that birdwatchers can be as instructive to watch as birds Sunday Times Thoroughly researched and well written The Guardian Moss knows his subject intimately and writes about it with just the right mixture of affection and occasional quizzicality Sunday Telegraph It would be difficult to imagine anyone producing a more comprehensive thoughtful intelligent and entertaining examination of how people have watched birds at each point in history In fact it is one of the few books which might prove such compulsive reading that even a dedicated twitcher might forgo a day in the field to stay at home to finish it Birding World
