**Birmingham at War, 1939-45** Julie Phillips, 2018-04-30 Barely 17 years after the Great War that had brought Britain to its knees the country was once again asked to make sacrifices and give their all to the war effort With its strong industrial background Birmingham was already geared to help manufacture the vehicles that could be adapted for war use and with the threat of the German Luftwaffe screaming across the skies it was only right that the production of planes most notably the spitfire was ramped up to help protect the British public While many of its men and women were involved in the forces abroad many more stayed behind to defend the city with inhabitants risking their lives by taking up fire hoses first aid kits manning anti-aircraft guns and positioning barrage balloons in order to save others from the devastating destruction of the Blitz Meanwhile the city's children were separated from their families to escape the worst of the bombing and would return from their adventures changed not all host evacuee families were as kind or as welcoming to their charges as it would appear Yet not everyone was so patriotic and keen to do their bit and the opportunity for crime and to fiddle the rations with black market goods was rife Not even Government issue equipment was off limits as one Birmingham gang of sandbag thieves demonstrated For Birmingham the Second World War was a time of great hardship and sacrifice and the hard work continued for many years after as its people painstakingly rebuilt parts of the bomb damaged city *Sounds and the City B.*

**Britannia: a Modern Guide Through the Ancient Kingdom** Glafira Regina Osypets, 2024-10-26 Delve deeper into the four kingdoms carefully exploring each city My book consists of 75 chapters one for each city Each section consists of three parts a little preview which aims to quickly familiarize you with the city and provide the most interesting facts about its history the most important historical events and of course tourist places the best attractions with short descriptions and bright photos The book is suitable for everyone an avid historian or an avid traveller The motto that I put into my work beauty is in the eye of the beholder So I want to show and prove that every city in the United Kingdom big or small old or new famous or not deserves attention Britain is beautiful in its own way I want to teach you to see this beauty What are you waiting for A fantastic journey is closer than you think *The Second World War Illustrated* Jack Holroyd, 2020-08-31 This second volume begins with the account of Mussolini attempting to mirror Hitler in acts of aggression by thrusting towards Egypt and capturing the important artery of the British Empire the Suez Canal The Italian initiative failed and when its army was driven back with heavy losses Mussolini asked for help and Hitler sent Rommel Beginning in the spring of 1941 Axis forces under a dynamic General Rommel pushed the British back to Egypt In the meantime Mussolini decided on another easy target to spread his new Roman Empire and invaded Greece Once again his superior numbers were repelled and the Greeks sent his army back to its starting point in Albania Hitler came to the aid of his Axis ally and Churchill sent the British to help Greece but in doing so depleted his forces in North Africa During the Battle of Greece Greek and British forces in the north of the country were overwhelmed by a rapid German advance The British embarked for Crete and the Germans promptly captured the island with their much vaunted Fallschirmjager Matters were disheartening for the British people following these defeats in North Africa and Greece However a morale boost came with the sinking of the Bismarck and the defection of Rudolf Hess Hitler's deputy in an amazing flight to Scotland Then it came in June the German Führer took on his greatest military challenge the invasion of Soviet Russia By the end of the second year of the war the Axis forces were deep into Stalin's territory Britain now had a major ally at last **Wizards of Oz** Brett Mason, 2022-10-01 Two Australian scientists played a vital yet largely unknown role in the Allied victory in the Second World War Almost eight decades later *Wizards of Oz* finally tells their story In this fast paced and compelling book Brett Mason reveals how childhood friends from Adelaide physicist Mark Oliphant and medical researcher Howard Florey initiated the most significant scientific and industrial projects of the Second World War manufacturing penicillin developing microwave radar and building the atomic bomb These innovations gave the Allies the edge and ultimate victory over Germany and Japan

More than just a story of scientific discovery *Wizards of Oz* is a remarkable tale of secret missions international intrigue and triumph against all odds Mason tells how Oliphant and Florey were also instrumental in convincing a reluctant United States to develop and deploy the three breakthrough inventions in time to change the course of the war These two Australians not only helped win the war but shaped the peace with their war time contributions continuing to influence international politics and the health and wealth of nations Oliphant and Florey emerge in *Wizards of Oz* as the two most consequential Australians of the Second World War perhaps of all time Unputdownable General Sir Peter Cosgrove A wonderful slice of Australian history Peter Fitzsimons Great stories Professor Peter Doherty

*Blood, Sweat, and Toil* Geoffrey G. Field, 2011-11-03 *Blood Sweat and Toil* is the first scholarly history of the British working class in the Second World War It integrates social political and labour history and reflects the most recent scholarship and debates on social class gender and the forging of identities Geoffrey G Field examines the war's impact on workers in the varied contexts of the family military service the workplace local communities and the nation Previous studies of the Home Front have analysed the lives of civilians but they have neglected the importance of social class in defining popular experience and its centrality in public attitudes official policy and the politics of the war years Contrary to accounts that view the war as eroding class divisions and creating a new sense of social unity in Britain Field argues that the 1940s was a crucial decade in which the deeply fragmented working class of the interwar decades was remade achieving new collective status power and solidarity He criticizes recent revisionist scholarship that has downplayed the significance of class in British society Extensively researched using official documents diaries and letters the records of trade unions and numerous other institutions *Blood Sweat and Toil* traces the rapid growth of trade unionism joint consultation and strike actions in the war years It also analyses the mobilization of women into factories and the uniformed services and the lives of men conscripted into the army showing how these experiences shaped their social attitudes and aspirations Using opinion polls and other evidence Field traces the evolution of popular political attitudes from the evacuation of 1939 and the desperate months of late 1940 to the election of 1945 opposing recent claims that the electorate was indifferent or apathetic at the war's end but also eschewing blanket assumptions about popular radicalization Labour was an active agent in fashioning itself as both a national progressive party and the representative of working class interests in 1945 far from a mere passive beneficiary of anti Tory feeling it gave organizational form to the idealism and the demand for significant change that the war had generated

**Atomic Tunes** Tim Smolko, Joanna Smolko, 2021-05-11 What is the soundtrack for a nuclear war During the Cold War over 500 songs were written about nuclear weapons fear of the Soviet Union civil defense bomb shelters McCarthyism uranium mining the space race espionage the Berlin Wall and glasnost This music uncovers aspects of these world changing events that documentaries and history books cannot In *Atomic Tunes* Tim and Joanna Smolko explore everything from the serious to the comical the morbid to the crude showing the widespread concern among musicians coping with the effect of communism on American society and the threat

of a nuclear conflict of global proportions Atomic Tunes presents a musical history of the Cold War analyzing the songs that capture the fear of those who lived under the shadow of Stalin Sputnik mushroom clouds and missiles      **Ancestral Chains (DNA Part IV of VIII) Parr Bloodline** Mark D Bishop,2017-06-20 Ancestry is a dual aspect entity both private and public It is private because it is personal It is public because the stories of the ancestors need to be told This work deals with both these aspects while recording the facts for the family researcher and putting across the stories and lives that shaped the ancestors and how they saw and understood the world around them One should never be ashamed of one s ancestors for we have no more a right to judge them than they have to judge us Yes they really do live among us and they really do affect us from beyond the grave not only with the material goods they leave us but also with the karma that is passed down to us It is our job the living to deal with this karma to dig out the hidden aspects of our ancestors lives that society and culture would not allow them to express Seen through her eyes Volume IV is the life ancestry the somewhat sad story of that 19th century matriarch of the Parr family dear Florence bless her tender heart      **Congressional Record** United States.
