Birmingham's Rabbi Mark Cowett,2003-07-14 American Jewish history has been criticized for its parochial nature because it has consisted largely of chronicles of American Jewish life and has often failed to explore the relationship between Jews and other ethnic groups in America Rabbi Morris Newfield led Temple Emanu El in Birmingham from 1895 1940 and was counted among the most influential religious and social leaders of that city Cowett chronicles Newfield's career and uses it as a vehicle to explore the nature of ethnic leadership in America In doing so he explores the conflicts with which Newfield struggled *Birmingham's Railways* Kris Davies,2024-02-15 A photographic survey of the railway scene in and around

Libraries of Light Alistair Black,2016-10-04 For the first hundred years or so of their history public libraries in Britain were built in an array of revivalist architectural styles This backward looking tradition was decisively broken in the 1960s as many new libraries were erected up and down the country In this new Routledge book Alistair Black argues that the architectural modernism of the post war years was symptomatic of the age's spirit of renewal In the 1960s public libraries truly became libraries of light and Black further explains how this phrase not only describes the shining new library designs with their open plan decluttered Scandinavian inspired designs but also serves as a metaphor for the public library's role as a beacon of social egalitarianism and cultural universalism A sequel to *Books Buildings and Social Engineering* 2009 Black's new book takes his fascinating story of the design of British public libraries into the era of architectural modernism

Elements of Architecture Mikkel Bille, Tim Flohr Sorensen, 2016-02-26 Elements of Architecture explores new ways of engaging architecture in archaeology It conceives of architecture both as the physical evidence of past societies and as existing beyond the physical environment considering how people in the past have not just dwelled in buildings but have existed within them The book engages with the meeting point between these two perspectives For although archaeologists must deal with the presence and absence of physicality as a discipline which studies humans through things to understand humans they must also address the performances as well as temporal and affective impacts of these material remains The contributions in this volume investigate the way time performance and movement both physically and emotionally are central aspects of understanding architectural assemblages It is a book about the constellations of people places and things that emerge and dissolve as affective mobile performative and temporal engagements This volume juxtaposes archaeological research with perspectives from anthropology architecture cultural geography and philosophy in order to explore the kaleidoscopic intersections of elements coming together in architecture Documenting the ephemeral relational and emotional meeting points with a category of material objects that have defined much research into what it means to be human Elements of Architecture elucidates and expands upon a crucial body of evidence which allows us to explore the lives and interactions of past societies

Virgin Trains Fred Kerr, 2022-08-09 When British Railways BR was privatised in

April 1994 a series of passenger franchises was created that included services on both the East Coast Main Line ECML and competing West Coast Main Line WCML routes The WCML franchise was won by Virgin Trains and it quickly set about improving service by introducing a range of standard trainsets to replace the variety of traction fleets that it had inherited It also became a constant critic of Government policy which promised much but offered little as the company found itself battling to establish the standards of service that it had promised within its franchise agreement but found other bodies within the industry reluctant to support Fred Kerr lives at Southport hence his nearness to the WCML and his book seeks to illustrate the period of changes that Virgin Trains initiated from the immediate application of a startling livery to the introduction of new trainsets and the problems of establishing a new timetable to make the most of the new trainsets The operation of the WCML franchise identified problems with both the nature and structure of the franchise system which were exemplified when the company finally managed to win the ECML franchise although it surrendered the latter when major problems were identified by the company The company subsequently lost the WCML franchise and hence its involvement with train operations within the United Kingdom and Fred Kerr s book seeks to explain the history of Virgin Trains involvement in train operations through a comprehensive collection of photographs showing the traction fleet that it inherited and the new fleets it introduced to service
