Myth and Philosophy from the Presocratics to Plato Kathryn A. Morgan, 2000-08-17 This book explores the dynamic relationship between myth and philosophy in the Presocratics the Sophists and in Plato a relationship which is found to be more extensive and programmatic than has been recognized The story of philosophy's relationship with myth is that of its relationship with literary and social convention The intellectuals studied here wanted to reformulate popular ideas about cultural authority and they achieved this goal by manipulating myth Their self-conscious use of myth creates a self-reflective philosophic sensibility and draws attention to problems inherent in different modes of linguistic representation Much of the reception of Greek philosophy stigmatizes myth as irrational Such an approach ignores the important role played by myth in Greek philosophy not just as a foil but as a mode of philosophical thought The case studies in this book reveal myth deployed as a result of methodological reflection and as a manifestation of philosophical concerns

Handbook of Political Discourse Piotr Cap, 2023-02-14 Synthesising diverse research avenues for politics discourse and political discourse this cutting edge Handbook examines the formative traditions current theoretical and methodological landscape and genres and domains over which political discourse extends

The Play of Character in Plato's Dialogues Ruby Blondell, 2002-06-27 This book attempts to bridge the gulf that still exists between literary and philosophical interpreters of Plato by looking at his use of characterization Characterization is intrinsic to dramatic form and a concern with human character in an ethical sense pervades the dialogues on the discursive level Form and content are further reciprocally related through Plato's discursive preoccupation with literary characterization Two opening chapters examine the methodological issues involved in reading Plato as drama and a set of questions surrounding Greek character words especially *ethos* including ancient Greek views about the influence of dramatic character on an audience The figure of Sokrates qua Platonic hero also receives preliminary discussion The remaining chapters offer close readings of select dialogues chosen to show the wide range of ways in which Plato uses his characters with special emphasis on the kaleidoscopic figure of Sokrates and on Plato's own relationship to his dramatic hero

The Cambridge Companion to Allegory Rita Copeland, Peter T. Struck, 2010-03-25 Traces the development of allegory in the European and American

tradition from antiquity to the modern era The Questions of Jesus in John Douglas Estes,2012-10-19 In *The Questions of Jesus in John* Douglas Estes crafts a theory of question asking based on insights from ancient rhetoric and modern linguistics in order to investigate the logical and rhetorical purposes of Jesus questions in the Fourth Gospel *Dictionary of World Philosophy* A. Pablo Iannone,2013-04-15 The *Dictionary of World Philosophy* covers the diverse and challenging terminology concepts schools and traditions of the vast field of world philosophy Providing an extremely comprehensive resource and an essential point of reference in a complex and expanding field of study the Dictionary covers all major subfields of the discipline Key features Cross references are used to highlight interconnections and the cross cultural diffusion and adaptation of terms which has taken place over time The user is led from specific terms to master entries which provide valuable historical and cultural context Each master entry is followed by at least two suggestions for further reading on the subject creating a substantial bibliography of world philosophy References extend beyond philosophy to related areas such as cognitive science computer science language and physics Subdisciplines covered include aesthetics ethics sociopolitical philosophy the philosophy of law epistemology logic the philosophy of science the philosophy of mind the philosophy of culture and history metaphysics the philosophy of religion Entries are drawn from West Africa Arabic Chinese Indian Japanese Jewish Korean Latin American Maori and Native American philosophy including the important and so far largely neglected instance of Pre Hispanic thought Nahua philosophy Plato's Counterfeit Sophists Håkan Tell,2011 *Plato's Counterfeit Sophists* explores the place of the sophists within the Greek wisdom tradition and argues against their almost universal exclusion from serious intellectual traditions This book seeks to offer a revised history of the development of Greek philosophy as well as of the potential yet never realized courses it might have followed **The Bounds of Myth** Gustavo Esparza,Nassim Bravo,2021-03-22 The articles in *The Bounds of Myth* edited by Gustavo Esparza and Nassim Bravo shed light on the internal shapes of the mythological discourse showing the way in which myth borders religion science literature theology i e other forms of rationality The contributing authors of the volume claim that myth is a valid form of thought and that the former evolves within other forms of discourse even though its composition is independent and even precedes the latter The articles collected here demonstrate the importance of myth as a form of thought that is in constant development a feature that shows in turn that in spite of its remote and archaic origin myth remains a valuable and relevant tool to interpret our own culture Contributors are Nassim Bravo Claudio Calabrese Teresa Enr quez Gustavo Esparza Ethel Junco Enrique Mart nez Cecilia Sabido and Jon Stewart **The Rebirth of Dialogue** James P. Zappen,2012-02-01 Dialogue has suffered a long eclipse in the history of philosophy and the history of rhetoric but has enjoyed a rebirth in the work of Hans Georg Gadamer Martin Buber and Mikhail Bakhtin Among twentieth century figures Bakhtin took a special interest in the history of the dialogue form This book explores Bakhtin's understanding of Socratic dialogue and the notion that dialogue is not simply a way of persuading others to accept our ideas but a way of holding ourselves and others accountable for all of our thoughts

words and actions In supporting this premise Bakhtin challenges the traditions of argument and persuasion handed down from Plato and Aristotle and he offers as an alternative a dialogical rhetoric that restructures the traditional relationship between speakers and listeners writers and readers as a mutual testing contesting and creating of ideas The author suggests that Bakhtin's dialogical rhetoric is not restricted to oral discourse but is possible in any medium including written graphic and digital

The Emergence of Subjectivity in the Ancient and Medieval World Jon Stewart, Jon Bartley Stewart, 2020 This volume presents a philosophical analysis of the development of Western civilization from antiquity to the Middle Ages by tracing the various self conceptions of different cultures as they developed historically reflecting different views of what it is to be human and the rise of the concept of subjectivity

Visions and Revisions James Dale Williams, 2002 Williams Soka U California has compiled nine essays that examine rhetoric and composition from the 1960s to the present its emergence as a field the influence of linguistics and psychology in shaping an empirical agenda the waning of that influence as the field aligned itself more closely with the goals and objectives of traditional English departments the shift toward postmodern perspectives on language place and self and a move toward post postmodern concerns This historical study begins with reminiscences by Richard Lloyd Jones W Ross Winterrowd Frank J D Angelo and John Warnock The second section examines those changes in detail For example Williams makes the connection between rhetoric and democracy especially the influence of liberal democracy on rhetoric in society He argues that because our liberal democracy is so focused on entertainment rhetoric and composition must examine its role in relation to it Annotation copyrighted by Book News Inc Portland OR

Loving the World Appropriately James L. Kastley, 2022-12-08

A revolutionary approach to rhetoric that asks why audiences need persuading What is persuasion For some it is the ideal alternative to violence For others persuasion is simply a neutral instrumentality a valued source of soft power Both positions rest on a fundamental belief persuasion is a power that resides in a speaker acting on an audience *Loving the World Appropriately* asks a different more fundamental question why does an audience need persuasion In shifting our focus James Kastley delivers a provocative new history of rhetoric and philosophy one that describes rhetoric as more than a matter of effective communication and recasts persuasion as a philosophical concern central to notions of human subjectivity

Ultimately Kastley insists persuasion enables us to love the world appropriately
