others were more interested in the sharing of medical knowledge across borders in the promotion of new causes such as physical fitness or the cultural assimilation of immigrants or in finding fresh and innovative ways of battling for old causes such as female suffrage and women's access to education. It was even possible for nationalist women to use the language and practices of internationalism to further their own conservative illiberal or anti-communist agendas or to argue for revision of the peace treaties of 1919-20. The volume addresses these different kinds of activism and the many links between them by way of particular examples. This book was originally published as a special issue of *Women's History Review*. ***The Diplomats, 1919-1939*** Gordon A. Craig, Felix Gilbert, 1953. The authors examine the diplomatic history of the European powers in the era between World War I and World War II. ***British Foreign Policy, 1919-1939*** Paul W. Doerr, 1998-05-15. The author was one of the most influential and controversial intellectuals of the twentieth century. The issues and themes he develops in this book continue to have relevance to modern day concerns with power and its distribution in the international system. Michael Cox's critical introduction provides the reader with background information about the author, the context for the book, its main themes and contemporary relevance.
