EU Human Rights, International Investment Law and Participation Vivian Kube, 2019-08-02 This book demonstrates how human rights obligations of the EU foreign constitution can be operationalized in the realm of international economic regulation The content is divided into three major parts The first outlines the legal foundations needed for the EU to become a shaper of international investment law which include the general principles and objectives of EU external policies the Charter of Fundamental Rights international human rights and the international investment competences of the EU The second part demonstrates the current international investment regime s incompatibility with human rights interests while the third analyzes two mechanisms stemming from trade Law ex ante human rights impact assessments and civil society monitoring bodies and explores whether they could mitigate the current inequalities in the protection of rights The potential of these mechanisms the book argues lies in their capacity to ensure a comprehensive assessment of all interests at stake and to empower traditionally marginalized rights holders to make shape and contest the international investment regime **HC**

728-II - Project Verde: Volume II Great Britain. Parliament. House of Commons. Treasury Committee, 2014 One of the most significant consequences of Co op Bank s near collapse from a public policy perspective was the collapse of Lloyds Banking Group s planned divestment under Project Verde Co op Bank s withdrawal forced Lloyds to resort to its fallback option of an Initial Public Offering The result is a new bank TSB which not having an existing banking presence of its own consists solely of the business divested by Lloyds Accordingly it has a personal current account market share not of 7 per

cent but of 4 2 per cent There is a risk that a bank of this size might struggle to grow significantly and to act as a true challenger in the market Had Co op Bank s resulting capital shortfall been uncovered earlier it is likely that the bank would not have progressed so far with Verde As it was the rapid and late emergence of the capital problem led to Co op s withdrawal from the Verde process at a relatively late stage The Committee recommends that the FRC investigation and the independent inquiry into the events at Co op Bank consider the role of KPMG and the FSA in relation to the late emergence of loan impairment and IT losses On the basis of these findings the independent inquiry into the events at Co op Bank should also form a view on whether Co op s Verde bid could or should have been halted sooner While it may not have been fully transparent from the start that Co op Bank s bid was doomed to failure it was beset by problems from an early stage But it was not these problems that killed the deal it was the capital shortfall that emerged only late in the day It is important from every angle to determine why the capital shortfall was not uncovered earlier
