Bisexual Spaces Geography Of Sexuality And Gender:

Bisexual Spaces Clare Hemmings, 2002 First Published in 2002 Routledge is an imprint of Taylor Francis an informa company Bisexuality and Queer Theory Jonathan Alexander, Serena Anderlini-D'Onofrio, 2014-04-10 According to David Halperin sexuality in our time is typified by a crisis in contemporary sexual definition What is sexuality What does it mean to have a sexual identity or orientation What is the relationship between sexuality as a knowledge construct on one hand and the often messy flows of desire and practices of love on the other How and why are some sexual erotic and intimate practices normalized and others marginalized Queer Theory has emerged in the West as one of the most provocative analytical tools in the humanities and social sciences It scrutinizes identity and social structures that take heteronormativity for granted that do not question the social construction of heterosexuality as normative in relation to its oppositional binary homosexuality At the same time bisexuality is a practice identity and orientation that challenges the binary logic around which cultural notions of sexuality are organized It is a portal to the imagination of a world of amorous expression beyond that divide This provocative collection presents bisexuality and queer theory as two parallel thought collectives that have made significant contributions to cultural discourses about sexual and amorous practices since the onset of the AIDS era and explores the ideas that circulate in these thought collectives today We learn much about the construction and experience of sexuality and the power it still holds throughout the contemporary Western world to shape identities and practices This volume challenges our understanding of what it means to be sexual to have a sexual identity and to practise the arts of loving This book was originally published as a special issue of the Journal of Bisexuality *Space, Place, and Sex* Lynda Johnston, Robyn Longhurst, 2010 This accessible and engaging book explores the ways that space place and sex are inextricably linked from the micro to the macro level from the individual body to the globe Drawing on queer feminist gender social and cultural studies Lynda Johnston and Robyn Longhurst highlight the complex nature of sex and sexuality and how they are connected to both virtual and physical spaces and places Their aim is to enrich our understanding of sexual identities and practices whether they be lesbian gay bisexual transsexual asexual queer or heterosexual They show that bodies are defined and connected through media such as television movies ads and the Internet as well as through real places such as homes churches sports arenas city streets beaches and wilderness Drawing on a diverse array of historical and contemporary examples the authors argue convincingly that sexual politics permeate all places and spaces at every level of geographical scale Thus they illustrate sexuality affects the way people live in and interact with space and place as space and place in turn affect people's sexuality **Geographies of Sexualities** Dr Gavin Brown, Dr Jason Lim, Professor Kath Browne, 2012-11-28 Recent years have seen a dramatic upsurge of interest in the connections between sexualities space and place Drawing established and founding figures of the field together with emerging authors this innovative volume offers a broad interdisciplinary and international overview of the geographies of sexualities Incorporating a discussion of queer geographies

Responses to Geographical Marginality and Marginalization Etienne Nel, Stanko Pelc, 2020-08-13 This book examines regional responses to marginality by highlighting social innovation, local capacity and new path formations in what are often seen as economically weak regions where policy and institutional considerations play a key role. Divided into three parts it covers a wide range of topics related to geographical marginality from various angles on both regional and local scales. The first part focuses on the role of social innovation and illustrates the themes of social innovation and new localism, local revitalization and social entrepreneurship. The second part then addresses the issues of economic responses, valorization, resource use and local action in response to marginalization. Lastly, the third part explores various policies and measures taken to respond to marginality and intensify regional development in marginal areas.

The Routledge Research Companion to Geographies of Sex and Sexualities Gavin Brown, Kath Browne, 2016-05-20 Comprehensive and authoritative, this state-of-the-art review both charts and develops the rich sub-discipline, geographies of sexualities, exploring sex, gender, sexuality and sexual practices. Emerging from the desire to examine differences and exclusions as a key aspect of human geographies, these geographies have engaged with heterosexual and queer, lesbian, gay, bi and trans lives. Developing thinking in this area, geographers and other social scientists have illustrated the centrality of place, space and other spatial relationships in reconstituting sexual practices, representations, desires as well as sexed bodies and lives. This book reviews the current state of the field and offers new insights from authors located on five continents. In doing so, the book seeks to draw on and influence core debates in this field as well as disrupt the Anglo-American hegemony in studies of sexualities, sexes and geographies. This volume is the definitive collection in the area, bringing together many international leaders in the field alongside scholars that are well established outside the Anglophone academy and many emerging talents who will lead the field in the decades to come.

The Ashgate Research Companion to Queer Theory

Noreen Giffney, Michael O'Rourke, 2016-03-23 This interdisciplinary volume of thirty original essays engages with four key concerns of queer theoretical work: identity, discourse, normativity and relationality. The terms queer and theory are put under interrogation by a combination of distinguished and emerging scholars from a wide range of international locations in an effort to map the relations and disjunctions between them. These contributors are especially attendant to the many theoretical discourses intersecting with queer theory including feminist theory, LGBT studies, postcolonial theory, psychoanalysis, disability studies, Marxism, poststructuralism, critical race studies and posthumanism to name a few. This Companion provides an up to the minute snapshot of queer scholarship from the past two decades and identifies many current directions queer theorizing is taking while also signposting several fruitful avenues for future research. This book is both an invaluable and authoritative resource for scholars and an indispensable teaching tool for use in the classroom.

Bisexuality and Transgenderism Fritz Klein, Karen Yescavage, Jonathan Alexander, 2012-12-06 Explore the common ground and the important differences between bisexuality and transgenderism. This book guaranteed to provoke debate and discussion of sexuality and gender is the first devoted exclusively to the relationship between transgenderism and bisexuality. Combining the work of scholars and activists, professional writers and lay people, *Bisexuality and Transgenderism* InterSEXions of the Others presents ideas, thoughts, feelings and insights from a variety of contributors who are committed to understanding and deepening our understanding of gender and sexuality. You'll find scholarly essays, narratives, poetry and a revealing interview with four male to female transsexuals, two of whom are married to women who also participate in the discussion. In addition, the book includes insightful chapters by well-known advocates of transgenderism including Jamison James Green, Coralee Drechsler and Matthew Kailey. The editors of *Bisexuality and Transgenderism* InterSEXions of the Others make the provocative but crucial claim that the larger queer community looks at B and T lives as mere add-ons to L and G. In this book, they focus attention on bisexuality and transgenderism, moving the margins to center stage and exploring how sexuality, gender, desire and intimacy are constructed and circulate in our society. The book's inclusion of voices and scholarship from Eastern cultures challenges our understanding of sexuality and gender constructions, all the more giving this collection a global scope. Here is a sample of what *Bisexuality and Transgenderism* InterSEXions of the Others examines: biphobia and transphobia within the United States gay and lesbian community; the bi, trans and subversive aspects of the works and images of cultural icons Angelina Jolie and Sandra Bernhard; how bisexual and transgendered identities are socially constructed through relationships; the false promise of homosexual play; why the concepts of postmodern sexuality fail to rewrite the construction of gender; why swingers who practice bisexual and transgender behavior are often disdained and marginalized by other GLBT people; suicidal thoughts and other mental health concerns of bisexual males and females as well as transgender people; Eastern perspectives on sexual gender identities with revealing chapters on gender identity in Japan and Indonesia.

Ordinary in Brighton?: LGBT,

Activisms and the City Kath Browne, Leela Bakshi, 2016-05-13 Ordinary in Brighton offers the first large scale examination of the impact of the UK equalities legislation on lesbian gay bi and trans LGBT lives and the effects of these changes on LGBT political activism Using the participatory research project Count Me In Too this book investigates the material issues of social spatial injustice that were pertinent for some but not all LGBT people and explores activism working in partnership that operated within the state Ordinary in Brighton explores the unevenly felt consequences of assimilation and inclusion in a city that was compelled to provide a place literally and figuratively for LGBT people Brighton itself is understood to be exceptional and exploring this specific location provides insights into how place operates as constitutive of lives and activism Despite its placing as the gay capital and its long history as a favoured location of LGBT people there is very little academic or popular literature published about this city This book offers insights into the first decade of the 21st century when sexual and gender dissidents supposedly became ordinary here rather than exceptional and transgressive It argues that geographical imaginings of this city as the gay capital formed activism that sought positive social change for LGBT people The possibilities of legislative change and urban inclusivities enabled some LGBT people to live ordinary lives but this potential existed in tension with normalisations and exclusions Alongside the necessary critiques Ordinary in Brighton asks for conceptualisations of the creative and co operative possibilities of ordinariness The book concludes by differentiating the exclusionary ideals of normalisation from the possibilities of ordinariness which has the potential to render a range of people not only in place but commonplace All royalties from this book will be donated to Allsorts Youth Project Brighton Hove LGBT Switchboard
