Preventing HIV in Developing Countries Laura Gibney, Ralph J. DiClemente, Sten H. Vermund, 2006-04-11 Globally action to prevent HIV spread is inadequate Over 16 000 new infections occur every day Yet we are not helpless in the face of disaster as shown by the rich prevention experience analyzed in this valuable new compendium Best practice exists a set of tried and tested ways of slowing the spread of HIV of persuading and enabling people to protect themselves and others from the virus Individually features of best practice can be found almost everywhere The tragedy on a world scale is that prevention is spotty not comprehensive the measures are not being applied on anywhere near the scale needed or with the right focus or synergy The national response may concentrate solely on sex workers for example Elsewhere efforts may go into school education for the young but ignore the risks and vulnerability of men who have sex with men Action may be patchy geographically AIDS prevention may not benefit from adequate commitment from all parts and sectors of society compromising the sustainability of the response In some countries matters are still worse there is still hardly any action at all against AIDS and scarcely any effort to make HIV visible It is no wonder that the epidemic is still emerging and in some

places is altogether out of control Bisexualities and AIDS Peter Aggleton,2020-08-11 Since early on in the epidemic there has been much interest in the role that bisexual behaviour among men may play in HIV transmission This text reviews from an international perspective what has been learned about male bisexuality in countries as diverse as Peru and Britain Its authors examine the forms that bisexuality takes in different cultures what it means to the men concerned and whether or not such behaviour poses special risks The implications of such enquiry for HIV prevention efforts are also examined

Bisexuality: A Critical Reader Merl Storr,2013-04-03 Bisexuality A Critical Reader presents the essential primary texts on bisexuality from the last 100 years in an easy to read format Exploring this often controversial concept from a range of perspectives this book places bisexuality in its historical and cultural context and explores its many meanings and uses Merl Storr s introductions give a straightforward overview of the texts included and sets them clearly in the context of debates on bisexuality This collection includes pieces by Henry Havelock Ellis Sigmund Freud Alfred C Kinsey Wardell B Pomeroy and Clyde E Martin and H l n Cixous AIDS Sexuality and Gender in Africa Carolyn Baylies,Janet Bujra,2002-09-11 While there

is a growing list of publications devoted to the AIDS epidemic Africa with two thirds of the world s cases still receives scant attention This book may change the way we think about AIDS and how it is being addressed in Africa and the rest of the world The book draws on first hand research and in depth investigations carried out by a team of researchers from Britain Zambia and Tanzania and focuses on the gendered aspect of the struggle against AIDS The authors study the severity of the epidemic and the threat it poses to the population and society in Tanzania and Zambia They argue that the success of strategies against the spread of AIDS in Africa rests on their recognition of existing gendered power relations and that this success might be enhanced if the strategies are built on existing organisational skills and practices especially among women Their conclusions have repercussions for all countries around the world and especially the rest of Africa Bisexual

Work and Professionalism Katie Deverell,2013-01-11 Sex Work and Professionalism examines what happens when professional concern is defined in terms of sex Based on original fieldwork with outreach workers in HIV prevention it

addresses issues of professionalism emotion work and boundaries integrating empirical insights with sociological theory In most professional relationships sex is not defined as part of the relationship in fact it is explicitly excluded in guidelines and codes of ethics HIV prevention outreach workers work in sexual environments with a sexually defined target group and are often employed on the basis of their sexuality They have to learn how to balance their work and professional lives overcoming conflicts such as professional role V community role sexual skills V sexual boundaries personal experiences V professional understanding professional identity V worldviews Many of the questions being raised in this book about the meaning of professionalism the pain and pleasure in emotion work and the management of boundaries between home sex and work are being asked more generally by workers in a range of organisations Sex Work and Professionalism argues for a new understanding of professionalism more appropriate to the human services *Partnership and Pragmatism* Rolf Rosenbrock, Michael Wright, 2003-10-03 Multidisciplinary in approach this book highlights the unique contributions of Germany to AIDS work making available for the first time knowledge which can be applied to other countries as well as to other fields of public health **Sexuality, Health and Human Rights** Sonia Corrêa, Rosalind Petchesky, Richard Parker, 2008-08-18 Sexuality Health and Human Rights surveys the rapid changes taking place at the start of the twenty first century in the social cultural political and economic domains and their impact on sexuality health and human rights

Confronting Global Gender Justice Debra Bergoffen, Paula Ruth Gilbert, Tamara Harvey, Connie L. McNeely, 2010-11-17 Confronting Global Gender Justice Women s Lives Human Rights examines the most complex and demanding challenges facing theorists activists artists and educators engaged in establishing women s rights as human rights and fighting to make these rights realities in women s lives Issues addressed include trafficking AIDS immigration war time violence and legal battles **AIDS: Activism and Alliances** Peter Aggleton, Peter Davis, Graham Hart, 2003-09-02 This book brings together specially selected papers addressing themes discussed at the Eighth Conference on the Social Aspects of AIDS held in London in late 1995 **Disease and Democracy** Peter Baldwin, 2005-05-16 Disease and Democracy is the first comparative analysis of how Western democratic nations have coped with AIDS Peter Baldwin s exploration of divergent approaches to the epidemic in the United States and several European nations is a springboard for a wide ranging and sophisticated historical analysis of public health practices and policies In addition to his comprehensive presentation of information on approaches to AIDS Baldwin s authoritative book provides a new perspective on our most enduring political dilemma how to reconcile individual liberty with the safety of the community Baldwin finds that Western democratic nations have adopted much more varied approaches to AIDS than is commonly recognized He situates the range of responses to AIDS within the span of past attempts to control contagious disease and discovers the crucial role that history has played in developing these various approaches Baldwin finds that the various tactics adopted to fight AIDS have sprung largely from those adopted against the classic epidemic diseases of the nineteenth century especially cholera and that they reflect the

long institutional memories embodied in public health institutions

Culture and Public Action Vijayendra Rao, Michael Walton, 2004 Led by Amartya Sen Mary Douglas and

Arjun Appadurai the distinguished anthropologists and economists in this book forcefully argue that culture is central to development and present a framework for incorporating culture into development discourse For further information on the book and related essays please visit www.cultureandpublication.org **Tacit Subjects** Carlos Ulises Decena,2011-04-06 Based on ethnographic research with Dominicans in New York City a pioneering analysis of how gay immigrant men of color negotiate race sexuality and power in their daily lives Caribbean Pleasure Industry Mark Padilla,2008-11-15 In recent years the economy of the Caribbean has become almost completely dependent on international tourism And today one of the chief ways that foreign visitors there seek pleasure is through prostitution While much has been written on the female sex workers who service these tourists Caribbean Pleasure Industry shifts the focus onto the men Drawing on his groundbreaking ethnographic research in the Dominican Republic Mark Padilla discovers a complex world where the global political and economic impact of tourism has led to shifting sexual identities growing economic pressures and new challenges for HIV prevention In fluid prose Padilla analyzes men who have sex with male tourists yet identify themselves as normal heterosexual men and struggle to maintain this status within their relationships with wives and girlfriends Padilla s exceptional ability to describe the experiences of these men will interest anthropologists but his examination of bisexuality and tourism as much neglected factors in the HIV AIDS epidemic makes this book essential to anyone concerned with health and sexuality in the Caribbean or beyond
