Miracle is actually based on the terminology of the Garden of Eden which means the Presence of God in the Garden there was no sickness no death no need of money no need for the police or hospitals everything that was needed was provided and there were no cemeteries Life should have been going on forever in the Garden but then through Adam not keeping the plan of God secure he stepped out of line and all of creation was effected because of it everything was meant to live forever and when sin entered in then so did death it took Adam and Eve nine hundred plus years to die but they did die just as God promised that they would if they had chosen to not partake of the tree then both of them as well as Cain and Abel would all still be here walking around on the earth today Miracle then is again a fictional story about a fictional place and a fictional Spiritual revival that takes over the earth even though the story sounds like it could actually happen it probably won't

A Bishop's Ministry David Tustin, 2013-09 Few books on episcopacy deal with the inner life or practical problems of being a bishop but this volume gives an inside view It describes the initial challenge of adjusting to a new role with little preparation and indicates the main ongoing pressures This account combines personal experience with theological reflection Convinced that being comes before doing David Tustin first considers vital elements in the bishop's personal way of life inner life outer lifestyle home and hospitality and careful use of time The rationale of what bishops

actually do is then examined in seven key areas together with suggestions about translating ideals into reality teamwork caring for people within and beyond the church conducting worship spreading the Christian message sending new ministers building bridges in society and within the church fostering visible Christian unity Emphasis is laid on bishops sharing their ministry with others and reaching out beyond the church This book offers examples of good practice It draws together resources useful for new bishops including excerpts from classic writers Gregory the Great and Bernard of Clairvaux and pointers to an ecumenical range of contemporary material unlikely to be in the hands of most readers It is relevant to all who share in senior church leadership A bibliography and index are included The closing section argues that bishops no less than other ministers need good initial training periodic review and continuing professional development It also looks at how bishops can adjust to active retirement
