Negm,2021-05-31 This book reviews the economic potential of various natural resources found in the Egyptian deserts that
could help fill the food gap in Egypt e g the date palm olives and domestic animals Bearing in mind that the entire country is
subject to arid or hyperarid climatic conditions only a small portion 3% of total area is agriculturally productive in
comparison the dominant deserts These aspects combined with a growing population ca 100 million citizens and water
resources scarcity have produced severe adverse effects on natural resource utilization This book presents innovative
methods for addressing desert soil s key problems soil erosion salinity pollution decreased fertility minerals and weed and
pest control Its goal is to help authorities reclaim the desert and optimally utilize the minerals and the available natural
resources to support the sustainability agenda 2030 Besides it offers researchers guidance on remaining gaps and future
research directions Lastly and importantly it provides essential information on investment opportunities in desert cultivation
