Nassim Nicholas Taleb who has become a widely cited point of reference ever since the beginning of the financial crisis in 2007 The underlying assumption is that against commonly held believe it is not a long chain of incremental and statistically relevant events that constitutes history but a seemingly insignificant number of outliers or hence Black Swans Consequently the study focuses on a critical examination of the strategic prediction models used in the energy business today which are mainly based on driver based models These models try to predict future price and value chain developments ultimately searching for a strategic direction This study questions this approach by showing that time and again similar predictions have been rendered obsolete by real developments Based on the findings of this historical analysis the study raises the question whether it is possible to draw any practical conclusions for the future discussing methods which could provide protection from Black Swan events **The Publishers Weekly** ,1875 *Black Gold* Augustine Sam,2017-05-13 They are young and carefree and broke Femi a young black graduate with a 1st class degree in Chemistry has no long term ambitions until he meets Jessica Rhodes a blonde exchange student from San Diego When they miraculously land two spectacular job offers within the first week of graduation their bleak honeymoon is transformed into a dream With a 30 day grace period to accept one offer and a free trip to New York to evaluate the other they soon find themselves hopping from the skyscrapers of Manhattan to the Grand Canal in Venice Italy their once uncertain future dangling over a multi million dollar cliff hanger What they don t know is that undisclosed details of the deal will drag them to the place where dreams end and nightmares begin Will their fragile marriage survive the greed the captivating allure of Black Gold and that vile ancient tradition that seeks to determine who should be married and to whom Black Gold Charles More,2009-06-20 Oil and its central role in British and global history and politics *The Woman's World ...* Oscar Wilde,1889 **Black Gold** M.W.
