Asian Security 1994/95:

East Asian Security Michael Edward Brown, Sean M. Lynn-Jones, Steven E. Miller, 1996 East Asian Security examines some of the most important strategic questions about the future of East Asia. It includes provocative essays that explore the overall prospects for war, peace, and stability in the region. Other essays focus on the likely strategies that China and Japan will pursue at the dawn of the next millennium. Students, scholars, and analysts of contemporary issues will find East Asian Security to be a stimulating and valuable overview of these questions. The Environmental Dimension of Asian Security In-t'aek Hyön, Miranda Alice Schreurs, 2007 Northeast Asia is a region with highly disparate levels of industrialization and political systems. It also contains some very troubling security flashpoints: the Taiwan Strait, the Korean Peninsula, and the East China Sea. China's rapacious quest for energy and rapid industrial expansion have led to intense international competition with Japan and the United States, and internal instability as well. North Korea poses two distinct environmental security threats: famine refugees and the regime's use of nuclear blackmail for subsidized energy. Yet there is very little regional cooperation despite the need to manage disputes over energy, natural resources, and pervasive pollution. The Environmental Dimension of Asian Security examines these issues through a regional environmental security complex that explores the potential for greater intersubjective understandings of regional environmental and natural resource problems and greater institutional collaboration and management. The International Politics of Asia-Pacific, 1945-1995 Michael Yahuda, 2005-08-19 This fully updated and revised edition of Michael Yahuda's extremely successful textbook introduces students to the international politics of the Asia Pacific region since 1945. Divided into three parts, the first presents a chronological overview of developments since 1945; the new second part looks at the post-cold war period, while the third focuses on the policies of the US, the USSR, Russia, China, and Japan in the region. Yahuda analyses politics in terms of global, regional, and local trends, combining narrative with analysis. This new edition features analysis of the economic crisis and the potential implications worldwide of East Asian economic recovery; a chapter on the emergence of East Asia as a significant force in world affairs, focusing on the role of lesser powers such as Indonesia and Malaysia; chapters considering prospects post 2000 and competing frameworks for security in the wake of nuclear tension between India and Pakistan; the strengths and weaknesses of US hegemony in the new world order. **Asian Security 1994-95** Research Institute for Peace and Security Staff, 1994-11 *Forging a Singaporean Statehood: 1965-1995* Robin Ramcharan, 2021-10-25 This work takes an in-depth look at the multi-faceted contemporary relationship between Singapore and Japan since the end of World War II. It is the story of a relationship between an economic superpower, Japan, and an enterprising city state whose leaders have sought to emulate not only Japan's economic success but several key facets of Japanese society as well. No other country surpasses Singapore in its public admiration of Japan. How is it possible for a multi-ethnic Singapore to emulate a relatively homogeneous Japan? What features of economic and political motives behind the attempt to emulate Japan? These and other

questions are addressed in this work which will be of interest to scholars of the international relations and security of East and Southeast Asia **Asian Security 1994-95** Research Institute for Peace and Security, 1994-11 *Naval Strategy in Northeast Asia* Duk-Ki Kim, 2012-10-12 Over the past decade Northeast Asia has been dominated by quite significant strategic change which is ongoing and brings with it many uncertainties naval capabilities in Northwest Asia are instrumental in promoting maritime security interests helping to build a stable security environment through active participation in regional naval co operation This landmark book explores the region's maritime peace and stability and examines in depth the strategic military and apolitical issues that underpin any effort to develop maritime co operation
