Collecting Asian Art Markéta Hánová, Yuka Kadoi, Simone Wille, 2024-02-29 Rather than centering on the well known collections in Western European and North American museums Collecting Asian Art turns to museum collections of Asian art in Central Europe which emerged from the late 19th century onwards Highlighting the dimensions of Central European connectedness this volume explores how these collections evolved and changed under changing cultural and political conditions from the pre World War I to the post World War II periods With a primary focus on collections of East Asian South Asian and West Asian art in Vienna Prague Berlin Warsaw Krak w Budapest and Ljubljana it outlines the transregional connections and networks that gradually developed Collecting Asian Art locates Asian art across the twentieth century in Central Europe via discourse and ideology and discusses key collections and the way individual collectors built their networks It thus explores transregional connections that developed through collecting activities and strategies in the prewar interwar and postwar eras Contributors also examine the personal connections between a group of Indologists from postwar Prague and modernist Indian artists from the early 1950s to the 1980s and also discuss the systematic archiving of East Asian art collections in Slovenia A concluding conversation looks at colonisation and decolonisation from a broader perspective by approaching it through recent art historical discussions on the global dimensions of modernism By defining the region through its external relationships and its entanglements with regions across Asia rather than as a self contained unit the contributions in this

volume outline how these transregional connections and networks evolved and changed over time thus highlighting their singularity in comparison to developments in Western Europe Based on recent research Collecting Asian Art reveals neglected sources while reinterpreting well known ones **Studies in Southeast Asian Art** Nora A. Taylor,2018-08-06 This wide ranging collection of essays examines the arts of Southeast Asia in context Contributors study the creation use and local significance of works of art illuminating the many complex links between an object s aesthetic qualities and its origins in a community *Teaching South and Southeast Asian Art* Bokyoung Kim,Kyunghee Pyun,2023-04-10 This volume challenges existing notions of what is Indian Southeast Asian and or South Asian art to help educators present a more contextualized understanding of art in a globalized world In doing so it re examines how South or Southeast Asian art is being made exhibited circulated and experienced in new ways in the United States or in regions under its cultural hegemony The essays presented in this book examine both historical and contemporary transformations or lived experiences of monuments and regional styles sites from South or Southeast Asian art in art making subsequent usage and exhibition making under the rubric of Indian South Asian or Southeast Asian Art **The Modern in Southeast Asian Art** T.K. Sabapathy,Patrick Flores,2023-05-12 Who spoke of the modern in Southeast Asia When and where was the modern written How was it written How was it received This collection brings together nearly 300 texts that were originally published between the late 19th to late 20th centuries selected by a group of scholars as responses to questions such as these The texts were produced chiefly in various locations in the region by artists critics historians and curators in 11 languages many of which had never before been translated into the English language Years in the making this publication is the first to present such breadth and depth of art writing in the region of Southeast Asia and will be a valuable resource to students teachers scholars and those interested in Southeast Asian studies and art history Looking from inside the region the rich fecundity of art discourses becomes clear if for example we compare the 1843 text by Raden Saleh from what is now Indonesia with the 1946 text of S Sudjojono allowing a historical grasp of modernity from two of its original texts or across the region to the 1971 text on Malaysia by Piyadasa The tyranny of physical cultural and temporal separation are thus overcome It is to the great credit of the editors that they have enabled this for us and this work will be a basic art historical reference both inside and beyond the region for some time to come John Clark Emeritus Professor of Art History University of Sydney Needed now more than ever this collection opens up new worlds in the guise of a region called Southeast Asia Each carefully selected text offers a new point of access to thinking through across beyond and with the elusive idea of the modern A signal achievement this volume is both a rich introduction to the region as well as a vital resource for anyone genuinely committed to art histories that generate new spaces rather than settle for existing realms Joan Kee Professor History of Art University of Michigan **Russia in Central Asia in 1889** Marquess George Nathaniel Curzon Curzon of Kedleston,1889 [Russia in Central Asia in 1889 and the Anglo-Russian Question](#) Marquess George Nathaniel Curzon Curzon of Kedleston,1889
