Asian Security Issues National Systems And International Relations:

Asian Security Issues Lawrence Ziring, David G. Dickason, 1988 **Asian Culture, Diplomacy and Foreign Relations, Volume I**, 2022-01-10 Considering the important impact of Asian cultures on international relations we conducted a multifaceted analysis and authentic summary of the Asian experiences and patterns of dealing with foreign relations from an Asian insider's perspective aiming to find out where the diverging or converging diplomatic ways of the West and the East came from and what the positive diplomatic values and practices originated from Asian traditions are Focusing on China volume one thoroughly analyses the nature political culture and mechanism of the tribute system from ancient time to the modern era within and beyond China Volume two studies the culture and diplomacy of various individual Asian nations except for China both in general and in particular cases with an interdisciplinary approach **Asian Security in the Age of Globalization** Lui Hebron, 2024-05-03 This book examines the security challenges and opportunities that the nation states of Asia confront in an era of globalization With consideration of the increasingly border less nature of international relations via the integrative process of globalization this book explores the emerging threats to regional and national security in Asia It looks beyond traditional military threats analysing non traditional aspects of security including economic social environmental transnational energy health concerns and threats posed by organized crime groups Its approach is organized both theoretically and in a country specific case study form which provides contemporary examples of the threats faced in the region By acknowledging that contemporary Asian security has become much more complex and complicated it highlights the uncertainty and instability that the nation states of the Indo Pacific region confront Presenting both a globally oriented and expanded vision of Asian security this book is an excellent resource for scholars and students of Asian Studies International Relations and Global Studies *Asian Security and the Rise of China* David Martin Jones, Michael Lawrence Rowan Smith, Nicholas Khoo, 2013-01-01 Khoo Jones and Smith have pulled off a remarkable balancing act crafting a well grounded and multifaceted survey of China's rise in the context of Asian security In a field which is often marked more by scholarly effervescence than substance the authors provide a refreshingly detailed portrait of the last two decades and fairly minded point out evidence which might support both extremes of the debates they challenge with their own third way Frank Scott Douglas US Naval War College US Congratulations to the authors for a clearly argued and comprehensive treatment of China's post Cold War rise and what it means for existing and future dynamics of the Asia Pacific region Effectively employing realist theory in a fair minded treatment of regional developments the volume shows how and why power realities are more important than non material factors in determining the region's trajectory and thereby demonstrates that China's ascendance in Asia remains complicated and conflicted Robert Sutter George Washington University US East Asia is without question a region of huge economic political and security significance *Asian Security and the Rise of China* offers a comprehensive overview and assessment of the international politics of the Asia Pacific since the

end of the Cold War seeking to address the overarching question of how we can most convincingly explain the central dynamics of Asia's international relations. Via a realist perspective on the dynamics and frictions associated with accommodating the rise of powerful states, this timely book addresses the core issue in contemporary Asian politics: the rise of China. The contributors expertly evaluate China's rise and the impact it has had on the dynamics of regional relations in North East and South East Asia. It demonstrates that China's economic development and its regional and international ambition increasingly conflict with the existing consensus-based regional arrangements like the ASEAN Regional Forum and the East Asian Summit mechanism. As a consequence, smaller states in the region increasingly resort to hedging and balancing strategies in an attempt to mitigate Chinese hegemony. This leaves the region in the grip of a complex and potentially destabilizing security dilemma. The book offers a compelling analysis of the problem that China presents for its region that will enlighten undergraduate students of regional political studies and international relations. Postgraduate and Master's students on courses addressing East and South East Asia will also find plenty of information in this invaluable book.

Defense Department Sponsored Foreign Affairs Research, Hearings ... United States. Congress. Senate. Foreign Relations, 1968 **NATO and the Future of European and Asian Security** Christensen, Carsten Sander, Maisaia, Vakhtang, 2021-06-25 The key role in the security policy of the North Atlantic Treaty Organization (NATO) is to prevent new types of asymmetric challenges and deal with the new architecture of the Euro Atlantic security environment including the control of weapons of mass destruction. In modern international politics, the growing militaristic policies of the states have created many dangers and raised the need for NATO to address new issues that the Alliance did not face during the Cold War. NATO and the Future of European and Asian Security reflects on difficult geopolitical and geostrategic conditions and reviews how new types of warfare have a drastic impact on NATO's military and defense doctrine. This book provides the newest data and theories and contributes to the understanding of the transformation of the regional security environment in the aegis of the Euro Atlantic. Covering topics including foreign policy, global security, hybrid warfare, securitization, and smart defense, this book is essential for government officials, policymakers, public relations officers, military and defense agencies, teachers, historians, political scientists, security analysts, national security professionals, administrators, government organizations, researchers, academicians, and students. Defense Department Sponsored Foreign Affairs Research United States. Congress. Senate. Committee on Foreign Relations, 1968 **Trump's America and International Relations in the Indo-Pacific** Tsuneo Akaha, Jingdong Yuan, Wei Liang, 2021-08-25 The book assesses U.S. foreign relations in the Indo-Pacific during the Trump Administration with a particular focus on the regional powers' response to Trump's America First policy. The chapter authors draw on the theoretical insights from dominant International Relations theories: Neo-Realism, Liberal Institutionalism, and Constructivism to explain both continuities and discontinuities found in the regional powers' security and foreign economic policies before and during the Trump Administration. The book will be of interest to new and advanced

students of International Relations Asian Studies and U S foreign policy The multi national perspectives of the regional experts offer penetrating analyses of the likely legacy or lack thereof of the range of political security and trade policy initiatives launched by the Trump Administration and its implications for the balance of power regional institutions and national identity informed approaches to international relations in the Indo Pacific

The Growing Interest in Asia-Pacific Arms Control Issues Andrew Mack, Andrew McClean, 1989

the emergence of china throughout asia: security and economic consequences for the united states, Asian Security Reassessed Stephen Hoadley, Jurgen Ruland, 2006 This book traces changes in the concept of security in Asia from realist to cooperative comprehensive and human security approaches and assesses a number of policy alternatives to management of both old and new security threats It surveys not only orthodox security threats such as tensions between regional powers or armed ethnic antagonists but also new sources of anxiety such as resource scarcity economic instability irregular migration community fragmentation and international terrorism Security policies of major powers such as China Japan and the United States and the moderating roles of regional organizations such as ASEAN ARF SCO and KEDO are evaluated in historical and contemporary perspectives Contributors proffer policy relevant insights where appropriate The book concludes that traditional security approaches remain valid but need to be adapted to the new challenges and offers suggestions for incorporating fresh Asian security perceptions into the agendas of policy makers analysts and scholars

Asian Security Handbook William M. Carpenter, David G. Wiencek, James R. Lilley, 2019-06-19 Featuring 19 individual country profiles this volume seeks to shed light on the key political and security factors and geo political trends in the Asia Pacific region that bear monitoring and that will have greater significance in the post Cold War environment

Handbook of Asian Security Studies Sumit Ganguly, Andrew Scobell, Joseph Liow, 2009 **Security Studies**

Christopher W. Hughes, Yew Meng Lai, 2011-02-18 This reader brings together key contributions from many of the leading scholars in the field offering students an informed overview of the most significant work in security studies The editors chart the development of the key theoretical and empirical debates in security studies in the Cold War and post Cold War periods introducing the ideas of the most influential past masters and contemporary thinkers on security in the UK US and elsewhere The book is divided into five areas What is Security Security Paradigms Security Dimensions and Issues Security Frameworks and Actors The Future of Security In order to guide students through the issues the book has a substantial critical introduction exploring the development of security studies as well as introductory essays that provide an overview of each section highlighting clearly how the readings fit together Suggestions for further reading and key questions for discussion are also included Security Studies is an invaluable resource for all students of security studies and international relations

East Asian Security Michael Edward Brown, Sean M. Lynn-Jones, Steven E. Miller, 1996 East Asian Security examines some of the most important strategic questions about the future of East Asia It includes provocative essays that explore the overall prospects for war peace and stability in the region Other essays focus on the likely strategies that China and Japan will pursue at the dawn of the next millennium Students scholars and analysts of contemporary issues will find East Asian Security to be a stimulating and valuable overview of these questions **Non-Traditional Security in Asia** Mely Caballero-Anthony, Alistair D.B. Cook, 2013 Non Traditional Security in Asia examines the critical security challenges faced by states and societies in Asia including health food water natural disasters internal conflict forced migration energy transnational crime and cyber security Through the development of a comprehensive analytical framework that establishes the key ingredients to policy evaluation the editors draw on a wide variety of experts to collaborate in investigating these crucial issues This inclusive framework ensures that all voices are heard including those oftentimes under represented and marginalized in society to ensure that academic and policy debates are well informed about the often complex and nuanced nature of these non traditional security challenges Through an investigation into these specific non traditional security threats Non Traditional Security in Asia documents and evaluates many of the most pressing challenges faced by Asia today The authors analyse the ways in which particular issues are addressed by the many stakeholders involved in the policy making process both within governments and across societies The question of how these challenges are addressed across and between the different levels of global governance highlights the strengths and weakness that are directly attributable to policy successes and failures It is through this layered and comprehensive approach together with an evaluation of the role of stakeholders which binds together the chapter contributions to this collection The book undertakes an issue specific chapter

study of how Asian states and societies address these non traditional security concerns from environmental adaptation and mitigation measures to conflict resolution For each issue area it identifies and explains the concerns of various policy communities identifying the motivations behind some of the key decisions made to affect change or stabilize the status quo Essentially it questions not only what a security issue is but also for whom the issue is important and the interaction this has with policy outcomes With a focus on regional and global institutions as well as national and local ones this collection illustrates the variety of stakeholders involved in non traditional security concerns and reflects on their relative importance in the decision making process Through a systematic evaluation of these non traditional security issues by employing a comprehensive analytical framework critical appreciation of the dynamics of the policy making process surrounding issues of crucial national regional and international significance in Asia are made As a result of sharing these insights the contributors provide the tools as well as a selection of issue specific stakeholders to illuminate the key but complex characteristics of non traditional security in Asia

UN Peace Operations and Asian Security Mely Cabellero-Anthony, Amitav Acharya, 2005-09-27

This is an unparalleled analysis of the state of the United Nations peace operations and their impact on Asian security This new volume examines new strategies being adopted by the UN including doctrinal shifts in peace operation and assesses the division of labour between the UN regional organisation and non governmental organisations actors Based on selected papers from mostly Asian scholars the book offers regional perspectives from South Southeast and Northeast Asia on the changing nature of UN Peace operations and analyses some of the core issues that are of critical relevance to regional security in Asia In addition it reveals interesting new insights on the new players in the area of peace operations i e China and Japan and considers their projected roles as defined by their respective security concepts It also delves into issues of possible areas of concern caused by the new activism of these regional powers in peace operations Finally the book also revisits the significant lessons learnt from the UN experience in Cambodia and East Timor and examines their impact on future directions of peace operations This book was previously published as a special issue of the leading journal *International Peacekeeping*
