The International Jew: Aspects of Jewish power in the United States ,1920 **Aspects of Jewish Power in the United States** ,1922 **Jewish Power in America** Henry L. Feingold,2011-12-31 Jewish political power exists as a separate agency in the American polity but before it can be determined whether it is inordinate historian Henry L Feingold declares that it first needs to be identified and defined Jewish power is not associated with military armaments as with a sovereign state like Israel Nor is it personal power There are many influential Jews today who have raised huge sums for office seekers but there are none whose use of financial resources was inordinate With the exception of an abiding concern with the security of Israel there are no overriding public policy concerns that differentiate Jewish voters from the informed educated segment of the American electorate Feingold acknowledges that American Jews do have political power But what kind is it and how does it compare to the power exercised by other ethnic and interest groups that thrive in the American polity The basic charge of those who have raised the alarm about Jewish power that it is used conspiratorially against the national interest is addressed and repudiated This book addresses the question of Jewish power by examining five recent major instances beginning with the New Deal when the play of Jewish power or power exercised by Jews was evident The engagement of American Jewry in the political process is amply documented by survey research and evidenced by the disproportionate number of Jewish office holders on all levels of government It can be traced in some measure to its relationship to European Jewish migration and to the inherent activism of the political left The work presents the reader with a broadly comprehensive and highly informative picture of American Jewish participation in the American polity The Party of Fear David Harry Bennett,1988 David Bennett presents a ground breaking historical analysis of the forces shaping nativist and counter subversive activity in America from colonial times to the present He demonstrates that in this nation of immigrants the American Right did not emerge from postfeudal parties of privilege or from the social chaos that bred a Hitler of Mussolini in Europe *Monsters and Madonnas* Judith Taylor Gold,1999-05-01 Judith Taylor Gold challenges traditional views that trace the source of Christian anti Semitism to the presentation of Jews in the first four books of the New Testament She contends that the unflattering depiction of Jews in the gospels and other Christian writings is the result not the cause of Christian anti Semitism Traversing widely ranging subjects such as pre Christian religion New and Old Testament scripture horror literature incest and pornography she invokes an imperative exchange of dialectics between the unconscious mind and the hidden content of the Christ story as the birthplace of Christian anti Semitism **Tradition Transformed** Gerald Sorin,1997-04-18 Sorin also shows how the large migration of Jews from Russia and Eastern Europe in the late nineteenth century made a lasting impact on how other Americans imagine understand and relate to Jewish Americans and their cultural contributions today **The International Jew** Henry Ford, Jr.,2015-02-15 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work

United States Jewry, 1776-1985 Jacob Rader Marcus, 1989 The third volume covers the period from 1860 to 1920 beginning with the Jews slavery and the Civil War and concluding with the rise of Reform Judaism as well as the increasing spirit of secularization that characterized emancipated prosperous liberal Jewry before it was confronted by a rising tide of American anti Semitism in the 1920s **Judaisms** Aaron J. Hahn Tapper, 2016-06-07 An introductory textbook that examines how Jews are a culture ethnicity nation nationality race and religion With each chapter revolving around a single theme Narratives Sinais Zions Messiahs Laws Mysticism Cultures Movements Genocides Powers Borders and Futures this introductory textbook interrogates readers understanding of the Jewish community Written for a new mode of teaching one that recognizes the core role that identity formation plays in our lives this book weaves together alternative marginalized voices to illustrate how Jews have always been in the process of reshaping their customs practices and beliefs Judaisms is the first book to assess and summarize Jewish history from the time of the Hebrew Bible through today using multiple perspectives Provided by publisher **The United States in World War II** Mark Stoler, Molly Michels, 2018-10-15 Outstanding the best short history I have read of America's role in World War II Stoler and Michels draw on a judicious selection of historical documents to provide a concise readable history The historiography of the war is well covered and explained It is no small task to delineate the many sometimes heated debates over the conduct of the war and in this volume the many sides of the historical debate are fairly and evenly treated For a single volume study the book is remarkably comprehensive It addresses major events and decisions yet it also covers the political and policy driven strategic and operational and social and cultural aspects of the War The development of key technologies such as the atomic bomb and intelligence capabilities are explained Finally this book also covers topics that are often neglected in histories of the War

including racism in America the American response to the Holocaust and the evolving role of women in the workforce Adrian Lewis The University of Kansas author of The American Culture of War The History of U S Military Forces from World War II to Operation Enduring Freedom Routledge 2nd ed 2012 **The Left, the Right and the Jews** W.D. Rubinstein, 2015-10-16 First published in 1982 this book examines anti semitism in the Western world The author concludes that fringe neo Nazi groups notwithstanding significant anti semitism is largely a left wing rather than a right wing phenomenon He finds that Jews have reacted to this change in their situation and in attitudes towards them by making a shift to the right in most Western countries with the major exception of the United States Considering the contribution of Jews to socialist thought from Marx onwards and the equally lengthy history of right wing anti semitism this shift is one of the most significant in Jewish history This movement to the right is discussed in separate chapters as is Soviet anti semitism and the status of the State of Israel Examined in depth are the implications of this shift in attitude for Jewish philosophy and self identity
