Intelligent Control Willem de Lint, Alan Hall, 2009-06-02 Massive public protests have had a prominent presence at the turn of the millennium with many thousands of protestors controlled by small yet increasingly specialized police forces Investigating the ways in which police practices have evolved in relation to labour strikes and protests Intelligent Control examines the means by which police forces have developed more coercive and consent based approaches to regulating social unrest Willem de Lint and Alan Hall argue that police forces have been gradually adapting public order operations to match or reflect wider trends in politics and society The main such development is the enfolding of neoliberalism Police and labour and protester adaptations have followed a fine line between legitimacy and illegitimacy consent and coercion The authors explore the development of consent policing from its roots in labour strike countering and the emergence of what they call intelligent control from expanded covert intelligence gathering operations A concise study of how police practices changed from the 1960s to the present day Intelligent Control is an informative account of a revolution in modern policing **The**

Limits of Labour David Bright, 2011-11-01 In a few short decades before the First World War Calgary was transformed from a frontier outpost into a complex industrial metropolis With industrialization there emerged a diverse and equally complex working class David Bright explores the various levels of class formation and class identity in the city to argue that Calgary's reputation as a prewar centre of labour conservatism is in need of revision Bright also delineates the trials of the Calgary labour movement in the 1920s Internal divisions and dissent prevented the movement from realizing the potential strength of the working class Instead even as local capitalism restructured itself political and industrial labour organizations wilfully fragmented their own base of support In particular they failed to address the concerns and needs of the growing number of unemployed in the city a neglect that foreshadowed events of the 1930s This failure left the labour movement unable to meet the challenge of the Great Depression In part at least the demise of labour as a viable political alternative in Calgary paved the way for the rise of Social Credit Using Calgary as a model The Limits of Labour reasserts the need to place class formation at the heart of the development of western Canada and provides an historical context to the renewed struggle of labour for social justice in the 1990s *Handbook Global History of Work* Karin Hofmeester, Marcel van der

The Canadian General Election of 1997 Alan Frizzell, Jon H. Pammett, 1997-10-01 The General Election of 1997 did not turn out as Jean Chretien and the Liberal Party had planned Chretien called an early election believing that his party was in a position to retain the majority they had won in 1993 They got their majority but just barely When the campaign began the focus for many Canadians was the economy and job creation National unity however quickly became a key issue and triggered the most heated debates of the campaign As was the case in 1993 the election of 1997 saw the country divided

along regional lines The Bloc Quebecois remained strong in Quebec while the Progressive Conservatives and New Democrats dominated the maritime provinces The Reform Party meanwhile won the west in a landslide becoming the Official Opposition for the first time It was Ontario however where the election was won the Liberals won all but two seats in Canada's largest province and in the end that was enough to carry Jean Chretien to victory The Canadian General Election of 1997 is a study of the key aspects of the campaign and the election itself In addition to analyzing each party's campaign authors examine the role of the media pollsters the electoral system and the voters Articles are contributed by some of the best known political writers in Canada today Anthony Westell Stephen Clarkson Peter Woolstencroft Alan Whitehorn Keith Archer Faron Ellis AndrBernard Chris Dornan Ed Greenspon Michael Marzolini and Louis Massicotte This readable volume will appeal to an academic as well as a general readership and is ideally suited for libraries and political science courses New to this year's volume is a post election survey by Jon Pammett

Misrecognized Materialists Matt James, 2011-11-01 Canada's history of intense constitutional debate is often depicted as a source of national embarrassment a diversion from more sensible endeavours *Misrecognized Materialists* tells a different story Beginning with the Rowell Sirois hearings of the Great Depression and concluding with the national unity wars of the late 1980s and early 1990s Matt James details how groups representing marginalized constituencies women working class people and ethnocultural minorities were able to use the Canadian constitutional arena to pursue traditionally neglected aspirations and concerns With concrete illustrations and case studies James questions the common tendency to interpret recognition struggles as departures from traditional materialist priorities such as economic security and personal safety Ultimately he argues that such materialist priorities were and are in fact at the heart of the fight for recognition for many marginalized groups A book with provocative implications for students and scholars of social movements and identity politics *Misrecognized Materialists* offers a fresh and important perspective on Canada's constitutional struggles over civic symbolism and identity

Government Regulation of the Employment Relationship Bruce E. Kaufman, 1997 Ever since the emergence of industrial relations as a field in the late 1920s three different approaches to labor problems have been focal points for research and debate according to Bruce E Kaufman What he refers to as employers solutions involve personnel management workers rely on unionism and collective bargaining and the third component the community depends on government regulation in the form of protective labor legislation and social insurance programs Kaufman contends that government regulation has contributed significantly to the remarkable progress made during the twentieth century in achieving a more productive and humane workplace As labor problems have changed debate about the efficacy of government regulation has continued In this volume some of the most distinguished scholars in industrial relations frame the current issues develop theoretical insights and provide an objective review of the empirical evidence

Labour Goes to War Wendy Cuthbertson, 2012 During the Second World War the Congress of Industrial Organizations in Canada grew from a handful of members to more than a quarter million and from political insignificance to

a position of influence in the emergence of the welfare state What was it about the good war that brought about this phenomenal growth Labour Goes to War analyzes the organizing strategies of the CIO during the war to show that both cultural and economic forces were at work Labour shortages gave workers greater power in the workplace and increased their militancy But workers patriotism their ties to those on active service and allegiance to the people s war also contributed to the CIO s growth and to what it claimed for workers Drawing on a wealth of archival material Wendy Cuthbertson illuminates this complex wartime context She also shows how the complex often contradictory motives of workers during this period left the Canadian labour movement with an ambivalent progressive conservative legacy **Bureaucratic**

Manoeuvres John Grundy,2019-01-01 In Bureaucratic Manoeuvres John Grundy examines profound transformations in the governance of unemployment in Canada While policy makers previously approached unemployment as a social and economic problem to be addressed through macroeconomic policies recent labour market policy reforms have placed much more emphasis on the supposedly deficient employability of the unemployed themselves a troubling shift that deserves close critical attention Tracing a behind the scenes history of public employment services in Canada Bureaucratic Manoeuvres shows just how difficult it has been for administrators and frontline staff to govern unemployment as a problem of individual employability Drawing on untapped government records it sheds much needed light on internal bureaucratic struggles over the direction of labour market policy in Canada and makes a key contribution to Canadian political science economics public administration and sociology **Canada's 1960s** Bryan D. Palmer,2009-01-01 Focusing on the major movements and personalities of the time as well as the lasting influence of the period Canada s 1960s examines the legacy of this rebellious decade s impact on contemporary notions of Canadian identity *In Search of a Social Contract* Richard Simeon,C.D.
