The text opens with an exploration of the history of assessment in higher education in general and then student affairs more specifically. It provides the reader with a unique approach to learning and understanding AER. All chapters include relevant terminology necessary for understanding the competency applied to a case study and an opportunity for self-assessment. While the book is designed for those who are preparing to become student affairs educators and for those who are new to this discipline, it is certainly filled with information and resources for entry-level, mid-level, and senior-level professionals. The text is not only a blueprint but also a global positioning system on assessment, evaluation, and research in student affairs to guide the reader in the process of helping and educating students.
