Assessment Of Children And Youth:

Assessment of Children and Youth with Special Needs Libby G. Cohen, Loraine J. Spenciner, 2014-02 The purpose of the fifth edition is to present future and experienced educators with an up to date understanding of contemporary perspectives on the assessment of children and youth expanding previous coverage of both traditional and contemporary assessment approaches Designed for assessors to acquire knowledge understanding and skills related to the special education process including referral for special education services response to intervention assessment timelines eligibility requirements monitoring and evaluating student progress The text also covers various approaches to assessing academic and behavioral concerns and the ability to compare and contrast specific approaches and implement them *Clinical Assessment of Children and Adolescents* Nuria de la Osa, Miguel Á. Carrasco, 2024-08-12 Up to date information on successfully assessing children and adolescents in clinical settings This book showcases state of the art assessment methods instruments and processes in the clinical assessment of children and adolescents Written by leading experts the book highlights skills and specific procedures that are relevant and distinctive for the assessment of different age groups and in different contexts so that professionals can plan interventions effectively After an introduction to the basic concepts and approaches to the clinical assessment of children and adolescents four further sections explore the diagnosis of psychological problems the conceptualization of clinical problems and interventions the assessment of intervention progress and outcomes and the assessment of specific groups and in special contexts The contributions are full of practical examples to address issues such as clinical judgement and bias results integration multi informant data collection and incremental validity **The Assessment of Child and Adolescent Personality** Howard M. Knoff, 2002-12-31 Now available in paper for the first time this volume brings together leading contributors to provide a comprehensive review of theory research and practice in child and adolescent personality assessment Organized for easy reference the book is divided into four parts Part I summarizes basic theories issues and concepts setting forth a framework for assessment as a hypothesis generating problem solving process Part II describes and evaluates a wide range of relevant approaches tests and techniques marshaling the available data and reviewing administration procedures scoring and interpretation In Part III the process by which personality assessment is translated into effective intervention strategies and programs for children is examined in depth A summary of major perspectives and recommended practices is presented in Part IV which also considers future needs and directions for the field Early Childhood Assessment National Research Council, Division of Behavioral and Social Sciences and Education, Board on Testing and Assessment, Board on Children, Youth, and Families, Committee on Developmental Outcomes and Assessments for Young Children, 2008-12-21 The assessment of young children s development and learning has recently taken on new importance Private and government organizations are developing programs to enhance the school readiness of all young children

especially children from economically disadvantaged homes and communities and children with special needs Well planned and effective assessment can inform teaching and program improvement and contribute to better outcomes for children This book affirms that assessments can make crucial contributions to the improvement of children s well being but only if they are well designed implemented effectively developed in the context of systematic planning and are interpreted and used appropriately Otherwise assessment of children and programs can have negative consequences for both The value of assessments therefore requires fundamental attention to their purpose and the design of the larger systems in which they are used Early Childhood Assessment addresses these issues by identifying the important outcomes for children from birth to age 5 and the quality and purposes of different techniques and instruments for developmental assessments **Clinical**
