Assessment Of Nonorthopedic Sports Injuries A Sideline Reference Manual

Robb S. Rehberg

Assessment Of Nonorthopedic Sports Injuries A Sideline Reference Manual:

Assessment of Nonorthopedic Sports Injuries Jeffrey Lewandowski, 2000 Assessment of Nonorthopedic Sports Injuries A Sideline Reference Manual is a concise and user friendly guide that will benefit both the clinician and the student This handy manual will help the clinician evaluate and treat nonorthopedic injuries on the sidelines at sporting events and can also be used as a study guide for students in the classroom This well organized reference guide contains algorithms tables and illustrations along with chapters that include an introduction and brief anatomy review where applicable The algorithms are designed to rule out potentially catastrophic injuries such as cervical spine and head injuries The algorithms will then guide the clinician through an evaluation specific to the injury so that a differentiation can be made between the signs and symptoms indicative of serious conditions and those that are relatively benign Assessment of Nonorthopedic Sports Injuries A Sideline Reference Manual is a valuable book that will easily fit into a medical bag and have use as a crossover manual from the classroom to the playing field

Clinical Skills Documentation Guide for Athletic Training Herb Amato, Christy Venable Hawkins, Steven L. Cole, 2006 Athletic training students are required to learn practice test and master clinical skill sets throughout their educational career A textbook that can be used from the start of their education up until graduation becomes essential to this learning process Answering the call for educators and students is Clinical Skills Documentation Guide for Athletic Training Second Edition The esteemed Practical Exam Preparation Guide of Clinical Skills for Athletic Training has been updated revised and renamed to accurately reflect the material presented throughout the text that is necessary for athletic training students to master clinical skill sets as tested on throughout their educational career Herb Amato Christy D Hawkins and Steven L Cole have revised and updated Clinical Skills Documentation Guide for Athletic Training Second Edition to reflect the standards and specific outcomes of the Clinical Proficiencies as established by the National Athletic Trainers Association Incorporating the Learning Over Time Concept this second edition presents a three weighted practical exam format within the Evaluation Box for each clinical skill set Additionally each clinical skill sets follows an easy to use checklist design allowing athletic training students to learn practice test and master clinical skills New features inside the Second Edition Over 110 new clinical skills sets 393 in total throughout the text Chapters have been re organized in a more user friendly fashion Updated references throughout the text New sections inside the Second Edition Joint mobilization General medical Therapeutic exercise re conditioning Therapeutic modalities Therapeutic measurements Athletic training educators will find Clinical Skills Documentation Guide for Athletic Training to be a user friendly text that will easily supplement their curriculum for a way to document when clinical skills have been taught practiced evaluated and mastered by each student With new chapters reflecting the progressing field of athletic training a re organization of the information presented and the addition of 110 new clinical skill sets Clinical Skills Documentation Guide for Athletic Training Second Edition is the critical first step necessary in developing clinical skill set mastery for athletic training students

Administrative Topics in Athletic Training Gary L. Harrelson, Greg Gardner, Andrew P. Winterstein, 2009
