Astir A Publishers Life Story:

The New Cambridge Bibliography of English Literature: Volume 4, 1900-1950 George Watson, I. R. Willison, 1972-12-07 More than fifty specialists have contributed to this new edition of volume 4 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries **Guide to the Study of United States Imprints** George Thomas Tanselle, 1971 *The Origins of Graphic Design in America, 1870-1920* Burton Raffel, Ellen Mazur Thomson, 1997-01-01 By the time the phrase graphic design first appeared in print in 1922 design professionals in America had already created a discipline combining visual art with mass communication In this book Ellen Mazur Thomson examines for the first time the early development of the graphic design profession It has been thought that graphic design emerged as a profession only when European modernism arrived in America in the 1930s yet Thomson shows that the practice of graphic design began much earlier Shortly after the Civil War when the mechanization of printing and reproduction technology transformed mass communication new design practices emerged Thomson investigates the development of these practices from 1870 to 1920 a time when designers came to recognize common interests and create for themselves a professional identity What did the earliest designers do and how did they learn to do it What did they call themselves How did they organize them selves and their work Drawing on an array of original period documents the author explores design activities in the printing type founding advertising and publishing industries setting the early history of graphic design in the context of American social history **The New Cambridge Bibliography of English Literature: 1900-1950** George Watson, 1969 **The History of Printing from Its Beginnings to 1930** Columbia University. Libraries, 1980 *The Commercialization of News in the Nineteenth Century* Gerald J. Baldasty, 1992-11-15 The Commercialization of News in the Nineteenth Century traces the major transformation of newspapers from a politically based press to a commercially based press in the nineteenth century Gerald J Baldasty argues that broad changes in American society the national economy and the newspaper industry brought about this dramatic shift Increasingly in the nineteenth century news became a commodity valued more for its profitability than for its role in informing or persuading the public on political issues Newspapers started out as highly partisan adjuncts of political parties As advertisers replaced political parties as the chief financial support of the press they influenced newspapers in directing their content toward consumers especially women The results were recipes fiction contests and features on everything from sports to fashion alongside more standard news about politics Baldasty makes use of nineteenth century materials newspapers from throughout the era manuscript
