[Essential of Horary Astrology Or Prasna Padavi](#) M. Ramakrishna Bhat, B. P. Nair, 1992-01-01 This book provides an insight into the importance of astrology viz. natal, electional, and horary, as well as deals with other dimensions of this science such as spirituality, spiritualism, Ayurveda, transmigration of souls, thought, reading dreams, temple and its rituals, and effects of particular sins. The work presents new theories and methods of determining success and defeat in contests and wars with the help of illustrative charts. It urges readers to avoid fatalism commonly associated with predictions and explains how one could solve riddles in life and tide over the pessimistic attitude and related psychological problems. The author has thrown fresh light on some questions like the name of the author of the Prasnamarga line of succession of his pupils and the authorship of the Dasadhyayi. The most significant contribution of this work is the clear exposition of the rules of Astamangala and Devaprasna, in addition to Candragupti, water divination, martial problems, Coragrahas, Necromancy, special importance of Mandi and Dasa of its star, Kalacakra, Dasa, etc.

Fundamentals of Astrology M. Ramakrishna Bhat,2013-01-01 Astrology is both Science and Art Hence only the talented can appreciate and understand it Rightly Visnugupta declares that nobody other than a sage can master the ocean like science of astrology The great Varahamihira declares No sin will creep into a place that is sanctified by the presence of a true astrologer No person who studies and divines the course of destiny will ever be found in hell but will reside permanently in the world of Brahman This book brings to the fore not only the rationality of astrology but also the nature and structure of the correct knowledge that our forefathers possessed regarding the predictable influences of planets on human beings and gives a spiritual bias to astrology The reader is taken step by step in this work from the rudiments Viz the distribution of constellations in the Zodiacal belt which is divided into twelve Signs and the planetary hierarchy through the method of calculating the ascendant and other houses of a natal chart assessment of the strengths influences aspects affliction mutual relations etc of the planets to the final stage of reading the brighter and darker sides of the subject s life his chances of success and failure their periods ingress of the soul into the mortal coil and exit there form as well as its departure to other worlds according to its karma In this book an attempt has been made to give a good account of the science of astrology with a view to making the reader a good and true astrologer It also shows that astrology does not make a man a fatalist helpless automation in the hands of a merciless Fate It should on the other hand help him to take to self exertion and self help This hoary lore according to the author is to be practised not for selfish ends but to guide the needy and the distressed to remove the cause of their suffering and to turn their attention towards God
