Midlife Crisis: An Astrological Approach

Ajay Srivastava,2023-01-13 Midlife crisis starts in life of the person when he crossed the age of 42 in his life Uranus is the seventh planet from the Sun and completes one revolution every 84 years and stays in a zodiac for 7 years The transit of Uranus affects the life of every person and it happens only once when Uranus makes an opposite aspect from its natal position at the age of 42 years After crossing such age Uranus makes an angle of 180 degrees from its birth position Therefore after 42 years many important changes start in the life of a person Human life is such a long journey with various twists and turns Midlife is a junction from where the track of life starts changing The pace in life does not remain the same and disharmony starts appearing in different aspects of life This is a phase but this phase comes only to those people who have some specific combination in their birth chart The stage of midlife crisis begins when the slow moving planets begin to change their positions and form hard aspects with their natal positions This situation becomes easier when they slowly move out of the respective sign This book explains when and how the midlife crisis begins What are those aspects and conjunctions of the planets that affect the person during such a phase This book further explains the planetary combination for depression and how to overcome such situation in life How the transit of slow moving planets affects the life of the native and what is their duration Midlife crisis is a transition phase When the journey is long more preparation has to be done Midlife crisis offers an opportunity to see another side of coin that you were completely unaware of until now Learn to turn a crisis into an opportunity when it knocks on your door The midlife crisis is just the beginning of the second part of the journey in life

Bosch,2022-12-10 This survey of how astrology works was not written specifically for astrologers Its purpose is to formulate a materialist theory of what is empirically demonstrated in astrology our relationship with the cosmos Starting with the most

feeble part of the astrological framework Annemiek Bosch presents an explanation for the manifestation of the zodiac signs through the year This cycle appears to be correlated with Earth's angular movement towards and away from the supermassive black hole in the center of our Milky Way galaxy Drawing on the latest scientific insights of quantum physics and consciousness research she then discusses the mechanism underpinning the astrological practice and makes it plausible that our unconscious minds are able to obtain information from quantum entanglement Our coherence seems to cause us to collectively create our reality through a process of controlled prediction and automatic adaptation to the cosmic environment The phenomenon of consciousness instead of arising from individual isolated brains could be the result of this connectedness
