The New Medical Astrology Mario Kertscher, 2025-02-25 The teaching of a New Medical Astrology is an attempt to bring medicine and astrology closer together again While medicine has continued to develop and gain new insights into the organs classical medical astrology has hardly developed at all in the last 2000 years since the doctrine that Aries begins with the head and Pisces ends with the feet After 40 years of thorough research the New Medical Astrology is now based on 12 vital organ systems within the head and torso which correspond to the 12 signs of the zodiac Unlike in Hippocrates time more than 2000 years ago the arms and legs do not play a major role in the new classification as they do not represent vital organs This work is a new connection between the psychological astrology human anatomy psychosomatics and eye diagnosis This textbook forms the basis for learning astrology New Medical Astrology and at the same time forms a bridge to the psychosomatic explanations of illnesses in relation to the individual zodiac signs The intention was to write a textbook in an easily understandable way and to avoid confusing foreign or technical terms that too difficult to understand This makes it equally

suitable for learning teaching or just exploring for both young and old explorers of astrology

The guide to astrology, by Raphael Robert T. Cross,1879 *Astrological Degrees of Life* Harold Hason,1985-01-01 **The Zodiac by Degrees** Martin Goldsmith,2004-05-01 The Zodiac by Degrees provides symbols and interpretations for each of the 360 degrees of the zodiac These symbols make a direct connection with your basic spiritual energies and penetrate the private language of your personal mythology For this second edition every one of the 360 degrees has been reexamined from extensive lists of examples In the end about ninety degrees have undergone major changes and all of the rest have been clarified and sharpened The result is a symbol system of unparalleled accuracy and an indispensable tool for both amateur and practicing astrologers The Zodiac by Degrees gave me serious goose bumps on several occasions Inside of half an hour the text had cleared up my ambivalence about the exact degree of my Ascendant and given me a new understanding of my Sun degree 8212one vastly more evocative than the traditional Sabian interpretation Martin Goldsmith is a poet in the old sense of the word he s on fi re with imagery and the fire is contagious 8212Steven Forrest author of The Inner Sky At last An astrologer who has undertaken the huge workload of intensive research into the individual degrees of the zodiac Thanks to his years of work Goldsmith has finally taken this area of astrology out of the misty intuitive channeled area of the Sabian symbols onto the firmer and more reliable footing of good grounded research This long needed book is therefore an essential reference work for any serious astrologer 8212Bernadette Brady author of Predictive Astrology [Secrets of Predictive Astrology](#) Anthony Louis,2023-12-08 Improve Your Forecasts with William Frankland s Simple Dependable Techniques In the 1920s London astrologer William Frankland revolutionized predictive astrology His logical and orderly methods were revered for their direct reliance on the birth chart instead of complex and time consuming mathematics Though Frankland s name is not well known today his rapid and reliable techniques are still relevant Now you can learn them for yourself Unsatisfied with the traditional techniques of his time Frankland turned to texts by Claudius Ptolemy and Alan Leo to develop more nuanced accuracy in forecasting Drawing from Frankland s two books author Anthony Louis analyzes more than sixty example charts showing how inclusive and uncomplicated these game changing techniques can be even with charts where the exact birth time is not known Louis delves into the relationship between one s age and zodiac signs using Ptolemy s seven ages of man and Alan Leo s twelve stages of life and how birth numbers can identify potentially significant years He also explores how Frankland utilized midpoints symbolic directions planetary periods operative influences the twelve houses and more With Louis s valuable insight on Frankland s predictive system you can make the most of opportunities to come Includes a foreword by Maria Blaquier director of Academia de Astrolog a Avanzada MB in Argentina **Introduction to Nakshatra Astrology** Ram Babu Sao,2024-09-11 Nakshatra means something that never decays It has been referred to as constellation or asterism and also at times as lunar mansions by astrologers Among these the word asterism comes closest to the meaning of Nakshatra Nakshatra is the Real Secret of Vedic Astrology There are billions of stars in the sky A group of stars when

forms a recognizable pattern we call it a constellation There could be uncountable number of constellations in the skies depending upon from where we see it We see them from the Earth and the astronomers have discovered 88 constellations till now In astrology we only use 27 constellations which form the twelve zodiac belts There are 12 zodiac sign in this zodiac belt and each zodiac sign has a width of 30 degrees Each zodiac sign is owned by a certain planet out of 7 primary planets A planet can be present anywhere in Zodiac sign either in its own zodiac sign or in some other zodiac sign In the Vedic Hindu system of Astrology known in Sanskrit as Jyotish the 27 constellations and not the 12 star signs are the key to understanding celestial influences on our planet These 27 constellations are known as the 27 Nakshatra which are 300 to 400 light years away from earth Based on a person's moon Nakshatra at the time of birth Jyotish offers a most powerful predictive technique compared to other forms of astrology
