**Motherdom** Alex Bollen, 2025-03-04 Blaming shaming and flimsy evidence welcome to the ugly world of Good Mother myths When Alex Bollen had her first baby the fear of being a bad mother made her guilty and anxious A researcher with twenty years experience she went looking for answers To her surprise the studies she looked at were exaggerated and misrepresented in the media forming the foundation for what she calls Good Mother myths These myths are an assortment of narratives ideologies and stereotypes deployed to censure mothers and blame them for every societal ill Incensed by the way bad science is used to shame mothers Alex Bollen decided to set the record straight With meticulous research and keen insight *Motherdom* exposes both the shaky science and unjustified prescriptions about how mothers should naturally behave Competing visions of birth natural versus medical mean women can be criticised whatever happens raising the odds that birth will be a damaging even deadly experience Mothers are judged and belittled whether they breast or bottle feed their babies Bogus claims about brain development and dodgy attachment theories mean that whatever mothers do it is never enough This has to stop We must replace Good Mother myths with a realistic approach to parenting Alex Bollen proposes *motherdom* a more expansive conception of motherhood which values and respects the different ways people raise their children Instead of finding fault with mothers *Motherdom* shifts our focus to the relationships and resources children need to flourish
