Birthing A Nation Gender Creativity And The West In American Literature Hb:

Birthing a Nation Susan J. Rosowski, 2015-10 *Birthing a Nation* is about national identity and the American West. If it is a truism that facing west was the American male version of invoking the Muse, what happened if you were female? Most past interpretations of western American literature have echoed Frederick Jackson Turner's frontier hypothesis, emphasizing the conflict of wilderness and civilization, the hero of rugged individualism, the act of returning to origins and reemerging as the reborn American Adam. In this reading of western American women writers who responded to the challenge to give birth to a nation, Susan J. Rosowski proposes an alternative, more hopeful affirmation of our cultural history and perhaps our cultural destiny. Rosowski begins by tracing the birth metaphor through three and a half centuries of American letters. She reexamines the premises underlying the telling of the literary West and posits a female model of creativity at the genesis of American literature. She follows four authors on a multigenerational journey beginning with Margaret Fuller in 1843, moving on a generation later to Willa Cather, advancing to Jean Stafford, and ending with Marilynne Robinson. In her reading of these writers who most directly and deeply believed in literature as a serious and noble form of art and who wrote to influence how the country perceived itself, Rosowski contributes to the ongoing process of remapping the literary landscape.

Woman: The Prismatic Gender HB Goldsmith, The book *Woman: The Prismatic Gender* is exclusively written for housewives, homemakers, working women, socialists, as well as feminists of the human society. It reflects various types of stages and events that a woman experiences in her life during her childhood, teenage, adulthood, maturity, social, personal, and professional life. The author has highlighted the frequent phases of womanhood which most of the school girls, female teenagers, college girls, young women, and mature women undergo. The book covers imperative information about women's life such as biology and gender, conscription, gender equality, discrimination, domestic violence, dowry system, economic empowerment, equal employment, family planning, female education, feminine psychology, and freedom from violence. It also focuses on some perceptive and discerning issues like abuse during childbirth, bride buying, child marriage, cyberbullying, forced marriage, gender biases, harmful traditional practices, India's weak social security system, misogyny, online threats, terrorism, and hate crimes, and wife selling. The author is acknowledging all the female colleagues, family women, friends, female relatives, social media women, friends, and female contemporaries for their suggestions, feedbacks, and opinions. This book will definitely be a 24x7 guide and a handy tool for girl students, housewives, homemakers, female workers, and working women worldwide. The author feels highly indebted to The Almighty Living God who has helped him directly or indirectly in writing of this book. May all women of the world live happy and peaceful life.

Materialist Feminism Rosemary Hennessy, Chrys Ingraham, 1997 During the 1980s, capitalism triumphantly secured its global reach; anti-communist ideologies hammered home socialism's inherent failure; the New Left increasingly moved into the professional middle class, and many of

feminism's earlier priorities were marginalized Identity politics often formulated in terms of social reconstructionism or multiculturalism has increasingly suppressed materialist feminism's systematic perspective replacing it with discourse analysis or cultural politics Materialist Feminism A Reader argues against the retreat to multiculturalism for keeping invisible the material links among the explosion of meaning making practices in highly industrialized social sectors the exploitation of women's labor and the appropriation of women's bodies that continues to undergird the scramble for profits and state power in multinational capitalism
