Lis Garratt,2018-11-05 Many midwives will care for women who are survivors of childhood sexual abuse CSA whether these women disclose this or not Pregnant and birthing women commonly experience their bodies becoming public property a variety of sometimes intimate medical procedures and limited choices on where and how care is provided For CSA survivors who have suffered loss of ownership over their bodies as children and may experience recurring feelings of powerlessness and loss of control these factors can combine with impersonal and medicalised settings and practices to deeply traumatic effect Sexual abuse is all about power not sex interviewee Many midwives also experience powerlessness and loss of control as professionals as a result of these same settings and practices and those midwives who are themselves CSA survivors bring a particularly acute awareness of this and of the needs of survivor mothers This unique study sets out to gain a deeper understanding of the needs of these mothers by exploring them alongside the parallel experiences of survivor midwives It explores the insights and reflections they together bring to midwifery and the positive results of more collaborative personal communicative and ultimately empowering practices for all involved The significance of this book is far wider than its immediate subject for it offers us the opportunity to rethink our professional coping strategies If we seek to make all our professional relationships ones of equality and opportunities for growth as would benefit someone who has suffered abuse then we can all grow and flourish from the Foreword by Mavis Kirkham **Joints and Connective Tissues** Kerry

Benzon,Rebecca Whittle,Jo Hickman-Dunne,2023-10-24 This book shines a light on the way in which risk in and beyond childbirth is highly contextual and the way in which risk management strategies can be understood as socially and materially constructed *The Politics of Maternity* Rosemary Mander,Jo Murphy-Lawless,2013-04-12 The evidence surrounding the skills and approaches to support good birth has grown exponentially over the last two decades but so too have the obstacles facing women and midwives who strive to achieve good birth This new book critically explores the complex issues surrounding contemporary childbirth practices in a climate which is ever more medicalised amidst greater insecurity at broad social and political levels The authors offer a rigorous and thought provoking analysis of current clinical managerial and policy making environments and how they have prevented sustaining the kind of progress we need The Politics of Maternity explores the most hopeful developments such as the abundant evidence for one to one care for women and sets these accounts against the background of changes in health service organisation and provision that block these approaches from becoming an everyday occurrence for women giving birth The book sets out the case for renewed attention to the

Klassen,2001-10-07 Blessed Events explores how women who give birth at home use religion to make sense of their births and in turn draw on their birthing experiences to bring meaning to their lives and families Pamela Klassen introduces a surprisingly diverse group of women in their own words while also setting their birth stories within wider social political and economic contexts In doing so she emerges with a study that disrupts conventional views of both childbirth and religion by blurring assumed divisions between conservative and feminist women and by taking childbirth seriously as a

religious act Most American women who have a choice give birth in a hospital and request pain medication Yet enough women choose and advocate unmedicated home birth and do so for carefully articulated reasons social resistance among them to constitute a movement Klassen investigates why women whose religious affiliations range from Old Order Amish to Reform Judaism to goddess centered spirituality defy majority opinion the medical establishment and sometimes the law to have their babies at home In considering their interpretations including their critiques of the dominant medical model of childbirth and their views on labor pain she examines the kinds of agency afforded to or denied women as they derive religious meanings from childbirth Throughout she identifies tensions and affinities between feminist and traditionalist appraisals of the symbolic meaning of birth and the power of women What does home birth a woman centered movement working to return birth to women s control mean in practice for women s gender and religious identities Is this supreme valuing of procreation and motherhood constraining or does it open up new realms of cultural and social power for women By asking these questions while remaining cognizant of religion s significance Blessed Events challenges both feminist and traditionalist accounts of childbearing while broadening our understanding of how religion is lived in contemporary America
