Birthright Canadians 3:

Born Innocent Michael J. Sullivan, 2023 Over seven percent of all children in the United States have experienced a parental incarceration Children and other dependents suffer the collateral consequences of preventive justice measures increasingly used by liberal democratic countries to combat a broad range of suspected crime and anti state activities But what does the state owe to the innocent dependents of accused caregivers In *Born Innocent* Michael J Sullivan explores the impact of vicarious punishment on children with a particular focus on children subject to family separation based on their identity allegiances and immigration status The book provides one of the first unified treatments of state sponsored family separation and its impact on disadvantaged citizens and immigrants *Next-Generation Memory and Ukrainian Canadian Children's Historical Fiction* Mateusz Świetlicki, 2023-03-24 This is the first book monograph devoted to Anglophone Ukrainian Canadian children's historical fiction published between 1991 and 2021 It consists of five chapters offering cross sectional and interdisciplinary readings of 41 books novels novellas picturebooks short stories and a graphic novel The first three chapters focus on texts about the complex process of becoming Ukrainian Canadian showcasing the experiences of the first two waves of Ukrainian immigration to Canada including encounters with Indigenous Peoples and the First World War Internment The last two chapters are devoted to the significance of the cultural memory of the Holodomor the Great Famine of 1932 1933 and the Second World War for Ukrainian Canadians All the chapters demonstrate the entanglements of Ukrainian and Canadian history and point to the role Anglophone children's literature can play in preventing the symbolical seeds of memory from withering This volume argues that reading imagining and reimagining history can lead to the formation of beyond textual next generation memory Such memory created through reading is multidimensional as it involves the interpretation of both the present and the past by an individual whose reality has been directly or indirectly shaped by the past over which they have no influence Next generation memory is of anticipatory character which means that authors of historical fiction anticipate the readers both present day and future not to have direct links to any witnesses of the events they discuss and to have little knowledge of the transcultural character of the Ukrainian Canadian diaspora **Debating Transformations of National Citizenship** Rainer Bauböck, 2018-09-12 This open access book discusses how national citizenship is being transformed by economic social and political change It focuses on the emergence of global markets where citizenship is for sale and on how new reproduction technologies impact citizenship by descent It also discusses the return of banishment through denationalisation of terrorist suspects and the impact of digital technologies such as blockchain on the future of democratic citizenship The book provides a wide range of views on these issues from legal scholars political scientists and political practitioners It is structured as a series of four conversations in which authors respond to each other This exchange of arguments provides unique depth to current debates about the future of citizenship *Natural Resource Revenues* Anthony Scott, 1976 Debate on the question of who should receive the surplus

revenue generated by natural resource exploitation in Ottawa or the provinces is usually carried on in terms of history politics custom law social values and environmental considerations This collection of essays presents analyses of the question from the economist's point of view The essays fall into three groups In the first of these the authors examine the taxation of the mining and energy industries and show how the method of taxation chosen by different levels of government federal or provincial may be non neutral distorting private output and timing decisions The second group consists of careful case studies of the effects of particular natural resource taxation measures the third focuses directly on the question of provincial and federal entitlement to resource revenues Although arguments are advanced for linking the right to tax to the responsibility for management and control at present vested in the provinces most of the contributors would agree that the provinces should be regarded as stewards and bailiffs not landlords as rent collectors and managers not rentiers and owners **Judicial**

Activism and the Democratic Rule of Law Sonja C. Grover, 2020-02-17 In this book the author argues that judicial activism in respect of the protection of human rights and dignity and the right to due process is an essential element of the democratic rule of law in a constitutional democracy as opposed to being judicial overreach Selected recent case law is explored from the US and Canadian Supreme Courts as well as the European Court of Human Rights illustrating that these Courts have at times engaged in judicial activism in the service of providing equal protection of the law and due process to the powerless but have on other occasions employed legalistic but insupportable strategies to sidestep that obligation The book will be of interest to those with a deep concern regarding the factors that influence judicial decision making and the judiciary's role through judgments in promoting and preserving the underpinnings of democracy This includes legal researchers the judiciary practicing counsel and legal academics and law students as well as those in the area of democracy studies in addition to scholars in the fields of sociology and philosophy of law Lawless Martha

Paynter, 2025-09-28T00:00:00Z Canada is the only country with complete decriminalization of abortion no gestational duration limitations no parental consent obligations and no waiting periods In recent years other countries New Zealand Colombia Uruguay Mexico have made strides toward this while the United States has notoriously lost ground Amidst the tumult nurse and scholar Martha Paynter uses historical context and contemporary issues to explain why experts advocate against laws governing abortion Despite decriminalization Canadian federal and provincial legislation and regulations about health funding delivery and human rights all shape how abortion care is delivered Barriers persist in uneven access unclear information and belief based denial of care In accessible plain language from the expansive perspective of a clinician researcher and activist Paynter describes abortion policy practice and experience and discusses how to resolve challenges that continue more than three decades after Canada became the world's most legally progressive jurisdiction for abortion

Like Everyone Else but Different Morton Weinfeld, 2018-03-21 Liberal democratic societies with diverse populations generally offer minorities two usually contradictory objectives the first is equal integration and participation the second is an

opportunity within limits to retain their culture Yet Canadian Jews are successfully integrated into all domains of Canadian life while at the same time they also seem able to retain their distinct identities by blending traditional religious values and rituals with contemporary cultural options Like Everyone Else but Different illustrates how Canadian Jews have created a space within Canada s multicultural environment that paradoxically overcomes the potential dangers of assimilation and diversity At the same time this comprehensive and data driven study documents and interprets new trends and challenges including rising rates of intermarriage newer progressive religious options finding equal space for women and LGBTQ Jews tensions between non Orthodox and Orthodox Jews and new forms of real and perceived anti-Semitism often related to Israel or Zionism on campus and elsewhere The striking feature of the Canadian Jewish community is its diversity While this diversity can lead to cases of internal conflict it also offers opportunities for adaptation and survival Seventeen years after its first publication this new edition of Like Everyone Else but Different provides definitive updates that blend research studies survey and census data newspaper accounts and articles and the author s personal observations and experiences to provide an informative provocative and fascinating account of Jewish life and multiculturalism in contemporary Canada Migration Between the United States and Canada Statistics Canada, United States. Bureau of the Census, 1990 The Confederation Group of Canadian Poets, 1880-1897 D.M.R. Bentley, 2013-12-11 As one of the formative periods in Canadian history the late nineteenth century witnessed the birth of a nation a people and a literature In this study of Canada s first school of poets D M R Bentley combines archival work including extensive research in periodicals and newspapers with close readings of the work of Charles G D Roberts Archibald Lampman Bliss Carman William Wilfred Campbell Duncan Campbell Scott and Frederick George Scott Bentley chronicles the formation reception national and international successes and eventual disintegration after the 1895 War Among the Poets of the Confederation Group whose poetry forever changed the perception and direction of Canadian literature With the aid of biographical political and sociological analyses Bentley s literary history delineates the group s political aesthetic and thematic dispositions and characteristics and contextualizes them not only within Canadian history and politics but also within contemporary intellectual and literary currents including Romantic nationalism Canadianism and poetic formalism Bentley casts new light on the poets commonalities such as their debt to Young Ireland their commitment to careful workmanship and their participation in the American mind cure movement as well as on their most accomplished and anthologized poems from 1880 to 1897 In the process he presents a compelling case for the literary and historical importance of these six men and their poems in light of Canada s cultural and political past and defends their right to be known as Canada s first poetic fraternity at a time when Canada was striving to achieve literary and national distinction The Confederation Group of Canadian Poets 1880 1897 is an erudite and innovative work of literary history and critical interpretation that belongs on the bookshelf of every serious scholar of literary studies **Catalog of the Gerald K. Stone Collection of Judaica** Gerald K. Stone, 2021-01-05 Gerald K Stone has collected books about Canadian

Jewry since the early 1980s This volume is a descriptive catalog of his Judaica collection comprising nearly 6 000 paper or electronic documentary resources in English French Yiddish and Hebrew Logically organized indexed and selectively annotated the catalog is broad in scope covering Jewish Canadian history biography religion literature the Holocaust antisemitism Israel and the Middle East and more An introduction by Richard Menkis discusses the significance of the Catalog and collecting for the study of the Jewish experience in Canada An informative bibliographical resource this book will be of interest to scholars and students of Canadian and North American Jewish studies **Street Protests and Fantasy**

Parks David Cameron,Janice Gross Stein,Janice Stein,2002 The speed and intensity of global integration in the last two decades have provoked serious debate about the human impact of globalization and deep concern about the capacity of the state to provide social justice Street Protests and Fantasy Parks focuses on two dimensions of globalization the cultural and social realities of global connection and the uneasily shifting role of the state While global processes are fusing societies and economies more deeply than ever before the editors argue that obituaries for the state are premature if not wholly inappropriate These essays examine a series of compelling case studies the entertainment industry citizenship social activism and wired communication to assess the choices states have and the consequences of those choices for culture and society
