rules out there but it is fun to continue to learn One should never stop learning period I have been teaching ESL EIL for over three decades I have always sympathized with my students as I have seen them struggle to gain command of the English language My background as an ESL EIL student and as an ESL EIL teacher hopefully has helped my students a great deal I have also learned a lot from my students Therefore this book is a compilation of what I have learned throughout the years first as a little girl as an ESL EIL student and now as an ESL EIL professor EBOOK: Understanding Autism in the Early Years Prithvi Perepa,2013-06-16 This book provides an introduction to the autism spectrum and explores some of the theories and research which help in understanding the characteristics of young children who may be on the autism spectrum and the likely impact on their development and learning It offers in depth information on some of the key features which can lead to a child being diagnosed with autism and discusses the diversity of the spectrum as well as presenting information on available screening tools The book considers the main areas of difficulties that children with autism display social interaction social communication and imagination and play and explores the role that early years practitioners have in supporting the child and helping them to develop appropriate communication and social skills As well as advice on key aspects of early years practice such as working with parents other professionals and preparing the children for the move to primary school there are specific chapters on the pertinent aspects of behaviour and sensory issues Each chapter includes reflective activities which enable you to apply the information within your own context Key points and further sources of information are indicated at the end of each chapter helping you to check your understanding and expand your knowledge on specific topics With its practical strategies for supporting children with autism during the early years this book is key reading for students studying early years or special education as well as for practitioners working with children on the autism spectrum in early years settings This is a timely and very practical book addressed to all those working in early years settings who are working with or who will be working with children on the autism spectrum i e all staff in any early years setting It gives clear and authoritative information on current understanding of the autism spectrum and draws on a wide range of literature to do so while being written in a clear direct style that should be accessible to all It would also be of benefit to family members who want to understand their child and how to best work with the systems and services they encounter The book is realistic about the challenges but is also full of practical positive suggestions which respect the contribution of all to enabling effective practice staff in the early years setting support services the family and not least the children themselves Professor Rita Jordan BSc MSc MA PhD C Psychol AFBPS OBEEmeritus Professor in Autism Studies University of Birmingham UK Early years practitioners are absolutely vital partners in recognising autism and in adjusting their practice in response to the needs of children with autism The impact they can make on families and outcomes for children is immeasurable therefore a book like this which gives a mixture of practical strategies underpinned by evidence is a wonderful tool With a prevalence rate of 1 in 100 all early years practitioners will encounter young children with autism in their careers The difference they can make

by being able to recognise the condition support families and adapt their practice is immeasurable This clear and easy to read book will be a real boon to all early years practitioners Carol Povey Director of the Centre for Autism National Autistic Society Understanding Autism in Early Years is a clearly written and very useful book Early years practitioners will find it helpful for recognising the signs of autism spectrum conditions in young children working with families and adapting their practice in ways that will help those they care for learn and develop Dr Mitzi Waltz Senior Lecturer in Autism Sheffield Hallam University UK
